## 1. About One Managed Investment Funds Limited

### The Responsible Entity

One Managed Investment Funds Limited (**OMIFL**) is the responsible entity of the Fund and is the holder of AFSL 297042 issued by ASIC. OMIFL has extensive experience as a corporate trustee and custodian, and is a professional responsible entity operating numerous managed investment schemes.

OMIFL is the issuer of this PDS and of the Units. OMIFL's role is to manage and administer the Fund in accordance with the Constitution and the Corporations Act in the interests of Investors. OMIFL also holds the assets of the Fund on trust for Investors.

### The Investment Manager

OMIFL has appointed Charter Hall Property Securities Management Limited (**Charter Hall Maxim**) as the Investment Manager for the Fund. Charter Hall Maxim is the holder of AFSL 238349 issued by ASIC. As the Investment Manager, Charter Hall Maxim is responsible for managing the investments of the Fund.

Charter Hall Maxim is a subsidiary of Charter Hall Group (ASX: CHC), one of Australia's leading fully integrated property groups, managing high quality property on behalf of institutional, wholesale and retail clients. The Charter Hall Group uses its property expertise to access, deploy, manage and invest equity in its core real estate sectors – office, retail, industrial and social infrastructure – to create value and generate superior returns for its customers.

Please see Section 5 of this PDS for more information.

## 2. How the Fund Works

### Structure of the Fund

The Fund is registered as a managed investment scheme under the Corporations Act and is structured as a unit trust.

Investors' funds are pooled and managed in accordance with a set objective and strategy. As an Investor, you have a fixed beneficial interest in the assets of the Fund calculated as the proportion your Unit holding in relation to all of the Units in the Fund which have been issued. You do not however have a right to demand that any particular assets of the Fund be transferred to you.

ASIC has a website [www.moneysmart.gov.au](http://www.moneysmart.gov.au) that has more information on managed investment schemes.

## Prices of your Units

When you invest in the Fund you will be issued Units at the prevailing issue price. When you withdraw from the Fund your Units are redeemed at the prevailing withdrawal price. The issue price and the withdrawal price of Units are determined on each Business Day. In summary, the price per unit is determined by dividing the net asset value of the Fund by the number of Units on issue. The Unit price may therefore be influenced by movements in the value of the Fund's Investments at a particular point in time. In other words, the Unit price may vary as the market value of the Fund's Investments rises and falls.

When buying or redeeming Units, the Unit issue or withdrawal price you pay or receive will also be adjusted on account of the buy/sell spread. The buy/sell spread is an adjustment which takes into account any buying and selling costs associated with the underlying assets of the Fund (e.g. brokerage).

See Section 6 for further information.

For a copy of OMIFL's Unit Pricing Policy, please contact OMIFL. Unit prices will be displayed on Charter Hall Maxim's website – [www.charterhall.com.au/maxim](http://www.charterhall.com.au/maxim).

## Minimum Investment

For Australian investors, the minimum investment you may make in the Fund is \$5,000. Subsequently, amounts in addition to this minimum investment may be contributed in amounts of no less than \$100.

For New Zealand investors, the minimum investment you may make in the Fund is \$20,000. Subsequent amounts in addition to this minimum investment may be contributed in amounts of no less than \$1,000.

The number of Units issued to you when you make an investment will be calculated by dividing the amount you invest by the applicable application price.

## Applications

When making your initial application you must complete an Application Form which accompanies this PDS and can be found at [www.charterhall.com.au/maxim](http://www.charterhall.com.au/maxim) or [www.oneinvestment.com.au/charterhallmaxim](http://www.oneinvestment.com.au/charterhallmaxim). See Section 8 on how to apply. You can increase your investment at any time by making an application for additional Units. OMIFL reserves the right to accept or reject any application for Units.

Applications will only be processed on Business Days. The cut-off time each Business Day for receiving applications and cleared funds is 2.00pm Sydney time. Completed applications received before the cut-off time will be processed using the issue price on that day. Applications received after that time, or on a non-Business Day, will be taken to have been received before the cut-off time on the next Business Day and will be processed using the issue price on that day.

Direct applications will not be considered "completed applications" and will not be processed until all required documentation is received (including any requested AML Legislation documentation).

Confirmation of an investment will normally be issued within 5 Business Days after the application is processed.

## Withdrawals

The Fund is managed with the intention of generating returns over the medium to long-term. Charter Hall Maxim recommends that you keep your investment in the Fund for a minimum period of 3 years.

When the Fund is 'liquid' (as defined in the Corporations Act), you may make withdrawal requests for all or part of your investment in accordance with the procedure set out in the Constitution.

A withdrawal request may be made by submitting a written request to redeem all or part of your Units to the Administrator. Withdrawals will only be processed on Business Days. Withdrawal requests received before 2.00pm Sydney time on a Business Day will generally be processed using the withdrawal price applicable for that day. Withdrawal requests received after that time, or on a non-Business Day, will generally be processed using the withdrawal price applicable for the next Business Day and will be processed using the withdrawal price on that day.

Withdrawal proceeds are usually paid within 7 days after the withdrawal request is received and are paid by direct credit to your nominated Australian or New Zealand financial institution account.

## Restrictions on Withdrawals

In certain circumstances, such as a suspension on withdrawals or where the Fund is 'non-liquid' (as defined in the Corporations Act), you may have to wait a longer period of time before you can redeem your investment. Circumstances where OMIFL may suspend withdrawals (for up to 120 days) in accordance with the Constitution include:

- (a) where it is impracticable to determine the withdrawal price;
- (b) where satisfaction of all withdrawal requests would involve realisation of a significant amount of the Fund's Investments;
- (c) where OMIFL reasonably considers it is in the best interests of Investors; or
- (d) the law otherwise permits.

## Income Distributions

The distributable income payable to Investors is generated from the net earnings of the Fund.

All distributable income to which you would otherwise be entitled will be automatically reinvested into the Fund on your behalf (and additional Units will be issued to you in consideration for this reinvestment), unless you give us written notice that your income entitlement, or any part of that income entitlement, is to be paid to your nominated Australian or New Zealand financial institution. Investors should be aware that there may be tax implications associated with the reinvestment of your income entitlement. Investors should obtain professional tax advice on this issue before investing in the Fund and make their own arrangements for any tax liabilities that arise.

Your entitlement to distributable income is calculated quarterly based on your Unit holding in the Fund as at the final day of each Distribution Period and on the winding up of the Fund. Units issued for reinvested distributions will be issued at the Unit price prevailing on the day after the relevant Distribution Period. No buy spread applies to Units issued to you as a result of reinvestment of your income entitlement. Income (if any) to which you are entitled to be paid will normally be paid to you within 20 Business Days after the end of the distribution period or when possible following the winding up of the Fund.

Your entitlement to distributable income is calculated by determining the income of the Fund for the period after allowing for all expenses incurred by the Fund; and dividing the total distributable income for that period by the number of Units on issue on that day to determine the income per Unit; and then multiplying the income per Unit by the number of Units you hold.

Investors should be aware that an investment in the Fund carries the risk that you may lose some or all of your investment (see Section 4 of this PDS).

## Changes to Fund Details

OMIFL has the right to make changes to the Fund at any time, and in some cases without prior notice. This could include closing or terminating the Fund, changing the Fund's Investment Manager, amending its investment parameters, including the investment objective and strategy, or changing the asset class allocation ranges and currency strategy (if applicable). Refer also to 'Updated Information' in section 9 of this PDS.

You should read the important additional information about how the Fund works in the Additional Information Booklet before making a decision to invest. Go to the 'Additional Information Booklet' available from the Website; in particular, Section 2. The material relating to how the Fund works may change between the time when you read this PDS and the day when you acquire Units in the Fund.

## 3. Benefits of Investing in the Fund

### Significant Features

The Fund invests in an actively managed and diversified portfolio of predominantly Australian listed real estate investment trusts (A-REITs) and property related securities. The Fund also has the ability to invest up to 10% of the Fund's assets in international listed property securities as well as up to 10% in cash.

The Fund will not invest in derivatives (including for the purpose of hedging), sell short, or borrow money to invest.

### Significant Benefits

An investment in the Fund offers the following significant benefits:

- **access to a high conviction active investment strategy**, with focused research and investment processes, that seek to provide higher returns with lower volatility than the market by building a portfolio based on individual merit and not by benchmark weights;
- **access to the extensive experience of Charter Hall Maxim** to manage the Fund's investments as well as access to Charter Hall's direct property experience;
- **exposure to property** as the Fund provides access to a diversified portfolio of quality ASX listed property securities which own office, retail, industrial, residential and property related social infrastructure assets;
- **a capacity limit** of 1.0% of the market capitalisation of the S&P/ASX 300 A-REIT Index to enable the Fund to take active positions in smaller securities and allow more efficient management of re-weightings between individual securities; and
- **quarterly distributions** which can be reinvested in the Fund or can be paid to your nominated Australian or New Zealand financial institution account.

## 4. Risks of Managed Investment Schemes

All investments carry risk. Managed investment schemes may invest in a range of asset classes, for example, cash, bonds, equities and property, each of which offer different levels of risk. The likely investment return, and the level of risk of losing money, differs among managed investment schemes depending on the underlying strategy and mix of assets. Typically, those assets with the highest potential long-term return also have the highest level of short-term risk.

When considering investing in any managed investment scheme, it is important to understand that:

- (a) the value of your investment will likely go up and down;
- (b) returns are not guaranteed;
- (c) you may lose some or all of your money;
- (d) the level of returns will vary, and past performance and returns are not an accurate predictor of future performance and returns;
- (e) laws affecting your investment in a registered managed investment scheme may change; and
- (f) the appropriate level of risk for you will depend on a range of factors including your age, investment time frame, where other parts of your wealth are invested and how tolerant you are to the possibility of losing some of your money.

When deciding whether to invest in the Fund, you must decide whether, given the speculative nature of trading undertaken by Charter Hall Maxim and the Fund's underlying investments, your financial situation permits you to participate in an investment that involves a high degree of risk. You may lose a substantial portion or even all of the money you invest in the Fund.

Risk can be managed but it cannot be completely eliminated. Some of the significant risks of an investment in the Fund are:

- (a) **Market risk:** The risk that the market price of an asset will fluctuate as a result of factors such as economic conditions, government regulations, market sentiment, local and international political events and environmental and technological issues. Market risks may have different impacts on each type of asset, investment style and investor.
- (b) **Security specific risk:** The risk associated with an individual asset. The price of any securities invested in by the Fund may be affected by unexpected changes in a particular entity's operations such as changes in management, the loss of a significant customer or tenant or a change in the income or the value of the assets in which they invest.
- (c) **Liquidity risk:** The risk that an investment may not be easily converted into cash with little or no loss of capital and minimum delay. This may cause a delay or freeze in processing withdrawal requests.
- (d) **Interest rate and inflation risk:** Changes in interest rates can have a positive or a negative impact directly or indirectly on investment values and/or returns on securities in which the Fund invests. High levels of inflation and rising interest rates may adversely affect the Fund, including by reducing the amount the Fund has available to distribute as income to Investors.
- (e) **International investing risk:** The risks of investing internationally include adverse currency fluctuations, potential political and economic instability affecting overseas markets, limited liquidity and volatile prices of international investments and repatriation of funds. It is not our intention to hedge the foreign currency exposure of the Fund arising from investments in overseas markets. Further, the Australian entities in which the Fund invests may have investments overseas which also exposes these Fund investments to these international investing risks.
- (f) **Manager risk:** The financial performance of the Fund depends primarily on the level of skill and performance of Charter Hall Maxim and the successful implementation of the investment strategy. There is a risk that Charter Hall Maxim may make poor investment decisions or that its investment methods are inappropriate or incorrect resulting in poor or nil returns.

- (g) **Fund risk:** Risks specific to the Fund include the risk that the Fund could terminate and that the fees and costs payable by the Fund could change. There is also a risk that investing in the Fund may give different results than investing directly because of income or capital gains accrued in the Fund and the consequences of investments and withdrawals by other investors.
- (h) **Pandemic Risk:** While the impact of COVID19 or any future pandemic is not able to be forecast, there is a risk that the broad economic conditions caused by pandemics may adversely affect the Fund, including the value of the Fund's investments and the Fund's earnings and income distributions.

## 5. How We Invest Your Money

**You should consider the Fund's investment objective, the Fund's likely investment return, risk level, your individual circumstances and your time frame before choosing to invest in the Fund.**

### Description of the Fund

The Fund will give you exposure to a varying mix of listed A-REITs across but not limited to the retail, residential, commercial, hotel, industrial and real estate related social infrastructure sectors. The Fund may also invest in a selected range of other assets including listed property related securities, international listed property securities, cash and fixed interest. Charter Hall Maxim will make decisions about buying and selling investments of the Fund daily (often called active management), selecting individual investments and also changing the mix of the types of investments.

### Investment Return Objective

The aim of the Fund is to outperform the S&P/ASX 300 A-REIT Accumulation Index by 1.5% p.a. (after Fees) over rolling 3 year periods whilst also aiming to achieve a balance between growth in the value of your Units as well as income from your investment. The returns from the Fund are not guaranteed.

### Investment Strategy

Charter Hall Maxim utilises a disciplined investment process combining in-depth fundamental research with portfolio construction and risk controls with the aim to add consistent value over time. The basic premise of Charter Hall Maxim's investment philosophy is that there is a close relationship between the property market cycle and the economic cycle.

Having regard to what is happening in the Australian economy, Charter Hall Maxim expects that some of the property sub-sectors (e.g. commercial, industrial and retail) are likely to offer better value than others. Accordingly, Charter Hall Maxim's top down research focuses on identifying those sub-sectors which are likely to add value.

In assessing securities for inclusion in the Fund's portfolio, we implement a system driven process which produces a quality score for every investible security across a selection of factors including the sector and asset exposures, financial management capabilities and approach to Environmental, Social and Governance (ESG) principles. When considering labour standards in our assessment of securities for inclusion, we adopt and implement the Charter Hall Human Rights and Modern Slavery Framework. All else equal, a security with a higher relative ESG ranking will be viewed more favourably for investment.

At the security level, quantitative and qualitative factors are utilised to identify listed property securities which:

- have clearly focused management teams;
- have quality assets;
- are appropriately valued;
- have sustainable earnings and distribution growth; and
- have an appropriate corporate and capital structure.

## Asset Allocation and Range

Charter Hall Maxim will actively adjust the investment mix within the investment guideline ranges set out below. The "target" position is the start position for formulating the portfolio structure. Generally speaking, the target position is intended to be the investment mix of the Fund.

	Min	Max	Target
<b>Australian Listed A-REITs and Listed Property Developers and Managers</b>	80%	100%	95%
<b>International Listed REITs</b>	0%	10%	0%
<b>Cash and Fixed Interest</b>	0%	10%	5%

The investment mix can change within the above ranges significantly and sometimes quickly. Market movements, cash flows and changes in the nature of an investment amongst other things may cause the investment mix of the Fund to move outside the above investment guideline ranges. If this occurs, Charter Hall Maxim will seek to rectify the position as soon as reasonably practicable and the temporary variance will not constitute a breach of the Fund's investment guidelines. In such circumstances Charter Hall Maxim reserves the right to make investments through other funds and entities.

### Risk Level

Medium, when an investment in the Fund is held for at least 3 years. The risk of loss over the short term (less than 3 years) is high when compared to managed investment schemes invested in asset classes such as cash or fixed interest securities. However, the Fund aims to produce more favourable returns with lower than associated market volatility for periods of time over the medium to long term than cash or fixed interest securities, which is why the minimum suggested timeframe for an investment in the Fund is at least 3 years.

## 6. Fees and Costs

### Did You Know?

**Small differences in both investment performance and fees and costs can have a substantial impact on your long term returns.**

**For example, total annual fees and costs of 2% of your investment balance rather than 1% could reduce your final return by up to 20% over a 30 year period (for example, reduce it from \$100,000 to \$80,000).**

**You should consider whether features such as superior investment performance or the provision of better member services justify higher fees and costs.**

**You may be able to negotiate to pay lower fees. Ask the Fund or your financial adviser.**

### To Find Out More

**If you would like to find out more, or see the impact of the fees based on your own circumstances, the Australian Securities and Investments Commission (ASIC) Moneysmart website ([www.moneysmart.gov.au](http://www.moneysmart.gov.au)) has a managed funds fee calculator to help you check out the different fee options.**

This section shows fees and other costs that you may be charged. These fees and costs may be deducted from the money you invest, from the returns on your investment or from the Fund's assets as a whole. Information on taxation is set out in section 7. You should read all the information about fees and costs because it is important to understand their impact on your investment. The information in the table may be used to compare costs between different simple managed investment schemes.

ASIC provides a calculator provided by ASIC, available at [www.moneysmart.gov.au](http://www.moneysmart.gov.au), which can be used to calculate the effect of fees and costs on Fund account balances.

Investors will be advised of any increase to fees and charges at least 30 days prior to the changes taking effect, allowing time for a withdrawal option to be executed if desired.

### Fees Paid to a Financial Adviser

**If you have a financial adviser, then you may also have to pay additional fees to your adviser.** Details of those fees should be set out in the Statement of Advice given to you by your adviser.

You should read the important additional information about the fees and costs in the Additional Information Booklet before making a decision to invest. Go to the 'Additional Information Booklet' available from the Website; in particular, Section 6. The material relating to fees and costs may change between the time when you read this PDS and the day when you acquire Units in the Fund.

## 7. How Managed Investment Schemes Are Taxed

**Your investment in a managed investment scheme is likely to have tax consequences and we strongly advise you to seek professional advice before investing in the Fund.**

The Fund will typically operate so that all taxable income each year is taxable to Investors so the Fund is not required to pay tax on behalf of Investors (other than certain withholdings – e.g. amounts attributable to non-residents). As an Investor you will be assessed for your share of any tax on any income and capital gains generated by the Fund, even if your income entitlement is not paid to you but reinvested back into the Fund. In normal circumstances, you should expect that some income and/or capital gains will be generated each year. Tax may also be payable on withdrawals, tax deferred distributions (for example, where non-taxable income distributions are made in excess of the cost base in a Unit) and on disposals of Units. The Fund will not pay tax on behalf of Investors (other than certain withholdings – e.g. amounts attributable to non-residents). The issue and redemption of Units in the Fund should not be subject to GST.

You will be issued with a taxation statement annually which sets out relevant taxation information to help you complete your tax return.

An Investor need not quote a tax file number (TFN) when applying for Units. However, if a TFN is not quoted, or an appropriate TFN exemption is not provided, tax may be required to be deducted by the Responsible Entity from

any distribution at the highest marginal tax rate. If the Investor holds Units in the course of furtherance of an enterprise, an ABN can be quoted instead of a TFN.

Please refer to Additional Information Booklet for New Zealand tax considerations.

You should read the important additional information about taxation in the Additional Information Booklet before making a decision to invest. Go to the 'Additional Information Booklet' available from the Website; in particular, Section 7. The material relating to the taxation treatment of your investment may change between the time when you read this PDS and the day when you acquire the Units in the Fund.

## 1. About One Managed Investment Funds Limited

No additional information has been incorporated by reference.

## 2. How the Fund Works

### Investing through an IDPS

OMIFL consents to the use of this PDS by IDPS operators that include the Fund on their investment menu. If you invest in the Fund through an IDPS, the IDPS operator will hold Units in the Fund on your behalf. This means that the IDPS operator is the Investor and has an Investor's rights. The IDPS operator can exercise, or decline to exercise, their rights as an Investor in accordance with the arrangements governing the IDPS. Investors in the Fund via an IDPS should note that some information in this PDS may be relevant only for direct Investors.

### Unit Pricing Policy

We may exercise certain discretions in determining the Unit price of Units on application and withdrawal in the Fund. The Unit Pricing Policy, which can be obtained by contacting us on 02 8277 0000, sets out the types of discretions that we may exercise and in what circumstances, the policies on how we exercise the discretions and the reasons why we consider the policies are reasonable.

### Income Distributions Reports

Details relating to any tax-free or tax-deferred components, imputation credits or capital gain components for all distribution payments made during the year will be forwarded to Investors shortly after the end of each financial year.

### Income Payments

Income distributions must be paid by either of the following methods:

- direct transfer to a nominated Australian or New Zealand bank account; or
- reinvestment to purchase additional Units.

Investors need to complete the appropriate section in the Application Form to elect their choice. If there is no notification of method of payment on the Application Form (or subsequent notification), income distributions will be reinvested. A request for distribution reinvestment or cancellation of a request is effective if received in writing by OMIFL at least 21 days (or as otherwise determined by us from time to time) before the end of a Distribution Period.

## 4. Risks of Managed Investment Schemes

## 5. How We Invest Your Money

## 6. Fees and Costs

### Costs and Expenses in Managing the Fund

Under the Constitution, the Responsible Entity is entitled to all of the fees and expenses set out in the tables in section 6 of the PDS.

The dollar value of the fees and costs you are being charged may vary over time. Updated information about the Fund's fees and costs that is not materially adverse can be found on the Fund website. Past costs are not a reliable indicator of future costs.

### Management fees and costs

#### Management fee

The Responsible Entity (and in turn, the Investment Manager) is entitled to a management fee of 0.85% of GAV per annum (i.e. \$850 for every \$100,000 of Net Asset Value).<sup>1</sup>

### Indirect Costs

Management costs may also comprise an indirect cost component. In general, indirect costs are any amounts that directly or indirectly reduce the returns on the Units that is paid from, or the amount or value of, the income or assets of the Fund (including an underlying investment of the Fund).

Indirect costs are reflected in the Unit price of your investment in the Fund. If indirect costs are included in the fee table in the PDS they will be based on the indirect costs incurred for a 12 month period, as a percentage of the average Net Asset Value of the Fund during that period.

Indirect costs are generally embedded in assets in which a Fund invests indirectly, such as through an interposed vehicle or in the cost of a derivative acquired by the Fund to gain a market exposure, rather than directly by the Fund. As at the date of the PDS, the Fund does not invest in interposed vehicles or use derivatives, and OMIFL estimates the indirect costs for the Fund will be nil, however this may change if, for example, the Fund invests in an interposed vehicle.

### Costs and Expenses in Managing the Fund

The Constitution allows OMIFL to recover expenses incurred in the proper administration of the Fund. Until further notice, all ordinary expenses and costs incurred in respect of the operation of the Fund will be paid for by Charter Hall Maxim out of the management fee paid to it from the Fund.

Extraordinary expenses are, by their nature, unpredictable and non-recurring. All extraordinary expenses will be paid out of, or reimbursable from, the assets of the Fund. This includes fees being paid by OMIFL.

Examples of extraordinary expenses include, but are not limited to:

- convening a meeting of Investors;
- commencing or defending litigation proceedings;
- termination of the Fund;

Note:

1. This is equivalent to 0.851% of NAV per annum.

- replacement of OMIFL; or
- amending the Constitution or other Fund documentation.

The management costs disclosed in the PDS do not include any amount for extraordinary expenses as based on the costs for the previous financial year (ending 30 June 2022), no extraordinary expenses were incurred.

### Transactional and Operational Costs and Buy/Sell Spread

For the year to 30 June 2022, the Fund's total gross transaction costs were 0.211% of Net Asset Value.

However, transaction costs can differ in subsequent years, particularly in line with buying and selling securities.

Transactional and operational costs such as brokerage, bid-ask offer spreads on securities traded, settlement costs, clearing costs and governing charges may be incurred by the Fund as a result of changes in the Fund's investment portfolio either in relation to implementing the Fund's investment strategy or Investors entering or exiting the Fund.

The transaction costs shown in the Fees and Costs Summary are shown net of any amount recovered through the buy/sell spread. Transaction costs are reflected in the Unit Price and if applicable the buy/sell spread. As these costs are factored into the asset value of the Fund's assets and reflected in the Unit Price, they are an additional cost to the Investor where it has not already been recovered by the buy/sell spread.

Transaction costs are payable as and when they are incurred.

### Buy spread and sell spread

The buy/sell spread represents a contribution to the transaction costs incurred by the Fund in buying and selling underlying financial products as a result of investments in, and withdrawals from the Fund. The purpose of the buy/sell spread is to ensure that those Investors transacting in the Units at a particular time bear the costs of buying and selling the Fund's assets as a consequence of their transaction. The buy/sell spread is an additional cost to Investors but is not a fee paid to any party; rather it is retained as an asset of the Fund. The current buy/sell spread for the Fund is +0.25%/-0.25%. The buy/sell spread may change from time to time.

The total gross transaction costs for the Fund during the financial year ending 30 June 2022 were 0.211% of the Net Asset Value, of which 0.129% is recouped via the buy/sell spread when issuances or redemptions of Units take place, resulting in a net transaction cost to the Fund of 0.082% of the Net Asset Value. The dollar value of these costs over a 1 year period based on an average account balance of \$50,000 is \$41. These costs may differ in future years. If the level of costs exceeds the buy/sell spread, there will be additional transaction costs incurred by the Fund, affecting Investors' returns.

### Additional information

#### Maximum permitted fees

The Constitution provides that the following maximum fees can be charged by OMIFL:

- annual management fee of up to 3% (plus GST) per annum of the gross asset value of the Fund;
- entry fee equal to the sum of 5% of the issue price of a Unit and that amount multiplied by the applicable GST rate;
- switching fee equal to the sum of 5% of the issue price of a Unit and that amount multiplied by the applicable GST rate; and
- exit fee equal to the sum of 5% of the issue price of a Unit and that amount multiplied by the applicable GST rate.

These are the maximum fees that are allowable under the Constitution and not the actual management fees being paid by the Fund.

### Adviser remuneration

The Responsible Entity does not pay commissions to advisers. Direct Investors may direct the Responsible Entity to pay their adviser a professional fee for service for the advice and recommendations they give them about the Fund, of an upfront amount and/or an ongoing amount. Any upfront fee will be deducted from the Application Amount and any ongoing fee will be deducted from an Investor's distribution payments. The maximum allowable upfront fee is 3% (excluding GST) of the Application Amount and the maximum allowable ongoing fee is 1% per annum (excluding GST) of the net Application Amount. These fees will be in addition to the other fees described in this section 6. The net amount of an Investor's Application Amount or distribution payments, after deducting the professional fee for service, will be invested into the Fund or paid to the Investor.

### Different fees to Wholesale Clients

The Responsible Entity and/or the Manager may negotiate different fees with, or rebate a portion of their fees to, Wholesale Clients. This is because they invest large amounts of money into the Fund. In effect, this means they pay lower fees. The Responsible Entity and/or the Investment Manager will not ordinarily negotiate fees. Contact us using one of the methods listed on the inside back cover of this PDS for further information.

### Payment to platforms

The Investment Manager may use its own resources to provide assistance to platform operators to cover marketing and distribution of the Fund via a platform.

### Taxation

Taxation information is in section 7. The fees set out in the Fees and Costs Summary show the total cost to Investors, including the effect of GST (i.e. inclusive of 10% GST less any input tax credits, including reduced input tax credits). Unless expressly stated otherwise, the fees set out in this section 6 are shown exclusive of GST. If the Responsible Entity or Investment Manager becomes liable to pay GST on fees not described in this PDS as GST inclusive, they are entitled to be reimbursed out of the assets of the Fund for the amount of GST.

## 7. How Managed Investment Schemes Are Taxed

### Attribution Managed Investment Trust (AMIT) Rules

The Constitution provides that OMIFL may elect to apply the new AMIT Rules to the Fund (which it has done). In order to retain AMIT status the Fund must, among other requirements, continue to satisfy the requirements to be a Managed Investment Trust (MIT). MITs that elect to be taxed under the AMIT Rules are able to segment their income into components – for example, into certain types of income, gains, exempt amounts, offsets and credits – and allocate particular components to particular Investors, provided the basis of allocation is fair and reasonable and in accordance with the Fund's Constitution. The amounts so allocated will retain their tax character when passing through the Fund.

OMIFL intends to attribute these amounts based on an Investor's entitlement to distributable income.

In relation to non-Australian resident Investors, the MIT withholding rate for AMITs is the same as under the MIT regime, with the withholding generally being triggered at

the time OMIFL attributes or pays amounts to Investors.

The AMIT regime also clarifies and amends the interaction between the tax liability on distributions payable to Investors, and the tax liability on disposal of Units. The AMIT Rules alleviate double taxation that may otherwise arise where an amount has been taxed to an Investor but not received by the time Units are sold, by increasing the cost base of the Units to reflect the taxed but undistributed amount.

Other key features of the AMIT Rules include deemed fixed trust status and the ability to make adjustments in respect of prior year errors in the year in which the errors are discovered. Where the Fund is an AMIT, if the amount of taxable income estimated for the Fund at year end is different to the amount that is finally calculated, the difference (under or over) will generally be carried forward and adjusted in the year in which the variation is discovered except in exceptional circumstances.

## 8. How To Apply

No additional information has been incorporated.

## 9. Additional Information

### Significant Documents

You should read and consider this PDS (including AIB) before making an investment decision.

### Constitution and Compliance Plan

The Constitution and Compliance Plan are the constituent documents setting up the Fund. A copy of those documents may be obtained from OMIFL.

In addition, OMIFL has entered into an Investment Management Agreement with Charter Hall Maxim, to provide certain investment services to the Fund.

### Investment Management Agreement

The Investment Management Agreement is between the Investment Manager and the Responsible Entity under which the Investment Manager provides investment management services to the Fund.

The Investment Management Agreement contains provisions dealing with matters such as Charter Hall Maxim's obligations to report to OMIFL and the agreement sets out the fees payable to Charter Hall Maxim for these services. The Investment Management Agreement is for a period of 5 years to 30 June 2019 and continues for rolling periods of 5 years unless terminated by OMIFL in certain circumstances including for material breach, material and consistent underperformance or insolvency of Charter Hall Maxim. Subject to the terms of the Investment Management Agreement, Charter Hall Maxim may terminate the Investment Management Agreement by providing 60 Business Days' notice.

The services provided for in the IMA include:

- the identification and acquisition of assets consistent with the Fund's investment mandate;
- keeping all Fund assets under review and monitoring their performance; and
- using reasonable endeavours to achieve the investment objectives for the Fund.

### Related Party Transactions and Conflicts of Interest

In our position as Responsible Entity of the Fund, we may from time to time face conflicts between our duties to investors,

our duties to other funds we manage and our own interests. We will manage any conflicts in accordance with our conflicts of interest policy, the Constitution, ASIC policy and the law. We may from time-to-time enter into other transactions with other related entities. All transactions will be effected at market rates or at no charge, and in accordance with the Corporations Act.

Charter Hall Maxim is not a related party of OMIFL. The contractual arrangements between OMIFL and Charter Hall Maxim are negotiated at arm's length between parties.

The Fund may invest in A-REITs managed by the Charter Hall Group and/or members of the Charter Hall Group. Charter Hall Group has a Securities Trading policy and also a Conflict of Interest and Related Party Transaction Policy which ensures all transactions engaged by Charter Hall are "arm's length" transactions based on appropriate commercial terms and are assessed for any conflict of interest and insider trading.

### New Zealand Investors

If you are a New Zealand Investor, the Responsible Entity is required to provide the following additional information to you under New Zealand law.

### Warning Statement

1. This offer to New Zealand investors is a regulated offer made under Australian and New Zealand law. In Australia, this is Chapter 8 of the Corporations Act 2001 (Aust) and regulations made under that Act. In New Zealand, this is subpart 6 of Part 9 of the Financial Markets Conduct Act 2013 and Part 9 of the Financial Markets Conduct Regulations 2014.
2. This offer and the content of the offer document are principally governed by Australian rather than New Zealand law. In the main, the Corporations Act 2001 (Aust) and the regulations made under that Act set out how the offer must be made.
3. There are differences in how financial products are regulated under Australian law. For example, the disclosure of fees for managed investment schemes is different under the Australian regime.
4. The rights, remedies, and compensation arrangements available to New Zealand investors in Australian financial products may differ from the rights, remedies, and compensation arrangements for New Zealand financial products.
5. Both the Australian and New Zealand financial markets regulators have enforcement responsibilities in relation to this offer. If you need to make a complaint about this offer, please contact the Financial Markets Authority, New Zealand (<http://www.fma.govt.nz>). The Australian and New Zealand regulators will work together to settle your complaint.
6. The taxation treatment of Australian financial products is not the same as for New Zealand financial products.
7. If you are uncertain about whether this investment is appropriate for you, you should seek the advice of a financial advice provider.
8. The offer may involve a currency exchange risk. The currency for financial products is not New Zealand dollars. The value of the financial products will go up or down according to changes in the exchange rate between that currency and New Zealand dollars. These changes may be significant.
9. If you expect the financial products to pay any amounts in a currency that is not New Zealand dollars, you may incur significant fees in having the funds credited to a bank account in New Zealand in New Zealand dollars.

10. The dispute resolution process described in this offer document is available only in Australia and is not available in New Zealand.

### **Australian Taxation of New Zealand Residents Distributions - Managed Investment Trust Withholding Tax Regime**

The Fund is intended to be a Managed Investment Trust (MIT) for Australian tax purposes. As such, pursuant to the MIT withholding tax regime, the Responsible Entity is required to withhold tax at a rate of 15% from amounts of net taxable income (including rent and capital gains, but excluding amounts of interest which are subject to 10% interest withholding tax) attributed or paid to New Zealand resident Investors. The Fund is also required to provide a payment summary to such Investors which sets out the total of the withholding payments that the payment summary covers and the total of the amounts withheld by the Fund from those withholding payments. If the Fund does not qualify as an MIT, the tax treatment of your investment will differ. We recommend that you seek independent taxation advice in this regard.

### Taxation of Capital Gains

The redemption or transfer of any Units may give rise to a taxable capital gain. For example, this will be the case in circumstances where a New Zealand resident Investor has, at the time of redemption or transfer, or throughout a twelve month period that began no earlier than 24 months before that time, an interest in the Trust (including any interests held by associates) of 10% or more. Non-residents are not entitled to discount capital gains treatment.

### **New Zealand Taxation of New Zealand Resident Investors**

A summary of the general New Zealand taxation considerations for New Zealand resident investors (NZ Investors) in the Fund is set out below. The categories of NZ Investors considered in this summary are limited to New Zealand tax resident individuals, companies (other than life insurance companies), trusts, partnerships and complying superannuation funds.

The summary below is general in nature, is not exhaustive of all New Zealand tax consequences that could apply to any given NZ Investor and does not constitute advice. The individual circumstances of each NZ Investor may affect the taxation implications of the investment for the NZ Investor.

The summary below does not cover potential tax implications for non-New Zealand resident investors, insurance companies, banks, NZ Investors that carry on a business of trading in units, NZ Investors who are subject to employee share scheme rules or who are exempt from New Zealand tax.

It is recommended that all NZ Investors consult their own independent tax advisers regarding the income tax and GST consequences of acquiring, owning and disposing of Units, having regard to their specific circumstances.

The summary below is based on the relevant New Zealand tax law in force, established interpretations

of that law and understanding of the practice of the relevant tax authority at the time of issue of this PDS.

Tax laws are complex and subject to ongoing change. The tax consequences discussed do not take into account or anticipate any changes in law (by legislation or judicial decision) or any changes in the administrative practice or interpretation by the relevant authorities. If there is a change, including a change having retrospective effect, the income tax and GST consequences should be reconsidered by NZ Investors in light of the changes. The precise implications of ownership or disposal of the Units will depend upon each NZ Investor's specific circumstances.

### **Income tax**

As the Fund is an Australian unit trust, it will be treated as a company for New Zealand tax purposes.

NZ Investors will be taxed on their Units under one of two regimes: the ordinary tax regime or the Foreign Investment Fund (**FIF**) regime.

The summary set out below assumes NZ Investors and their associates do not together hold more than 10% of the total Units on issue in the Trust.

### **Tax Treatment under the Ordinary Tax Regime**

A NZ Investor will be taxed under the ordinary tax rules if the Investor is a New Zealand resident natural person and does not hold offshore equities (including units in a unit fund but excluding, amongst other things, shares in most Australian resident companies listed on the ASX) the total cost of which is more than NZ\$50,000, unless the NZ Investor elects otherwise. Under the ordinary tax rules:

- Any distributions will be dividend income for the NZ Investor;
- Withdrawal by redemption of Units will give rise to dividend income for the Investor equal to the difference between:
  - the redemption proceeds; and
  - the average issue price of all the Units multiplied by the number of the Investor's Units which are redeemed;
- A NZ Investor will be taxed on any gains from the sale or redemption of Units only if the investor acquired the Units either:
  - for the purpose of disposal; or
  - as part of a profit making scheme or undertaking; or
  - as part of a business in respect of which the sale of such investments is an ordinary incident.

Amounts taxed as dividends will not be taxed again as gains from sale.

### **Tax Treatment under FIF Regime**

Other NZ Investors will be taxed under the FIF regime (FIF Investors). A FIF Investor will generally be deemed to derive taxable income equal to 5% of the market value of the Units it holds at the beginning of the income year (the fair "dividend rate", or "FDR method"). Any profits from selling or redeeming the Units and any dividends or redemption proceeds received are ignored (except as described in the following paragraphs).

If a FIF Investor buys and later sells Units in the same income year, the FIF Investor may have additional taxable income equal to either:

- The actual gain from the Units both bought and sold during the income year (including any distributions received on those units) (actual gain method). For this purpose the last Unit acquired is deemed to be the first sold; or
- 5% of:

- the difference between the greatest number of Units the FIF Investor held at any time during the income year and the number of Units the FIF Investor held at the beginning or end of the year (whichever produces the smaller difference), multiplied by;
- the average cost of all Units acquired during the income year (the "peak holding method").

The FIF Investor must apply the method which produces the lesser amount of additional income when applied consistently to all of their FIF investments bought and sold in the same income year.

A slightly different version of this method is used by Investors that are managed funds.

If a FIF Investor is a natural person or a family trust and its actual realised and unrealised return together with dividends and distributions from its total portfolio of offshore equity investments (excluding ASX listed Australian resident companies) is lower than the amount calculated under the FDR method described above, then the NZ Investor can elect to be taxed on its actual realised and unrealised returns – including dividends (the comparative or "CV method"). This method must be applied across all the Investor's FIF interests if chosen (excluding ASX listed Australian resident companies).

The application by a FIF Investor of a certain method for calculating taxable income under the FIF regime in respect of Units may have implications for other investments that the FIF Investor holds that are also subject to the FIF regime.

An Investor will also need to make certain elections in respect of how amounts are converted to New Zealand dollars.

The FIF regime described above is subject to various exceptions. Investors should seek specific tax advice if they believe the FIF regime may apply to them.

### **Foreign Currency gains and losses**

The issue of the Units in Australian dollars, and any gains or losses attributable to the difference between New Zealand and Australian dollars, should not lead to New Zealand tax consequences for New Zealand investors (assuming they are not in the business of investment).

### **GST**

The issue and redemption of Units in the Trust will not be subject to New Zealand GST.

### **Privacy and Collection and Disclosure of Personal Information**

The Privacy Act 1998 (Cth) regulates, among other things, the collection, disclosure and access to personal information.

Certain laws require us to collect, store and disclose information about you (including personal information at the time your application is processed and while you remain invested), for example, the AML/CTF Law, the Corporations Act, the FATCA and the Tax Laws Amendment (Implementation of the Common Reporting Standard). We may be required under the AML/CTF Law to provide information about you (including personal information) to the Australian Transaction Reports and Analysis Centre (AUSTRAC), the body responsible for regulating the AML/CTF Law. In respect of investors who are ordinarily resident in a country other than Australia, both FATCA and CRS may require us to collect and disclose to the Australian Taxation Office information about you (including personal information) obtained from you. If you do not provide the information requested in our application form, we will not be able to process your application (including any application for additional units) and your application may

be delayed or rejected. Where applications are delayed or refused, we are not liable for any loss you suffer (including consequential loss) as a result. Alternatively, if we accept your application to the Fund when you have not provided all of the requested information, we may provide information about you to the relevant regulator.

We will be required to share information about you (including personal information) with service providers to the Responsible Entity in respect of the Fund (including the Investment Manager) to ensure you receive the appropriate information and assistance in respect of your holding in the Fund.

By applying to invest in the Fund, you consent to your information (including your personal information) being collected, used and disclosed by the registry provider and by the Responsible Entity for the purposes disclosed above and in their respective Privacy Policies.

You are entitled to access, correct and update all personal information we hold about you. You can contact us to find out what personal information we hold about you or if you have any concerns about the completeness or accuracy of the information we hold. If you want us to correct any personal information we hold, please contact us using the details in this PDS.

A copy of our Privacy Policy is available on our website at [www.oneinvestment.com.au](http://www.oneinvestment.com.au) and a paper copy will be sent to you free of charge on request.

## 13. KEY DEFINITIONS

### BENEFICIAL OWNER

To comply with AML/CTF laws, we require you to disclose the Beneficial Owners. Beneficial Owner means an individual who ultimately owns or controls (directly or indirectly) the investor. 'Owns' means ownership (either directly or indirectly) of 25% or more of the investor. 'Controls' includes control as a result of, or by means of, trusts, agreements, arrangements, understandings and practices, whether or not having legal or equitable force and whether or not based on legal or equitable rights, and includes exercising and control through the capacity to determine decisions about financial and operating policies.

### CONTROLLING PERSON(S)

'Controlling Persons' means with respect to an entity that is a legal person, natural person(s) who exercises control over an entity. This should be interpreted in a manner consistent with relevant Financial Action Task Force Recommendations on the terms "beneficial owner". Investors that are Passive NFFEs or NFEs under FATCA and CRS respectively should consult their own advisors regarding any Controlling Person(s) they may have.

In relation to FATCA and CRS, in the case of a trust, a controlling person means the settlor(s), the trustee(s), the protector(s) (if any), the beneficiary(ies) or class(es) of beneficiaries, and any other natural person(s) exercising ultimate effective control over the trust. The settlor(s), the trustee(s), the protector(s) (if any), and the beneficiary(ies) or class(es) of beneficiaries, must always be treated as Controlling Persons of a trust, regardless of whether or not any of them exercises control over the trust.

In the case of a legal arrangement other than a trust, such term means persons in equivalent or similar positions.

### GLOBAL INTERMEDIARY IDENTIFICATION NUMBER (GIIN)

Global Intermediary Identification Number (**GIIN**) means a unique identification number that non-U.S. Financial Institutions receive from the IRS (i.e. IRS of the U.S) when they register as a financial institution for FATCA.

### POLITICALLY EXPOSED PERSONS (PEP)

To comply with AML/CTF laws, we require you to disclose whether you are, or have an association with, a Politically Exposed Person ('PEP'). A PEP is an individual who holds a prominent public position or function in a government body or an international organisation in Australia or overseas, such as a Head of State, or Head of a Country or Government, or a Government Minister, or equivalent senior politician. A PEP can also be an immediate family member of a person referred to above, including spouse, de facto partner, child, and a child's spouse or a parent. A close associate of a PEP, i.e. any individual who is known to have joint beneficial ownership of a legal arrangement or entity is also considered to be a PEP. Where you identify as, or have an association with, a PEP, we may request additional information from you.

### TAXPAYER IDENTIFICATION NUMBER (TIN)

Taxpayer Identification Number (**TIN**) means the number assigned by each country for the purpose of administering tax laws. This is the equivalent of a Tax File Number (**TFN**) in Australia or an Employer Identification Number (**EIN**) in the U.S.
