

About this PDS

This Product Disclosure Statement ("PDS") has been prepared and issued by Equity Trustees Limited ("Equity Trustees", "we" or "Responsible Entity") and is a summary of the significant information relating to an investment in the Cor Capital Fund (the "Fund"). It contains a number of references to important information (including a glossary of terms), contained in the Cor Capital Fund Reference Guide ("Reference Guide"), each of which forms part of this PDS. You should carefully read and consider both the information in this PDS, and the information in the Reference Guide, before making a decision about investing in the Fund.

The information provided in this PDS is general information only and does not take account of your personal objectives, financial situation or needs. You should obtain financial and taxation advice tailored to your personal circumstances and consider whether investing in the Fund is appropriate for you in light of those circumstances.

The offer to which this PDS relates is only available to persons receiving this PDS (electronically or otherwise) in Australia.

This PDS does not constitute a direct or indirect offer of securities in the US or to any US Person as defined in Regulation S under the Securities Act of 1933 as amended ("US Securities Act"). Equity Trustees may vary this position and offers may be accepted on merit at Equity Trustees' discretion. The units in the Fund have not been, and will not be, registered under the US Securities Act unless otherwise approved by Equity Trustees and may not be offered or sold in the US to, or for, the account of any US Person (as defined in the Reference Guide) except in a transaction that is exempt from the registration requirements of the US Securities Act and applicable US state securities laws.

1. About Equity Trustees Limited

The Responsible Entity

Equity Trustees Limited

Equity Trustees Limited ABN 46 004 031 298 AFSL 240975, a subsidiary of EQT Holdings Limited ABN 22 607 797 615, which is a public company listed on the Australian Securities Exchange (ASX: EQT), is the Fund's responsible entity and issuer of this PDS. Established as a trustee and executorial service provider by a special Act of the Victorian Parliament in 1888, today Equity Trustees is a dynamic financial services institution which continues to grow the breadth and quality of products and services on offer.

Equity Trustees' responsibilities and obligations as the Fund's responsible entity are governed by the Fund's constitution ("Constitution"), the Corporations Act and general trust law. Equity Trustees has appointed Cor Capital Pty Ltd as the investment manager of the Fund. Equity Trustees has appointed a custodian to hold the assets of the Fund. The custodian has no supervisory role in relation to the operation of the Fund and is not responsible for protecting your interests.

The Investment Manager

Cor Capital Pty Ltd

Cor Capital Pty Ltd ('Cor Capital' or 'Investment Manager') is the investment manager appointed by us for the Fund.

Cor Capital is an investment management firm that specializes in generating absolute returns as a means to creating real wealth regardless of the prevailing economic or financial market environment.

Cor Capital was established in 2012 by Davin Hood to focus solely on the management of the Cor Capital Fund.

Investment Team

Davin Hood

Davin founded Cor Capital in 2012 and is a Portfolio Manager for the Cor Capital Fund. He has overall responsibility for the investment strategy and its implementation.

Prior to Cor Capital Davin served as a Director in the Wealth Management division of UBS Australia (2006-2011).

Davin has 24 years' experience in stockbroking (UBS and Citigroup) and funds management (Merlyn Asset Management).

Davin has undergraduate and post-graduate qualifications in finance and is a Fellow of the Financial Services Institute of Australasia.

Tom Rachcoff

Tom joined Cor Capital in 2012 and is a Portfolio Manager for the Cor Capital Fund. He was previously a Managing Director and Asia Pacific Head of Credit Suisse HOLT (2001-2010).

Prior to joining Credit Suisse, Tom was Managing Director of HOLT Value Associates Global Securities. He also held a variety of positions over 13 years at Merrill Lynch.

Tom holds a bachelor's degree in economics and finance.

2. How the Cor Capital Fund works

The Fund is a registered managed investment scheme governed by the Constitution. The Fund comprises assets which are acquired in accordance with the Fund's investment strategy. Direct investors receive units in the Fund when they invest. In general, each unit represents an equal interest in the assets of the Fund subject to liabilities; however, it does not give investors an interest in any particular asset of the Fund.

If you invest in the Fund through an IDPS (as defined in the Reference Guide) you will not become an investor in the Fund. The operator or custodian of the IDPS will be the investor entered in the Fund's register and will be the only person who is able to exercise the rights and receive the benefits of a direct investor. Your investment in the Fund through the IDPS will be governed by the terms of your IDPS. Please direct any queries and requests relating to your investment to your IDPS Operator. Unless otherwise stated, the information in the PDS applies to direct investors.

Applying for units

You can acquire units by completing the Application Form that accompanies this PDS. The minimum initial investment amount for the Fund is \$25,000.

Completed Application Forms should be sent along with your identification documents (if applicable) to:

Cor Capital Fund
GPO Box 804
Melbourne VIC 3001

Or complete the online Application Form (please go to www.corcapital.com.au/#invest).

Please note that cash cannot be accepted.

We reserve the right to accept or reject applications in whole or in part at our discretion. We have the discretion to delay processing applications where we believe this to be in the best interest of the Fund's investors.

The price at which units are acquired is determined in accordance with the Constitution ("Application Price"). The Application Price on a Business Day is, in general terms, equal to the Net Asset Value ("NAV") of the Fund, divided by the number of units on issue and adjusted for transaction costs ("Buy Spread"). At the date of this PDS, the Buy Spread is 0.15%.

The Application Price will vary as the market value of assets in the Fund rises or falls.

Making additional investments

You can make additional investments into the Fund at any time by sending us your additional investment amount together with a completed Additional Investment Form at www.corcapital.com.au/#invest. The minimum additional investment into the Fund is \$5,000.

Distributions

An investor's share of any distributable income is calculated in accordance with the Constitution and is generally based on the number of units held by the investor at the end of the distribution period.

The Fund usually distributes income semi-annually at the end of June and December, however, Equity Trustees can change the distribution frequency without notice. Distributions are calculated effective the last day of each distribution period and are normally paid to investors as soon as practicable after the distribution calculation date.

Investors in the Fund can indicate a preference to have their distribution:

- reinvested back into the Fund; or
- directly credited to their AUD Australian domiciled bank account.

Investors who do not indicate a preference will have their distributions automatically reinvested. Applications for reinvestment will be taken to be received immediately prior to the next Business Day after the relevant distribution period. There is no Buy Spread on distributions that are reinvested.

In some circumstances, the Constitution may allow for an investor's withdrawal proceeds to be taken to include a component of distributable income.

Indirect Investors should review their IDPS Guide for information on how and when they receive any income distribution.

Access to your money

Investors in the Fund can generally withdraw their investment by completing a written request to withdraw from the Fund and mailing it to:

Cor Capital Fund
GPO Box 804
Melbourne VIC 3001

Or sending it by email to corcapital_transactions@onevue.com.au

There is no minimum withdrawal amount. Once we receive and accept your withdrawal request, we may act on your instruction without further enquiry if the instruction bears your account number or investor details and your (apparent) signature(s), or your authorised signatory's (apparent) signature(s).

Equity Trustees will generally allow an investor to access their investment within 5 days of acceptance of a withdrawal request by transferring the withdrawal proceeds to such investor's nominated bank account. However, Equity Trustees is allowed to reject withdrawal requests, and also to make payment up to 21 days after acceptance of a request (which may be extended in certain circumstances) as outlined in the Constitution and Reference Guide.

We reserve the right to accept or reject withdrawal requests in whole or in part at our discretion.

The price at which units are withdrawn is determined in accordance with the Constitution ("Withdrawal Price"). The Withdrawal Price on a Business Day is, in general terms, equal to the NAV of the Fund, divided by the number of units on issue and adjusted for transaction costs ("Sell Spread"). At the date of this PDS, the Sell Spread is 0.15%.

The Withdrawal Price will vary as the market value of assets in the Fund rises or falls.

Equity Trustees reserves the right to fully redeem your investment if your investment balance in the Fund falls below \$20,000 as a result of processing your withdrawal request. In certain circumstances, for example, when there is a freeze on withdrawals, where accepting a withdrawal is not in the best interests of investors in the Fund including due to one or more circumstances outside its control which we consider impacts on our ability to properly, accurately or fairly calculate a unit price, or we have received redemption requests in relation to a particular valuation time and the total number of units which would be redeemed in respect of this time represent more than 5% of the units on issue at that time (and in this case we can redeem the units at such future time, or at times over such period, as we determine) or where the Fund is not liquid (as defined in the Corporations Act), Equity Trustees can deny or suspend a withdrawal request and you may not be able to withdraw your funds in the usual processing times or at all. When the Fund is not liquid, an investor can only withdraw when Equity Trustees makes a withdrawal offer to investors in accordance with the Corporations Act. Equity Trustees is not obliged to make such offers.

If you are an Indirect Investor, you need to provide your withdrawal request directly to your IDPS Operator. The time to process a withdrawal request will depend on the particular IDPS Operator and the terms of the IDPS.

Unit pricing discretions policy

Equity Trustees has developed a formal written policy in relation to the guidelines and relevant factors taken into account when exercising any discretion in calculating unit prices (including determining the value of the assets and liabilities). A copy of the policy and, where applicable and to the extent required, any other relevant documents in relation to the policy will be made available free of charge on request.

Additional information

If and when the Fund has 100 or more direct investors, it will be classified by the Corporations Act as a 'disclosing entity'. As a disclosing entity, the Fund will be subject to regular reporting and disclosure obligations. Investors would then have a right to obtain a copy, free of charge, of any of the following documents:

- the most recent annual financial report lodged with ASIC ("Annual Report");
- any subsequent half yearly financial report lodged with ASIC after the lodgement of the Annual Report; and
- any continuous disclosure notices lodged with ASIC after the Annual Report but before the date of this PDS.

Equity Trustees will comply with any continuous disclosure obligation by lodging documents with ASIC as and when required.

Copies of these documents lodged with ASIC in relation to the Fund may be obtained from ASIC through ASIC's website.

3. Benefits of investing in the Cor Capital Fund

The Fund seeks to generate stable positive returns, regardless of prevailing economic or financial market conditions. It seeks to generate medium to long term returns, without significant interim drawdowns, by investing and trading in developed-market equities, precious metals, fixed interest securities and cash.

Benefits of investing in the Fund include:

- access to professionally managed multi-asset portfolio of investments;
- highly liquid and diversified portfolio;
- differentiated strategy with significant precious metals employment;
- low correlation to equity and bond indices;
- tail risk management attributes;
- multi-use: alternative asset or absolute return.

4. Risks of managed investment schemes

All investments carry risks. Different investment strategies may carry different levels of risk, depending on the assets acquired under the strategy. Assets with the highest long-term returns may also carry the highest level of short-term risk. The significant risks below should be considered in light of your risk profile when deciding whether to invest in the Fund. Your risk profile will vary depending on a range of factors, including your age, the investment time frame (how long you wish to invest for), your other investments or assets and your risk tolerance.

The Responsible Entity and the Investment Manager do not guarantee the liquidity of the Fund's investments, repayment of capital or any rate of return or the Fund's investment performance. The value of the Fund's investments will vary. Returns are not guaranteed and you may lose money by investing in the Fund. The level of returns will vary and future returns may differ from past returns. Laws affecting managed investment schemes may change in the future. The structure and administration of the Fund is also subject to change.

In addition, we do not offer advice that takes into account your personal financial situation, including advice about whether the Fund is suitable for your circumstances. If you require personal financial or taxation advice, you should contact a licensed financial adviser and/or taxation adviser.

Investment risk

This is the risk that the value of an investment may change or become more volatile, potentially causing a reduction in the value of the Fund and increasing its volatility. This may be because, amongst many other things, there are changes in government policies, the Investment Manager's or underlying funds' operations or management, the business environment or in perceptions of the risk of an investment. Various risks may lead to the issuer of an investment defaulting on its obligations and reducing the value of the investment to which the Fund has an exposure.

Market risk

This is the risk that an entire market, country or economy changes in value or becomes more volatile, including the risk that the country's credit rating is downgraded, which reduces the nation's perceived creditworthiness, the purchasing power of currency changes (either through inflation or deflation), and/or other market-wide factors, like economic growth or the unemployment rate, deteriorate, which can cause a reduction in the value of the Fund and increase its volatility. This may be because, amongst many other things, there are adverse changes in economic, financial, technological, environmental, political or legal conditions, natural and man-made disasters, conflicts and shifts in market sentiment.

Currency

An investment in global markets gives rise to foreign currency exposure. The value of investments will vary depending on changes to the exchange rate. The Fund does not seek to hedge (or manage) currency risk. Some underlying funds may seek to hedge currency risk but this is not always practicable or successful. Changes in currency values can impact on the value of the Fund's investments.

Interest rate risk

This is the risk that changes in interest rates can have a negative impact on certain investment values or returns. Reasons for interest rates changes are many and include variations in inflation, economic activity and Reserve Bank of Australia (RBA) policies. The Fund does not seek to hedge (or manage) interest rate risk. Some underlying funds may seek to hedge interest rate risk but this is not always practicable or successful. Changes in interest rates can impact on the value of the Fund's investments.

Portfolio risk

Investments in any of the available asset classes could be relatively concentrated: there are no minimum or maximum number of investments.

The Fund could be relatively concentrated: there are no geographical or market sector limits.

Valuation risk

The quoted value of the Fund's investments may not accurately reflect the value of those investments if they are sold. The Fund seeks to reduce this risk by seeking that all the assets of the Fund are valued independently on a daily basis and wherever possible using market prices.

Precious metals risk

The prices of precious metals fluctuate constantly, and changes can be large and happen quickly.

The prices of precious metals may be significantly affected by factors including supply and demand, developments in the precious metals mining industry, precious metals retention or sales by governments, central banks and international institutions, investment speculation, hedging activity by producers, currency exchange rates, inflation, interest rates and monetary, economic and other policies of various governments.

Precious metal prices are susceptible to political, economic and environmental developments in countries where it is produced and also broader regional and global developments.

Commodities like precious metals can be influenced by co-operative or co-ordinated actions, by producers or sovereign nations.

Governments can exercise substantial influence including changing laws, implementing policies of expropriation, confiscatory taxation, nationalisation, intervention in the market, and imposing foreign investment and exchange controls.

Natural disasters such as earthquakes, droughts and floods and social factors such as strikes, civil unrest and wars can have a significant impact on prices.

Precious metals generate no interest or dividends, and the return from investments in precious metals will be derived solely from the gains and losses realised when sold.

Liquidity risk

This is the risk that your withdrawal requests cannot be met when you expect. Because cash is paid to your account when you withdraw, investments of the Fund may need to be sold to pay you. Depending on factors such as the state of the markets, selling investments is not always possible, practicable or consistent with the best interests of investors.

This is one of the reasons why the Constitution specifies limited circumstances where there could be a delay in meeting your withdrawal request. The law sometimes restricts withdrawals.

Although you may sell your units privately, you may not find a buyer or a buyer at the price you want.

Fund structure risk

This is the risk associated with having someone invest for you.

Risks associated with investing in the Fund include that the Fund could be closed and your money returned to you at the prevailing valuations at that time, the Responsible Entity or the Investment Manager or an underlying fund could be replaced.

Key people can also change (for example key individuals involved in managing the Fund or an underlying fund). Davin Hood is a key person in relation to the Fund. Were Davin no longer involved in the management of the fund his deep knowledge of the investment strategy would be difficult to replace.

There is also the risk that someone involved with your investment (even remotely) does not meet their obligations or perform as expected, assets may be lost, not recorded properly or misappropriated, laws may adversely change, insurers may not pay when expected, systems may fail or insurance may be inadequate.

Investing through an administration platform also brings some risks that the operator of the administration platform may not perform its obligations properly.

Investing in the Fund may give different results compared to investing directly where, for example, you avoid the impact of others coming and going and may be able to manage your tax situation better.

You should read the important information in the Reference Guide "Additional risks" section before making an investment decision. Go to the Reference Guide at www.eqt.com.au/insto. 5. How we invest your money

Warning: When choosing to invest in the Fund or an option of the Fund, you should consider the likely investment returns, the risks of investing and your investment time frame.

Investment objective

The investment objective of the Fund is to maximise the total return (income plus growth) above the consumer price inflation (change in CPI) over rolling 3-year periods without generating a negative return over any 12-month period.

Benchmark

Australian CPI.

Minimum suggested time frame

The suggested minimum investment timeframe for this Fund is 3 years.

Risk level

Medium

Investor suitability

Investors who have a medium risk tolerance who seek an investment having an objective of stable positive returns over the medium term, regardless of prevailing economic or financial market conditions.

Investment style and approach

The Fund combines a factor-based asset allocation with an active derivatives overlay. At any time, approximately 95%-100% of Fund capital will be allocated to the factor-based strategy and 0%-5% to the overlay.

Factor-based asset allocation

A factor-based portfolio is constructed around risk factors rather than asset classes. The Investment Manager considers that market outcomes are highly influenced by combinations of two macroeconomic risk factors: growth and inflation (or changes to expectations of such).

In addition, surprises impacting each factor, and financial markets generally, are more common than expected and have an underappreciated influence on long-term investor returns.

The Investment Manager considers that disciplined, active management of a strategy with equal exposure to positive and negative changes to these factors can protect capital during periods of market uncertainty and even gain from volatility. At the same time, it considers that such an 'all-weather' approach can participate in any sustained price trends, as macro-economic outcomes materialise.

Based on the Investment Manager's analysis of market behaviour and factors:

- inflationary growth has generally been favourable for equities and precious metals,
- disinflationary growth has generally been favourable for equities and fixed interest,
- deflationary stagnation has generally been favourable for cash and fixed interest, and
- inflationary stagnation has generally been favourable for precious metals and cash.

Periods of shorter term monetary and financial system uncertainty have also generally been relatively favourable for precious metals and cash.

Derivatives overlay

The Investment Manager monitors a range of asset classes and underlying assets for absolute and relative price attributes.

Subject to certain criteria, it uses a small and pre-defined amount of Fund capital to purchase derivatives in seeking near-term gain or overall portfolio protection.

Losses from this strategy are limited to the small amount of capital invested, however gains are not limited.

Asset allocation

Specific asset types held by the Fund are predominantly as follows:

Equities

Predominantly direct holdings in S&P ASX100 securities, and other assets or securities with a market price leveraged to the relevant economic and market scenarios.

Fixed Interest

Predominantly assets or securities with a market price tracking that of the Bloomberg AusBond Composite All Maturities Index, but with exposure to investment grade AUD denominated fixed interest securities and other assets or securities with a market price leveraged to the relevant economic and market scenarios.

Precious metals

Predominantly allocated gold bullion 1kg bars (LBMA accredited), but with exposure to other precious metals and/or securities with a market price leveraged to the relevant economic and market scenarios.

Cash

Cash management trusts, bank bills, term deposits and fixed interest securities with less than 12 months to maturity.

Derivatives

Predominantly call options and put options purchased over the other asset classes listed above. Also see 'Use of derivatives' below.

Use of underlying funds

Investment exposure is expected to be principally by the Fund investing directly itself but the Investment Manager may determine to invest through underlying funds, for example managed funds (listed and unlisted) and exchange traded funds (together, underlying funds). Underlying fund managers are selected according to a rigorous due diligence process which assesses up front and regularly factors such as management, risk and return, longevity and track record.

Use of derivatives

The Investment Manager may use derivatives to:

- hedge (protect) against a fall in market price of particular assets of the Fund, and/or
- increase leverage to change in the market price of particular assets or one of the defined economic scenarios.

Derivatives holdings may be exchange traded instruments (such as listed options), or 'over the counter' (or non-exchange traded) derivatives. The Fund's strategy does not employ derivatives writing.

Volatility

The specific assets in which the Fund will invest, such as equities and precious metals, can be volatile when viewed independently of the other assets. However, each asset is subject to different or contrary risks. As such, the object of the Fund's overall asset allocation is to achieve less volatility than the assets taken independently.

Borrowing and short selling

The Fund does not intend to borrow, but may do so for the short term, generally to meet redemptions, distributions, or short-term portfolio obligations, and then only if the borrowing is considered to be prudent and in the best interests of all investors. It is the Fund's policy that any underlying funds not borrow.

The Fund does not short-sell securities. It is the Fund's policy that any underlying funds not use short selling.

Changing the investment strategy

The investment strategy and asset allocation approach may be changed. If a change is to be made, investors in the Fund will be notified in accordance with the Corporations Act.

Labour, environmental, social and ethical considerations

The Investment Manager does not generally take into account labour standards or environmental, social or ethical considerations for the purposes of selecting, retaining or realising investments.

Fund performance

Up to date information on the performance of the Fund can be obtained from the Investment Manager website or www.eqt.com.au/insto. A free of charge paper copy of the information will also be available on request.

6. Fees and costs

DID YOU KNOW?

Small differences in both investment performance and fees and costs can have a substantial impact on your long-term returns.

For example, total annual fees and costs of 2% of your investment balance rather than 1% could reduce your final return by up to 20% over a 30-year period (for example, reduce it from \$100,000 to \$80,000).

You should consider whether features such as superior investment performance or the provision of better member services justify higher fees and costs.

You may be able to negotiate to pay lower fees. Ask the fund or your financial adviser.

TO FIND OUT MORE

If you would like to find out more, or see the impact of the fees based on your own circumstances, the **Australian Securities and Investments Commission (ASIC) Moneysmart** website (www.moneysmart.gov.au) has a managed funds fee calculator to help you check out different fee options.

The information in the following Fees and Costs Summary can be used to compare costs between different simple managed investment schemes. Fees and costs can be paid directly from an investor's account or deducted from investment returns. For information on tax please see Section 7 of this PDS.

Fees and Costs Summary

¹ All fees quoted above are inclusive of Goods and Services Tax (GST) and net of any Reduced Input Tax Credits (RITC). See below for more details as to how the relevant fees and costs are calculated.

² The management fee component of management fees and costs can be negotiated. See "Differential fees" in the "Additional Explanation of Fees and Costs" below.

³ This represents the performance fee in respect of interposed vehicles in which the Fund invests.

Additional Explanation of Fees and Costs

Management fees and costs

The management fees and costs include amounts payable for administering and operating the Fund, investing the assets of the Fund, expenses and reimbursements in relation to the Fund and indirect costs if applicable.

Management fees and costs do not include performance fees or transaction costs, which are disclosed separately.

The management fees component of management fees and costs of 1.37% p.a. of the NAV of the Fund is payable to the Responsible Entity of the Fund for managing the assets and overseeing the operations of the Fund. The management fees component is accrued daily and paid from the Fund monthly in arrears and reflected in the unit price. As at the date of this PDS, the management fees component covers certain ordinary expenses such as Responsible Entity fees, investment management fees, custodian fees, and administration and audit fees.

The indirect costs and other expenses component of 0.13% p.a. of the NAV of the Fund may include other ordinary expenses of operating the Fund, as well as management fees and costs (if any) arising from interposed vehicles in or through which the Fund invests. The indirect costs and other expenses component is variable and reflected in the unit price of the Fund as the relevant fees and costs are incurred. They are borne by investors, but they are not paid to the Responsible Entity or Investment Manager. The indirect costs and other expenses component is based on the relevant costs incurred during the financial year ended 30 June 2021.

Actual indirect costs for the current and future years may differ. If in future there is an increase to indirect costs disclosed in this PDS, updates will be provided on Equity Trustees' website at www.eqt.com.au/insto where they are not otherwise required to be disclosed to investors under law.

Performance fees

Performance fees include amounts that are calculated by reference to the performance of interposed vehicles through which the Fund invests. The performance fees for the Fund are 0.01% of the NAV of the Fund. The performance fee figure that is disclosed in the Fees and Costs Summary is generally based on an average of the performance fees over the previous five financial years, where each performance fee relevant to the Fund is averaged and totalled to give the performance fees for the Fund.

Please note that the performance fees disclosed in the Fees and Costs Summary is not a forecast as the actual performance fee for the current and future financial years may differ. The Responsible Entity cannot guarantee that performance fees will remain at their previous level or that the performance of the Fund will outperform the Benchmark.

It is not possible to estimate the actual performance fee payable in any given period, as we cannot forecast what the performance of the Fund will be. Information on current performance fees will be updated from time to time and available at www.eqt.com.au/insto.

Transaction costs

In managing the assets of the Fund, the Fund may incur transaction costs such as brokerage, buy-sell spreads in respect of the underlying investments of the Fund, settlement costs, clearing costs and applicable stamp duty when assets are bought and sold. Transaction costs also include costs incurred by interposed vehicles in which the Fund invests (if any), that would have been transaction costs if they had been incurred by the Fund itself. Transaction costs are an additional cost to the investor where they are not recovered by the Buy/Sell Spread, and are generally incurred when the assets of the Fund are changed in connection with day-to-day trading or when there are applications or withdrawals which cause net cash flows into or out of the Fund.

The Buy/Sell Spread that is disclosed in the Fees and Costs Summary is a reasonable estimate of transaction costs that the Fund will incur when buying or selling assets of the Fund. These costs are an additional cost to the investor but are incorporated into the unit price and arise when investing application monies and funding withdrawals from the Fund and are not separately charged to the investor. The Buy Spread is paid into the Fund as part of an application and the Sell Spread is left in the Fund as part of a redemption and not paid to Equity Trustees or the Investment Manager. The estimated Buy/Sell Spread is 0.15% upon entry and 0.15% upon exit. The dollar value of these costs based on an application or a withdrawal of \$25,000 is \$37.50 for each individual transaction. The Buy/Sell Spread can be altered by the Responsible Entity at any time and www.corcapital.com.au will be updated as soon as practicable to reflect any change. The Responsible Entity may also waive the Buy/Sell Spread in part or in full at its discretion. The transaction costs figure in the Fees and Costs Summary is shown net of any amount recovered by the Buy/Sell Spread charged by the Responsible Entity.

Transaction costs generally arise through the day-to-day trading of the Fund's assets and are reflected in the Fund's unit price as an additional cost to the investor, as and when they are incurred.

The gross transaction costs for the Fund are 0.10% p.a. of the NAV of the Fund, which is based on the relevant costs incurred during the financial year ended 30 June 2021.

However, actual transaction costs for future years may differ.

Can the fees change?

Yes, all fees can change without investor consent, subject to the maximum fee amounts specified in the Constitution. The current maximum management fee to which Equity Trustees is entitled is 2.00% of the GAV of the Fund. However, Equity Trustees does not intend to charge that amount and will generally provide investors with at least 30 days' notice of any proposed increase to the management fees component of management fees and costs. In most circumstances, the Constitution defines the maximum level that can be charged for fees described in this PDS. Equity Trustees also has the right to recover all reasonable expenses incurred in relation to the proper performance of its duties in managing the Fund and as such these expenses may increase or decrease accordingly, without notice.

Payments to IDPS Operators

Subject to the law, annual payments may be made to some IDPS Operators because they offer the Fund on their investment menus. Product access is paid by the Investment Manager out of its investment management fee and is not an additional cost to the investor.

Differential fees

The Investment Manager may from time to time negotiate a different fee arrangement (by way of a rebate or waiver of fees) with certain investors who are Australian Wholesale Clients. Please contact the Investment Manager on +61 3 9221 6255 for further information.

Example of annual fees and costs for an investment option

This table gives an example of how the ongoing annual fees and costs in the investment option for this product can affect your investment over a 1-year period. You should use this table to compare this product with other products offered by managed investment schemes.

EXAMPLE – Cor Capital Fund

BALANCE OF \$50,000 WITH A CONTRIBUTION OF \$5,000 DURING THE YEAR

Contribution Fees	Nil	For every additional \$5,000 you put in, you will be charged \$0
Plus Management fees and costs	1.50% p.a.	And , for every \$50,000 you have in the Cor Capital Fund you will be charged or have deducted from your investment \$750 each year
Plus Performance fees	0.01% p.a.	And , you will be charged or have deducted from your investment \$5 in performance fees each year
Plus Transaction costs	0.04% p.a.	And , you will be charged or have deducted from your investment \$20 in transaction costs
Equals Cost of Cor Capital Fund		If you had an investment of \$50,000 at the beginning of the year and you put in an additional \$5,000 during that year, you would be charged fees and costs of: \$775* What it costs you will depend on the investment option you choose and the fees you negotiate.

* Additional fees may apply. Please note that this example does not capture all the fees and costs that may apply to you such as the Buy/Sell Spread.

This example assumes the \$5,000 contribution occurs at the end of the first year, therefore the fees and costs are calculated using the \$50,000 balance only.

Warning: If you have consulted a financial adviser, you may pay additional fees. You should refer to the Statement of Advice or Financial Services Guide provided by your financial adviser in which details of the fees are set out.

ASIC provides a fee calculator on www.moneysmart.gov.au, which you may use to calculate the effects of fees and costs on account balances. The performance fees stated in this table are based on the average performance fee for the interposed vehicles through which the Fund invests, over the previous five financial years. The performance of the Fund for this financial year, and the performance fees, may be higher or lower or not payable in the future. It is not a forecast of the performance of the Fund or the amount of the performance fees in the future

The indirect costs and other expenses component of management fees and costs and transaction costs may also be based on estimates. As a result, the total fees and costs that you are charged may differ from the figures shown in the table.

Further reading

You should read the important information in the Reference Guide about fees and costs under the "Fees and other costs" section before making a decision. Go to the Reference Guide which is available at www.eqt.com.au/insto. The material relating to these matters may change between the time when you read this PDS and the day when you acquire the product.

7. How managed investment schemes are taxed

Warning: Investing in a registered managed investment scheme (such as the Fund) is likely to have tax consequences. You are strongly advised to seek your own professional tax advice about the applicable Australian tax (including income tax, GST and duty) consequences and, if appropriate, foreign tax consequences which may apply to you based on your particular circumstances before investing in the Fund.

The Fund is an Australian resident for tax purposes and does not generally pay tax on behalf of its investors. Australian resident investors are assessed for tax on any income and capital gains generated by the Fund to which they become presently entitled or, where the Fund has made a choice to be an Attribution Managed Investment Trust ("AMIT") and the choice is effective for the income year, are attributed to them.

Further reading

You should read the important information in the Reference Guide about Taxation under the "Other important information" section before making a decision. Go to the Reference Guide which is available at www.eqt.com.au/insto. The material relating to these matters may change between the time when you read this PDS and the day when you acquire the product.

8. How to apply

To invest please complete the Application Form accompanying this PDS, send funds (see details in the Application Form) and your completed Application Form to:

Cor Capital Fund
GPO Box 804
Melbourne VIC 3001

Alternatively, initial applications can be completed online at www.corcapital.com.au/#invest.

Please note that cash cannot be accepted and all applications must be made in Australian dollars.

Who can invest?

Eligible persons (as detailed in the 'About this PDS' section) can invest, however individual investors must be 18 years of age or over. Investors investing through an IDPS should use the Application Form provided by the operator of the IDPS.

Cooling off period

If you are a retail client (as defined in the Corporations Act) who has invested directly in the Fund, you may have a right to a 'cooling off' period in relation to your investment in the Fund for 14 days from the earlier of:

- confirmation of the investment being received; and
- the end of the fifth business day after the units are issued.

A Retail Client may exercise this right by notifying Equity Trustees in writing. A Retail Client is entitled to a refund of their investment adjusted for any increase or decrease in the relevant Application Price between the time we process your application and the time we receive the notification from you, as well as any other tax and other reasonable administrative expenses and transaction costs associated with the acquisition and termination of the investment.

The right of a Retail Client to cool off does not apply in certain limited situations, such as if the issue is made under a distribution reinvestment plan, switching facility or represents additional contributions required under an existing agreement. Also, the right to cool off does not apply to you if you choose to exercise your rights or powers as a unit holder in the Fund during the 14 day period, this could include selling part of your investment or switching it to another product.

Indirect investors should seek advice from their IDPS Operator as to whether cooling off rights apply to an investment in a fund by the IDPS. The right to cool off in relation to a fund are not directly available to an indirect investor. This is because an Indirect Investor does not acquire the rights of a unit holder in a fund. Rather, an Indirect Investor directs the IDPS Operator to arrange for their monies to be invested in a fund on their behalf. The terms and conditions of the IDPS Guide or similar type document will govern an Indirect Investor's investment in relation to a fund and any rights an indirect investor may have in this regard.

Complaints resolution

Equity Trustees has an established complaints handling process and is committed to properly considering and resolving all complaints. If you have a complaint about your investment, please contact us on:

Phone: 1300 133 472
Post: Equity Trustees Limited

Phone: 1800 931 678
Email: info@afca.org.au
Post: GPO Box 3, Melbourne VIC 3001.

The external dispute resolution body is established to assist you in resolving your complaint where you have been unable to do so with us. However, it's important that you contact us first.

9. Other information

Consent

The Investment Manager has given and, as at the date of this PDS, has not withdrawn:

- its written consent to be named in this PDS as the investment manager of the Fund; and
- its written consent to the inclusion of the statements made about it which are specifically attributed to it, in the form and context in which they appear.

The Investment Manager has not otherwise been involved in the preparation of this PDS or caused or otherwise authorised the issue of this PDS. None of the Investment Manager nor their employees or officers accept any responsibility arising in any way for errors or omissions, other than those statements for which they have provided their written consent to Equity Trustees for inclusion in this PDS.

Section 5.1 Custodian Attestation: Chapter 4, parts 4.4.18 and 4.4.19 of the AML/CTF Rules

If you are a Company completing this Application Form on behalf of an individual, another company, a trust or other entity, in a Custodial capacity, please complete this section.

In accordance with Chapter 4, part 4.4.19 (1)(a) to (d) of the AML/CTF Rules, does the Custodian meet the definition (see 'Section 10 – Glossary') of a Custodian?

No **Yes**

In accordance with Chapter 4, part 4.4.19 (e) of the AML/CTF Rules, do you, in your capacity as Custodian attest that prior to requesting this designated service from Equity Trustees, it has carried out and will continue to carry out, all applicable customer identification procedures on the underlying account holder named or to be named in the Fund's register, including conducting ongoing customer due diligence requirements in accordance with Chapter 15 of the AML/CTF Rules?

No **Yes**

If you answered YES to all of the above questions, then Equity Trustees is able to apply the Chapter 4, part 4.4 Custodian rules to this account and will rely upon the customer due diligence conducted by the Custodian on the underlying account holder named or to be named in the Fund's register.

If requested to do so at any time after the provision of this designated service, the Custodian agrees to honour any reasonable request made by Equity Trustees for information or evidence about the underlying account holder in order to allow Equity Trustees to meet its obligations under the AML/CTF Act.

No **Yes**

Excepting the below circumstances where the custodian answered NO or did not complete any of the above questions, no other information about the underlying account holder is required to be collected. However, further information about you as the Custodian and as a company is required to be collected and verified as required by the AML/CTF rules. Please complete the rest of this form for the Custodian.

Excepting circumstances:

If you answered NO or did not complete any of the above questions, then we are unable to apply the Chapter 4, part 4.4 Custodian rules to this application. We are therefore obligated to conduct full Know Your Client procedures on the underlying account holder named or to be named in the Fund's register including any named nominee, as well as the trustees, beneficial owners and controlling persons of the underlying named account in addition to the Custodian. Therefore, please complete the relevant forms and provide identity documents for all parties connected to this account.

Section 8 Declarations – ALL investors MUST complete

In most cases the information that you provide in this form will satisfy the AML/CTF Act, the US Foreign Account Tax Compliance Act ('FATCA') and the Common Reporting Standards ('CRS'). However, in some instances the Responsible Entity may contact you to request further information. It may also be necessary for the Responsible Entity to collect information (including sensitive information) about you from third parties in order to meet its obligations under the AML/CTF Act, FATCA and CRS.

When you complete this Application Form you make the following declarations:

- I/We have received the PDS/IM and made this application in Australia (and/or New Zealand for those offers made in New Zealand).
- I/We have read the PDS/IM to which this Application Form applies and agree to be bound by the terms and conditions of the PDS/IM and the Constitution of the relevant Fund/Trust in which I/we have chosen to invest.
- I/we have carefully considered the features of the Cor Capital Fund as described in the PDS (including its investment objectives, minimum suggested investment timeframe, risk level, withdrawal arrangements and investor suitability) and, after obtaining any financial and/or tax advice that I/we deemed appropriate, am/are satisfied that my/our proposed investment in the Cor Capital Fund is consistent with my/our investment objectives, financial circumstances and needs.*
- I/We have considered our personal circumstances and, where appropriate, obtained investment and/or taxation advice.
- I/We hereby declare that I/we are not a US Person as defined in the PDS/IM.
- I/We acknowledge that (if a natural person) I am/we are 18 years of age or over and I am/we are eligible to hold units in the Fund/Trust in which I/We have chosen to invest.
- I/We acknowledge and agree that Equity Trustees Limited has outlined in the PDS/IM provided to me/us how and where I/we can obtain a copy of the Equity Trustees Limited Group Privacy Statement.
- I/We consent to the transfer of any of my/our personal information to external third parties including but not limited to fund administrators, fund investment manager(s) and related bodies corporate who are located outside Australia for the purpose of administering the products and services for which I/we have engaged the services of Equity Trustees Limited or its related bodies corporate and to foreign government agencies for reporting purposes (if necessary).
- I/we hereby confirm that the personal information that I/we have provided to Equity Trustees Limited is correct and current in every detail, and should these details change, I/we shall promptly advise Equity Trustees Limited in writing of the change(s).
- I/We agree to provide further information or personal details to the Responsible Entity if required to meet its obligations under anti-money laundering and counter-terrorism legislation, US tax legislation or reporting legislation and acknowledge that processing of my/our application may be delayed and will be processed at the unit price applicable for the Business Day as at which all required information has been received and verified.
- If I/we have provided an email address, I/we consent to receive ongoing investor information including PDS/IM information, confirmations of transactions and additional information as applicable via email.
- I/We acknowledge that Equity Trustees Limited does not guarantee the repayment of capital or the performance of the Fund/Trust or any particular rate of return from the Fund/Trust.
- I/We acknowledge that an investment in the Fund/Trust is not a deposit with or liability of Equity Trustees Limited and is subject to investment risk including possible delays in repayment and loss of income or capital invested.
- I/We acknowledge that Equity Trustees Limited is not responsible for the delays in receipt of monies caused by the postal service or the investor's bank.
- If I/we lodge a fax application request, I/we acknowledge and agree to release, discharge and agree to indemnify Equity Trustees Limited from and against any and all losses, liabilities, actions, proceedings, account claims and demands arising from any fax application.
- If I/we have completed and lodged the relevant sections on authorised representatives, agents and/or financial advisers on the Application Form then I/we agree to release, discharge and indemnify Equity Trustees Limited from and against any and all losses, liabilities, actions, proceedings, account claims and demands arising from Equity Trustees Limited acting on the instructions of my/our authorised representatives, agents and/or financial advisers.
- If this is a joint application each of us agrees that our investment is held as joint tenants.
- I/We acknowledge and agree that where the Responsible Entity, in its sole discretion, determines that:
 - I/we are ineligible to hold units in a Fund/Trust or have provided misleading information in my/our Application Form; or
 - I/we owe any amounts to Equity Trustees Limited, then I/we appoint the Responsible Entity as my/our agent to submit a withdrawal request on my/our behalf in respect of all or part of my/our units, as the case requires, in the Fund/Trust.

- **For Wholesale Clients*** - I/We acknowledge that I am/we are a Wholesale Client (as defined in Section 761G of the Corporations Act 2001 (Cth)) and are therefore eligible to hold units in the Fund/Trust.
- **For New Zealand applicants*** - I/we have read the terms of the offer relating to New Zealand investors, including the New Zealand warning statement.
- **For New Zealand Wholesale Investors*** - I/We acknowledge and agree that:
 - I/We have read the “New Zealand Wholesale Investor Fact Sheet” and PDS/IM or “New Zealand Investors: Selling Restriction” for the Fund/Trust;
 - I am/We are a Wholesale Investor and am/are therefore eligible to hold units in the Fund/Trust; and
 - I/We have not:
 - Offered, sold, or transferred, and will not offer, sell, or transfer, directly or indirectly, any units in the Fund/Trust;
 - Granted, issued, or transferred, and will not grant, issue,

or transfer, any interests in or options over, directly or indirectly, any units in the Fund/Trust; and

- Distributed and will not distribute, directly or indirectly, the PDS/IM or any other offering materials or advertisement in relation to any offer of units in the Fund/Trust, in each case in New Zealand, other than to a person who is a Wholesale Investor; and
- I/We will notify Equity Trustees Limited if I/we cease to be a Wholesale Investor; and
- I/We have separately provided a signed Wholesale Investor Certification located at the end of this Application Form.
- All references to Wholesale Investor in this Declaration are a reference to Wholesale Investor in terms of clause 3(2) of Schedule 1 of the Financial Markets Conduct Act 2013 (New Zealand).

*Disregard if not applicable.

***Terms and conditions for collection of Tax File Numbers (TFN) and Australian Business Numbers (ABN)**

Collection of TFN and ABN information is authorised and its use and disclosure strictly regulated by tax laws and the Privacy Act. Investors must only provide an ABN instead of a TFN when the investment is made in the course of their enterprise. You are not obliged to provide either your TFN or ABN, but if you do not provide either or claim an exemption, we are required to deduct tax from your distribution at the highest marginal tax rate plus Medicare levy to meet Australian taxation law requirements.

For more information about the use of TFNs for investments, contact the enquiries section of your local branch of the ATO. Once provided, your TFN will be applied automatically to any future investments in the Fund/Trust where formal application procedures are not required (e.g. distribution reinvestments), unless you indicate, at any time, that you do not wish to quote a TFN for a particular investment. Exempt investors should attach a copy of the certificate of exemption. For super funds or trusts list only the applicable ABN or TFN for the super fund or trust.

When you sign this Application Form you declare that you have read, agree to and make the declarations above
