#### About this PDS

This Product Disclosure Statement ("PDS") has been prepared and issued by Equity Trustees Limited ("Equity Trustees", "we" or "Responsible Entity") and is a summary of the significant information relating to an investment in the MFS Hedged Global Equity Trust (the "Trust"). It contains a number of references to important information (including a glossary of terms) contained in the MFS Trusts Reference Guide ("Reference Guide"), each of which forms part of this PDS. You should carefully read and consider both the information in this PDS, and the information in the Reference Guide, before making a decision about investing in the Trust.

The information provided in this PDS is general information only and does not take account of your personal objectives, financial situation or needs. You should obtain financial and taxation advice tailored to your personal circumstances and consider whether investing in the Trust is appropriate for you in light of those circumstances.

The offer to which this PDS relates is only available to Wholesale Clients (as defined in the Reference Guide) receiving this PDS (electronically or otherwise) in Australia and Wholesale Investors (as defined in the Reference Guide) receiving this PDS (electronically or otherwise) in New Zealand who have completed a Wholesale Investor Certificate attached to the Application Form. New Zealand Wholesale investors must read the MFS Trusts New Zealand Wholesale Investor Fact Sheet. All references to dollars or "\$" in this PDS are to Australian dollars.

This PDS has not been, and will not be, lodged with the Registrar of Financial Service Providers in New Zealand, and is not a Product Disclosure Statement under the Financial Markets Conduct Act 2013 (NZ). New Zealand Wholesale Investors wishing to invest in the Trust should be aware that there may be different tax implications of investing in the Trust and should seek their own tax advice as necessary.

This PDS does not constitute a direct or indirect offer of securities in the US or to any US Person as defined in Regulation S under the Securities Act of 1933 as amended ("US Securities Act"). Equity Trustees may vary this position and offers may be accepted on merit at Equity Trustees' discretion. The units in the Trust have not been, and will not be, registered under the US Securities Act unless otherwise approved by Equity Trustees and may not be offered or sold in the US to, or for, the account of any US Person (as defined in the Reference Guide) except in a transaction that is exempt from the registration requirements of the US Securities Act and applicable US state securities laws.

# 1. About Equity Trustees Limited

#### The Responsible Entity

#### **Equity Trustees Limited**

Equity Trustees Limited ABN 46 004 031 298 AFSL 240975, a subsidiary of EQT Holdings Limited ABN 22 607 797 615, which is a public company listed on the Australian Securities Exchange (ASX: EQT), is the Trust's responsible entity and issuer of this PDS. Established as a trustee and executorial service provider by a special Act of the Victorian Parliament in 1888. Today Equity Trustees is a dynamic financial services institution which continues to grow the breadth and quality of products and services on offer.

Equity Trustees' responsibilities and obligations as the Trust's responsible entity are governed by the Trust's constitution ("Constitution"), the Corporations Act and general trust law. Equity Trustees has appointed MFS International Australia Pty Ltd as the investment manager of the Trust. Equity Trustees has appointed a custodian to hold the assets of the Trust. The custodian has no supervisory role in relation to the operation of the Trust and is not responsible for protecting your interests.

#### The Investment Manager

#### MFS International Australia Pty Ltd

MFS International Australia Pty Ltd ("MFSIA" or "Investment Manager") is the investment manager of the Trust and a member of the MFS Investment Management group of companies ("MFS"). Established in 1924, MFS is an active, global asset manager with investment offices in Boston, Hong Kong, London, São Paulo, Singapore, Sydney, Tokyo and Toronto. MFSIA has delegated the investment management of the Trust to another member of MFS, MFS Institutional Advisors, Inc., a US Securities and Exchange Commission registered investment adviser. MFS is a member of the Sun Life Financial group of companies.

# 2. How the MFS Hedged Global Equity **Trust works**

The Trust is a registered managed investment scheme governed by the Constitution. The Trust comprises assets which are acquired in accordance with the Trust's investment strategy. Direct investors receive units in the Trust when they invest. In general, each unit represents an equal interest in the assets of the Trust subject to liabilities; however, it does not give investors an interest in any particular asset of the Trust

If you invest in the Trust through an IDPS (as defined in the Reference Guide) you will not become an investor in the Trust. The operator or custodian of the IDPS will be the investor entered in the Trust's register and will be the only person who is able to exercise the rights and receive the benefits of a direct investor. Your investment in the Trust through the IDPS will be governed by the terms of your IDPS. Please direct any queries and requests relating to your investment to your IDPS Operator. Unless otherwise stated, the information in the PDS applies to direct investors.

#### Applying for units

You can acquire units by completing the Application Form that accompanies this PDS. The minimum initial investment amount for the Trust is \$500,000.

Completed Application Forms should be sent along with your identification documents (if applicable) to:

MFS International Australia Pty Ltd, Applications and Withdrawals, C/- Unit Registry, Level 14, 420 George Street, Sydney, NSW 2000.

Please note that cash cannot be accepted.

We reserve the right to accept or reject applications in whole or in part at our discretion. We have the discretion to delay processing applications where we believe this to be in the best interest of the

The price at which units are acquired is determined in accordance with the Constitution ("Application Price"). The Application Price on a Business Day is, in general terms, equal to the Net Asset Value ("NAV") of the Trust, divided by the number of units on issue and adjusted for transaction costs ("Buy Spread"). At the date of this PDS, the Buy

The Application Price will vary as the market value of assets in the Trust rises or falls

#### Making additional investments

You can make additional investments into the Trust at any time by sending us your additional investment amount together with a completed Application Form. There is no minimum additional investment into the Trust.

#### **Distributions**

An investor's share of any distributable income is calculated in accordance with the Constitution and is generally based on the number of units held by the investor at the end of the distribution period.

The Trust usually distributes income annually at 30 June. Distributions are calculated effective the last day of each distribution period and are normally paid to investors as soon as practicable after the distribution calculation date.

Investors in the Trust can indicate a preference to have their distribution:

- for Australian Wholesale Clients or New Zealand Wholesale Investors – reinvested back into the Trust;
- for Australian Wholesale Clients or New Zealand Wholesale Investors – directly credited to their Australian dollar ("AUD") denominated, Australian domiciled bank account (New Zealand Wholesale Investors to refer to the MFS Trusts New Zealand Wholesale Investor Fact Sheet).

Investors who do not indicate a preference will have their distributions automatically reinvested. Applications for reinvestment will be taken to be received immediately prior to the next Business Day after the relevant distribution period. There is no Buy Spread on distributions that are reinvested.

In some circumstances, the Constitution may allow for an investor's withdrawal proceeds to be taken to include a component of distributable income.

Indirect Investors should review their IDPS Guide for information on how and when they receive any income distribution.

New Zealand Wholesale investors can only have their distribution directly credited if an AUD denominated Australian domiciled bank account is provided, otherwise it must be reinvested (refer to the MFS Trusts New Zealand Wholesale Investor Fact Sheet).

#### Access to your money

Investors in the Trust can generally withdraw their investment by completing a written request to withdraw from the Trust and mailing it

MFS International Australia Pty Ltd, Applications and Withdrawals, C/- Unit Registry, Level 14, 420 George Street, Sydney, NSW 2000.

Or sending it by fax to +612 9323 6411

The minimum withdrawal amount is \$50. Once we receive and accept your withdrawal request, we may act on your instruction without further enquiry if the instruction bears your account number or investor details and your (apparent) signature(s), or your authorised signatory's (apparent) signature(s).

Equity Trustees will generally allow an investor to access their investment within 3 Business Days of acceptance of a withdrawal request by transferring the withdrawal proceeds to such investor's nominated AUD denominated Australian domiciled bank account. However, Equity Trustees is allowed to reject withdrawal requests, and also to make payment up to 30 days after acceptance of a request (which may be extended in certain circumstances) as outlined in the Constitution and Reference Guide

We reserve the right to accept or reject withdrawal requests in whole or in part at our discretion.

The price at which units are withdrawn is determined in accordance with the Constitution ("Withdrawal Price"). The Withdrawal Price on a Business Day is, in general terms, equal to the NAV of the Trust, divided by the number of units on issue and adjusted for transaction costs ("Sell Spread"). At the date of this PDS, the Sell Spread is 0.15%.

The Withdrawal Price will vary as the market value of assets in the Trust rises or falls.

Equity Trustees reserves the right to fully redeem your investment if your investment balance in the Trust falls below \$500,000 as a result of processing your withdrawal request. In certain circumstances, for example, when there is a freeze on withdrawals, where accepting a withdrawal is not in the best interests of investors in the Trust including due to one or more circumstances outside its control or where the Trust is not liquid (as defined in the Corporations Act), Equity Trustees can deny or suspend a withdrawal request and you may not be able to withdraw your funds in the usual processing times or at all. When the Trust is not liquid, an investor can only withdraw when Equity Trustees makes a withdrawal offer to investors in accordance with the Corporations Act. Equity Trustees is not obliged to make such offers.

If you are an Indirect Investor, you need to provide your withdrawal request directly to your IDPS Operator. The time to process a withdrawal request will depend on the particular IDPS Operator and the terms of the IDPS.

#### Unit pricing discretions policy

Equity Trustees has developed a formal written policy in relation to the guidelines and relevant factors taken into account when exercising any discretion in calculating unit prices (including determining the value of the assets and liabilities). A copy of the policy and, where applicable and to the extent required, any other relevant documents in relation to the policy will be made available free of charge on request.

#### Additional information

If and when the Trust has 100 or more direct investors, it will be classified by the Corporations Act as a 'disclosing entity'. As a disclosing entity, the Trust will be subject to regular reporting and disclosure obligations. Investors would then have a right to obtain a copy, free of charge, of any of the following documents:

- the most recent annual financial report lodged with ASIC ("Annual Report"):
- any subsequent half yearly financial report lodged with ASIC after the lodgement of the Annual Report; and
- any continuous disclosure notices lodged with ASIC after the Annual Report but before the date of this PDS.

Equity Trustees will comply with any continuous disclosure obligation by lodging documents with ASIC as and when required.

Copies of these documents lodged with ASIC in relation to the Trust may be obtained from ASIC through ASIC's website.

# 3. Benefits of investing in the MFS Hedged **Global Equity Trust**

An investment in the Trust looks to provide the benefits of professional research and management, diversification and liquidity.

MFS has a strong collaborative approach to building better insights for clients. These insights are derived from three guiding principles integrated research, global collaboration, and active risk management. The firm believes the application of these principles and the combined insights across fundamental equity, quantitative and fixed income perspectives is what enables it to deliver durable, long-term returns for clients

The firm believes that its key competitive advantage is its team-based, collaborative culture. Strong firm culture develops through years of experience and through the collective contributions of the people who enjoy working for the organisation. MFS believes this culture is a catalyst for its results and distinguishes it from its competitors.

**Style Consistency** MFS seeks to identify investments that provide above average, durable growth and returns at attractive valuations relative to the market.

Seeks Strong Risk Adjusted Returns MFS believes that stock selection, based upon Fundamental Research, is the main driver to long-term performance, and can potentially lead to strong risk-adjusted returns. For an explanation of "Fundamental Research", please see the Glossary in the Reference Guide.

Global Research Integrated research is the foundation of MFS' approach to investing. A culture based on collaboration and teamwork enables MFS to have a globally integrated network of research analysts and portfolio managers based in Boston and seven other sites around the world (Hong Kong, London, Sao Paulo, Singapore, Sydney, Tokyo and Toronto) that serves as the basis for all investment decisions.

Risk Management MFS focuses on the durability of growth and returns and on downside risk, which MFS believes helps to avoid investing in stocks whose growth promises may prove too good to be

**Efficient Portfolio Management** MFS believes that its size as a firm provides the depth of resources and access to company management required to be a successful global manager while, at the portfolio level, MFS is able to quickly and efficiently take advantage of opportunities across all market capitalisation ranges.

# 4. Risks of managed investment schemes

All investments carry risks. Different investment strategies may carry different levels of risk, depending on the assets acquired under the strategy. Assets with the highest long-term returns may also carry the highest level of short-term risk. The principal risks below should be considered in light of your risk profile when deciding whether to invest in the Trust. Your risk profile will vary depending on a range of factors, including your age, the investment time frame (how long you wish to invest for), your other investments or assets and your risk tolerance.

The significance of any specific risk to an investment in the Trust will vary over time depending on the composition of the Trust's portfolio, market conditions, and other factors. You should read all of the risk information below carefully, because any one or more of these risks may result in losses to the Trust.

The Responsible Entity and the Investment Manager do not guarantee the liquidity of the Trust's investments, repayment of capital or any rate of return or the Trust's investment performance. The value of the Trust's investments will vary. Returns are not guaranteed, and you may lose money by investing in the Trust. The level of returns will vary and future returns may differ from past returns. Laws affecting managed investment schemes may change in the future. The structure and administration of the Trust is also subject to change.

In addition, we do not offer advice that takes into account your personal financial situation, including advice about whether the Trust is suitable for your circumstances. If you require personal financial or taxation advice, you should contact a licensed financial adviser and/or taxation adviser.

#### Counterparty Risk

Counterparty risk is the risk that any of Equity Trustees' or MFS' trading counterparties, including any derivative counterparties, custodians or any issuer or guarantor of securities held by the Trust or other third party responsible for servicing a security or effecting a transaction, becomes insolvent, experiences a business interruption, or cannot or will not otherwise perform in accordance with the terms of the transaction or arrangement.

#### Currency Risk

The value of foreign currencies relative to the Australian dollar fluctuates in response to market, economic, industry, political, regulatory, geopolitical, environmental, public health, and other conditions, and changes in currency exchange rates impact the financial condition of companies or other issuers and may change the value in Australian dollars of investments denominated in foreign currencies. The strategy to hedge the portfolio into Australian dollars will not completely eliminate exposure to currency movements.

#### Derivatives Risk

Derivatives can be highly volatile and involve risks in addition to, and potentially greater than, the risks of the underlying indicator(s) on which the Derivative is based. Gains or losses from Derivatives can be substantially greater than the Derivatives' original cost and can sometimes be unlimited. Derivatives can involve leverage.

#### Equity Market/Company Risk

Equity markets are volatile and can decline significantly in response to changes in, or investor perceptions of, issuer, market, economic, industry, political, regulatory, geopolitical, environmental, public health, and other conditions. These conditions can affect a single issuer or type of security, issuers within a broad market sector, industry or geographic region, or the equity markets in general. Certain events can have a dramatic adverse effect on equity markets and may lead to periods of high Volatility in an equity market or a segment of an equity market. The value of an investment held by the Trust may decline due to factors directly related to the issuer of the investment.

#### Focus Risk

Issuers in a single industry, sector, country, or region can react similarly to market, currency, political, economic, regulatory, geopolitical, environmental, public health, and other conditions, and the Trust's performance will be affected by the conditions in the industries, sectors, countries and regions to which the Trust is exposed.

#### Foreign and Emerging Markets Risk

Exposure to foreign markets, especially Emerging Markets, through issuers or currencies can involve additional risks relating to market, economic, industry, political, regulatory, geopolitical, environmental, public health, and other conditions. These factors can make foreign investments, especially those tied economically to Emerging Markets, or countries subject to sanctions or the threat of new or modified sanctions, more volatile and less liquid than Australian investments. In addition, foreign markets can react differently to these conditions than the Australian market. Emerging Markets can have less developed securities markets, greater custody and operational risk, less developed legal, regulatory, and accounting systems, greater government involvement in the economy, greater risk of new or inconsistent government treatment of or restrictions on issuers or instruments, and greater political, social, geopolitical, and economic instability than developed markets.

#### Investment Selection Risk

MFS' investment analysis and its selection of investments may not produce the intended results and/or can lead to an investment focus that results in the Trust underperforming other trusts with similar investment strategies and/or underperforming the markets in which the Trust invests. In addition, to the extent MFS considers quantitative tools in managing the Trust, such tools may not produce the intended results.

#### Large Investor Risk

From time to time, investors in the Trust may make relatively large redemptions or purchases of units in the Trust. These transactions may cause the Trust to sell securities or invest additional cash, as the case may be, at disadvantageous prices. Redemptions of a large number of units also may increase transaction and other costs or have adverse tax consequences for investors in the Trust by requiring a sale of portfolio securities. Purchases of a large number of shares may adversely affect the Trust's performance to the extent that it takes time to invest new cash and the Trust maintains a larger cash position than it ordinarily would.

#### Legal Risk

The Trust may be affected by the actions of governments and regulatory bodies. Legislation (including legislation relating to tax) or regulation may be introduced which inhibits the Trust from pursuing its strategy or which renders an existing strategy less profitable than anticipated.

#### Liquidity Risk

It may be difficult to value, and it may not be possible to sell, certain investments, types of investments, and/or investments in certain segments of the market, and the Trust may have to sell certain of these investments at a price or time that is not advantageous in order to meet redemptions or other cash needs.

#### Operational Risk

Operational risk includes the risk of trading, back office, administration, or similar operational issues that may result in a loss to the Trust or its investors. Operational incidents could be the result of inadequate oversight, ineffective security processing procedures, computer system problems, human error, or cybersecurity incidents. While Equity Trustees and MFS have instituted certain practices and processes within their respective operations and business administrations designed to wherever possible mitigate the operational risk consequences that arise, there are inherent limitations in such practices and processes, including the possibility that certain risks have not been (or cannot be) adequately identified.

#### Pandemic and Other Unforeseen Event Risk

Health crises, such as pandemic and epidemic diseases, as well as other catastrophes that interrupt the expected course of events, such as natural disasters, war or civil disturbance, acts of terrorism, power outages and other unforeseeable and external events, and the public response to or fear of such diseases or events, have and may in the future have an adverse effect on the economies and financial markets either in specific countries or worldwide and consequently on the value of the Trust's investments. Further, under such circumstances the operations, including functions such as trading and valuation, of the Investment Manager, Responsible Entity and other service providers could be reduced, delayed, suspended or otherwise disrupted.

#### Trust Risk

As with all managed funds, there are risks particular to the Trust including: that the Trust could be terminated, the fees and expenses could change, Equity Trustees is replaced as responsible entity or that MFSIA is replaced as investment manager.

#### Underlying Fund risk

The Trust's strategy of investing in the MFS Global Equity Trust exposes the Trust to the risks of the MFS Global Equity Trust. The MFS Global Equity Trust pursues its own investment objective and strategies and may not achieve its objective. In addition, investors in the Trust will indirectly bear the fees and expenses of the MFS Global Equity Trust.

#### Further Reading

You should read the important information in the Reference Guide about principal risks under the "Principal risks" section before making a decision. Go to the Reference Guide which is available at www.egt.com.au/insto or www.mfs.com. The material relating to risks may change between the time when you read this PDS and the day when you acquire the product.

# 5. How we invest your money

Warning: When choosing to invest in the Trust, you should consider the likely investment returns, the risks of investing and your investment time frame.

#### Investment objective

The Trust aims to seek capital appreciation over the longer term by investing in an underlying fund, the MFS Global Equity Trust, which itself has a diversified portfolio of global shares. The Trust is hedged and aims to outperform its Benchmark over full market cycle, before taking into account fees, taxes and expenses.

#### Benchmark

MSCI World Index (with net dividends reinvested) hedged in AUD, before fees, taxes and expenses.

#### Minimum suggested time frame

The minimum suggested investment timeframe for the Trust is 5 years.

#### Risk level

Hiah.

There is a risk investors may lose some or all of their investment. Higher risk investments tend to fluctuate in the short term but can produce higher returns than lower risk investments over the long term.

#### Investor suitability

The Trust is designed for investors seeking the potential for capital appreciation over the longer term through exposure to a diversified portfolio of global shares which are hedged into Australian dollars.

#### Investment style and approach

In selecting investments for the MFS Global Equity Trust, MFS is not constrained by any particular investment style. MFS may invest the MFS Global Equity Trust's assets in the stocks of companies it believes to have above average earnings growth potential compared to other companies (growth companies), in the stocks of companies it believes are undervalued compared to their perceived worth (value companies), or in a combination of growth and value companies. MFS uses an active bottom-up investment approach to buying and selling investments for the MFS Global Equity Trust. Investments are selected primarily based on fundamental analysis of individual issuers and their potential in light of their financial condition, and market, economic, political, and regulatory conditions. Factors considered may include analysis of an issuer's earnings, cash flows, competitive position, and management ability.

MFS normally invests the MFS Global Equity Trust's assets across different industries, sectors, countries and regions, but MFS may invest a significant percentage of the Trust's assets in issuers in a single industry, sector, country or region.

The Trust offers the performance of the MFS Global Equity Trust, whilst seeking to minimise the effect of currency movements. The Trust aims to achieve this by applying a currency overlay that hedges, as far as is practical, all foreign currency exposures into Australian dollars. This approach is passively applied meaning that the objective is to remove currency risk without trying to add to returns by actively managing currency positions.

#### Investments held

The Trust invests directly into the MFS Global Equity Trust with a currency hedging strategy overlaid. The MFS Global Equity Trust invests primarily in common stock and related securities of global issuers. The MFS Global Equity Trust will not invest in issuers that MFS believes are principally engaged in the manufacturing of tobacco products. The MFS Global Equity Trust may invest in issuers located in Emerging Markets countries (as defined by MFS). The MFS Global Equity Trust may utilise Derivatives as a routine means to accomplish exposures to various equities or markets.

#### Asset allocation

Asset	Range
Global equities	90-100%
Cash & cash equivalents	0-10%

#### Labour standards, environmental, social and ethical factors ("ESG Considerations")

EQT has delegated the investment management function to the Investment Manager and the Investment Manager has contemplated Standards, Environmental, Social and Ethical' 'Labour considerations may be taken into account in relation to the investment of the Trust.

MFS takes into account labour standards, environmental, social and governance ("ESG") factors when making investment decisions to the extent that MFS believes these factors could have a material impact on investment risk or return. MFS does not specifically take into account ethical considerations when making investment decisions. ESG factors considered may include, but are not limited to, climate change, resource depletion, an issuer's governance structure and practices, data protection and privacy issues, and diversity and labour practices. Decisions about the selection, retention or realization of investments for the Trust are primarily based on fundamental analysis. In exercising its authority as Investment Manager of the Trust, MFS may consider ESG factors in its fundamental investment analysis and security selection process alongside more traditional economic factors where MFS believes such ESG factors could materially impact the economic value of an issuer, however, no particular weighting or methodology is applied in relation to the consideration of ESG factors. Each investment professional makes their own decisions with respect to which ESG factors to consider and how much consideration, if any, to give to ESG factors in the security analysis and investment selection process. MFS' consideration of the impact of ESG factors on the value of an issuer often involves a long-term investment horizon, and the impact of such ESG factors may not be realized in the short term. MFS may participate in organisations, initiatives, or other collaborative industry efforts to enhance MFS' knowledge of specific ESG issues or to further ESG-related initiatives that MFS deems materially impactful to its investment decisions. The requirements for participation in these organisations and initiatives vary, and certain organisations, initiatives and efforts may require a commitment from MFS to adopt a framework for achieving the aims of such organisation or initiative. MFS' participation in these organisations or initiatives is subject to its duties to the Trust, and therefore MFS may fail to act or may take actions that are inconsistent with the purpose, goals or aspirations of these organisations or initiatives if, in MFS' judgment, it is in the best interests of the members of the Trust to do so.

#### Trust performance

Up to date information on the performance of the Trust is available by calling MFS Client Services on +612 9228 0400 or by visiting the MFS website at www mfs com

#### Changing the investment strategy

The investment strategy and asset allocation parameters may be changed. If a change is to be made, investors in the Trust will be notified in accordance with the Corporations Act.

#### 6. Fees and costs

#### DID YOU KNOW?

Small differences in both investment performance and fees and costs can have a substantial impact on your long-term

For example, total annual fees and costs of 2% of your investment balance rather than 1% could reduce your final return by up to 20% over a 30-year period (for example, reduce it from \$100,000 to \$80,000).

You should consider whether features such as superior investment performance or the provision of better member services justify higher fees and costs.

You may be able to negotiate to pay lower fees. Ask the Trust or your financial adviser.

#### TO FIND OUT MORE

If you would like to find out more, or see the impact of the fees based on your own circumstances, the **Australian Securities and** Investments Commission (ASIC) Moneysmart website (www.moneysmart.gov.au) has a managed funds fee calculator to

help you check out different fee options.

The information in the following Fees and Costs Summary can be used to compare costs between different simple managed investment schemes. Fees and costs can be paid directly from an investor's account or deducted from investment returns. For information on tax please see Section 7 of this PDS.

#### Additional Explanation of Fees and Costs

#### Management fees and costs

The management fees and costs include amounts payable for administering and operating the Trust, investing the assets of the Trust. expenses and reimbursements in relation to the Trust and indirect costs

Management fees and costs do not include performance fees or transaction costs, which are disclosed separately.

The management fees component of management fees and costs of 0.03% p.a. of the NAV of the Trust is payable to the Responsible Entity of the Trust for managing the assets and overseeing the operations of the Trust. The management fees component is accrued daily and paid from the Trust monthly in arrears and reflected in the daily unit price. As at the date of this PDS, the management fees component covers certain ordinary expenses such as Responsible Entity fees, investment management fees, custodian fees (excluding transaction-based fees such as trading or settlement costs incurred by the custodian), and administration and audit fees.

The indirect costs and other expenses component of 0.77% p.a. of the NAV of the Trust may include other ordinary expenses of operating the Trust, as well as management fees and costs (if any) arising from interposed vehicles in or through which the Trust invests and the costs of investing in over-the-counter derivatives to gain investment exposure to assets or implement the Trust's investment strategy. The indirect costs and other expenses component is variable and reflected in the unit price of the Trust as the relevant fees and costs are incurred. They are borne by investors, but they are not paid to the Responsible Entity or Investment Manager. The indirect costs and other expenses component is based on the relevant costs incurred during the financial year ended 30 June 2024.

Actual indirect costs for the current and future years may differ. If in future there is an increase to indirect costs disclosed in this PDS, updates will be provided on Equity Trustees' website at www.eqt.com.au/insto where they are not otherwise required to be disclosed to investors under law.

In managing the assets of the Trust, the Trust may incur transaction costs such as brokerage, Buy/Sell Spreads in respect of the underlying investments of the Trust, settlement costs, clearing costs and applicable stamp duty when assets are bought and sold, and the costs of over-the-counter derivatives that reflect transaction costs that would arise if the Trust held the ultimate reference assets, as well as the costs of over-the-counter derivatives used for hedging purposes. Transaction costs also include costs incurred by interposed vehicles in which the Trust invests (if any), that would have been transaction costs if they had been incurred by the Trust itself. Transaction costs are an additional cost to the investor where they are not recovered by the Buy/Sell Spread, and are generally incurred when the assets of the Trust are changed in connection with day-to-day trading or when there are applications or withdrawals which cause net cash flows into or out of the Trust.

<sup>&</sup>lt;sup>2</sup> The management fee component of management fees and costs can be negotiated. See "Differential fees" in the "Additional Explanation of Fees and Costs" below.

The Buy/Sell Spread that is disclosed in the Fees and Costs Summary is a reasonable estimate of transaction costs that the Trust will incur when buying or selling assets of the Trust. These costs are an additional cost to the investor but are incorporated into the unit price and arise when investing application monies and funding withdrawals from the Trust and are not separately charged to the investor. The Buy Spread is paid into the Trust as part of an application and the Sell Spread is left in the Trust as part of a redemption and not paid to Equity Trustees or the Investment Manager. The estimated Buy/Sell Spread is 0.15% upon entry and 0.15% upon exit. The dollar value of these costs based on an application or a withdrawal of \$500,000 is \$750 for each individual transaction. The Buy/Sell Spread can be altered by the Responsible Entity at any time and www.mfs.com or www.eqt.com.au/insto will be updated as soon as practicable to reflect any change. The Responsible Entity may also waive the Buy/Sell Spread in part or in full at its discretion. The transaction costs figure in the Fees and Costs Summary is shown net of any amount recovered by the Buy/Sell Spread charged by the Responsible Entity.

Transaction costs generally arise through the day-to-day trading of the Trust's assets and are reflected in the Trust's unit price as an additional cost to the investor, as and when they are incurred.

The gross transaction costs for the Trust are 0.05% p.a. of the NAV of the Trust, which is based on the relevant costs incurred during the financial year ended 30 June 2024.

However, actual transaction costs for future years may differ.

#### Can the fees change?

Yes, all fees can change without investor consent, subject to the maximum fee amounts specified in the Constitution. The current maximum management fee to which Equity Trustees is entitled is 2% of the GAV of the Trust. However, Equity Trustees does not intend to charge that amount and will generally provide investors with at least 30 days' notice of any proposed increase to the management fees component of management fees and costs. In most circumstances, the Constitution defines the maximum level that can be charged for fees described in this PDS. Equity Trustees also has the right to recover all reasonable expenses incurred in relation to the proper performance of its duties in managing the Trust and as such these expenses may increase or decrease accordingly, without notice.

#### Payments to IDPS Operators

Subject to the law, annual payments may be made to some IDPS Operators because they offer the Trust on their investment menus. Product access is paid by the Investment Manager out of its investment management fee and is not an additional cost to the investor.

#### Differential fees

The Investment Manager may from time to time negotiate a different fee arrangement (by way of a rebate or waiver of fees) with certain investors who are Australian Wholesale Clients or New Zealand Wholesale Investors. Please contact the Investment Manager on +612 9228 0400 for further information.

#### Example of annual fees and costs for an investment option

This table gives an example of how the ongoing annual fees and costs in the investment option for this product can affect your investment over a 1-year period. You should use this table to compare this product with other products offered by managed investment schemes.

EXAMPLE – MFS H	ledged Glob <u>al E</u>	quity Trust
		ONTRIBUTION OF \$5,000
Contribution Fees	Nil	For every additional \$5,000 you put in, you will be charged \$0

<b>Plus</b> Performance fees	Not applicable	And, you will be charged or have deducted from your investment \$0 in performance fees each year
<b>Plus</b> Transaction costs	0.00% p.a.	And, you will be charged or have deducted from your investment \$0 in transaction costs
Equals Cost of MFS Hedged Global Equity Trust		If you had an investment of \$550,000 at the beginning of the year and you put in an additional \$5,000 during that year, you would be charged fees and costs of:

\$4 400\*

fees you

What it costs you will

depend on the investment

option you choose and the

This example assumes the \$5,000 contribution occurs at the end of the first year, therefore the fees and costs are calculated using the \$550,000 balance only.

Warning: If you have consulted a financial adviser, you may pay additional fees. You should refer to the Statement of Advice or Financial Services Guide provided by your financial adviser in which details of the fees are set out.

ASIC provides a fee calculator on www.moneysmart.gov.au, which you may use to calculate the effects of fees and costs on account balances.

The indirect costs and other expenses component of management fees and costs and transaction costs may also be based on estimates. As a result, the total fees and costs that you are charged may differ from the figures shown in the table.

#### Further reading

You should read the important information in the Reference Guide about fees and costs under the "Fees and other costs" section before making a decision. Go to the Reference Guide which is available at www.mfs.com or www.eqt.com.au/insto. The material relating to these matters may change between the time when you read this PDS and the day when you acquire the product.

# 7. How managed investment schemes are taxed

Warning: Investing in a registered managed investment scheme (such as the Trust) is likely to have tax consequences. You are strongly advised to seek your own professional tax advice about the applicable Australian tax (including income tax, GST and duty) consequences and, if appropriate, foreign tax consequences which may apply to you based on your particular circumstances before investing in the Trust.

<sup>\*</sup> Additional fees may apply. Please note that this example does not capture all the fees and costs that may apply to you such as the Buy/Sell Spread.

The Trust is an Australian resident for tax purposes and does not generally pay tax on behalf of its investors. Australian resident investors are assessed for tax on any income and capital gains generated by the Trust to which they become presently entitled or, where the Trust has made a choice to be an Attribution Managed Investment Trust ("AMIT") and the choice is effective for the income year, are attributed to them.

#### Further reading

You should read the important information in the Reference Guide about Taxation under the "Other important information" section before making a decision. Go to the Reference Guide which is available at www.mfs.com or www.eqt.com.au/insto. The material relating to these matters may change between the time when you read this PDS and the day when you acquire the product.

# 8. How to apply

To invest please complete the Application Form accompanying this PDS send funds (see details in the Application Form) and your completed Application Form to:

MFS International Australia Pty Ltd, Applications and Withdrawals, C/- Unit Registry, Level 14, 420 George Street, Sydney, NSW 2000.

Please note that cash cannot be accepted and all applications must be made in Australian dollars.

#### Who can invest?

Eligible persons (as detailed in the 'About this PDS' section) can invest, however individual investors must be 18 years of age or over.

Investors investing through an IDPS should use the application form provided by their IDPS Operator.

#### Cooling off period

No cooling off period applies to the offer made in this PDS, as the units offered under this PDS are only available to Wholesale Clients in Australia and Wholesale Investors in New Zealand.

Indirect Investors should seek advice from their IDPS Operator as to whether cooling off rights apply to an investment in the Trust by the IDPS. The right to cool off in relation to the Trust is not directly available to an Indirect Investor. This is because an Indirect Investor does not acquire the rights of a unit holder in the Trust. Rather, an Indirect Investor directs the IDPS Operator to arrange for their monies to be invested in the Trust on their behalf. The terms and conditions of the IDPS Guide or similar type document will govern an Indirect Investor's investment in relation to the Trust and any rights an Indirect Investor may have in this regard.

#### Complaints resolution

Equity Trustees has an established complaints handling process and is committed to properly considering and resolving all complaints. If you have a complaint about your investment, please contact us on:

Phone: 1300 133 472 Post: Equity Trustees Limited GPO Box 2307, Melbourne VIC 3001 Email: compliance@eqt.com.au

We will acknowledge receipt of the complaint within 1 Business Day or as soon as possible after receiving the complaint. We will seek to resolve your complaint as soon as practicable but not more than 30 calendar days after receiving the complaint.

If you are not satisfied with our response to your complaint, you may be able to lodge a complaint with the Australian Financial Complaints Authority ("AFCA").

Contact details are: Online: www.afca.org.au Phone: 1800 931 678 Email: info@afca.org.au

Post: GPO Box 3, Melbourne VIC 3001.

The external dispute resolution body is established to assist you in resolving your complaint where you have been unable to do so with us. However, it's important that you contact us first.

#### 9. Other information

#### Consent

The Investment Manager has given and, as at the date of this PDS, has not withdrawn:

- its written consent to be named in this PDS as the investment manager of the Trust; and
- its written consent to the inclusion of the statements made about it which are specifically attributed to it, in the form and context in which they appear.

The Investment Manager has not otherwise been involved in the preparation of this PDS or caused or otherwise authorised the issue of this PDS. None of the Investment Manager nor their employees or officers accept any responsibility arising in any way for errors or omissions, other than those statements for which they have provided their written consent to Equity Trustees for inclusion in this PDS.

#### Indirect Investors

Equity Trustees authorises the use of this PDS by investors who wish to access the Trust through an IDPS (as that term is defined in the Reference Guide)

# Section 8 — Declarations – ALL investors MUST complete

In most cases the information that you provide in this form will satisfy the AML/CTF Act, the US Foreign Account Tax Compliance Act ('FATCA') and the Common Reporting Standards ('CRS'). However, in some instances the Responsible Entity may contact you to request further information. It may also be necessary for the Responsible Entity to collect information (including sensitive information) about you from third parties in order to meet its obligations under the AML/CTF Act, FATCA and CRS.

When you complete this Application Form you make the following declarations:

- I/We have received the PDS and made this application in Australia (and/or New Zealand for those offers made in New Zealand).
- I/We have read the PDS to which this Application Form applies and agree to be bound by the terms and conditions of the PDS and the Constitution of the relevant Trust in which I/we have chosen to invest.
- I/we have carefully considered the features of Fund/Trust as described in the PDS (including its investment objectives, minimum suggested investment timeframe, risk level, withdrawal arrangements and investor suitability) and, after obtaining any financial and/or tax advice that I/we deemed appropriate, am/are satisfied that my/our proposed investment in the Fund/Trust is consistent with my/our investment objectives, financial circumstances and needs.\*
- I/We have considered our personal circumstances and, where appropriate, obtained investment and/or taxation advice.
- I/We hereby declare that I/we are not a US Person as defined in the PDS.
- I/We acknowledge that (if a natural person) I am/we are 18 years of age or over and I am/we are eligible to hold units in the Trust in which I/We have chosen to invest.
- I/We acknowledge and agree that Equity Trustees has outlined in the PDS provided to me/us how and where I/we can obtain a copy of the Equity Trustees Group Privacy Statement.
- I/We consent to the transfer of any of my/our personal information to
  external third parties including but not limited to fund administrators, fund
  investment manager(s) and related bodies corporate who are located
  outside Australia for the purpose of administering the products and
  services for which I/we have engaged the services of Equity Trustees or
  its related bodies corporate and to foreign government agencies for
  reporting purposes (if necessary).
- I/we hereby confirm that the personal information that I/we have provided to Equity Trustees is correct and current in every detail, and should these details change, I/we shall promptly advise Equity Trustees in writing of the change(s).
- I/We agree to provide further information or personal details to the Responsible Entity if required to meet its obligations under anti-money laundering and counter-terrorism legislation, US tax legislation or reporting legislation and acknowledge that processing of my/our application may be delayed and will be processed at the unit price applicable for the Business Day as at which all required information has been received and verified.
- If I/we have provided an email address, I/we consent to receive ongoing investor information including PDS information, confirmations of transactions and additional information as applicable via email.
- I/We acknowledge that Equity Trustees does not guarantee the repayment of capital or the performance of the Trust or any particular rate of return from the Trust.
- I/We acknowledge that an investment in the Trust is not a deposit with or liability of Equity Trustees and is subject to investment risk including possible delays in repayment and loss of income or capital invested.
- I/We acknowledge that Equity Trustees is not responsible for the delays in receipt of monies caused by the postal service or the investor's bank.

- If I/we lodge a fax application request, I/we acknowledge and agree to release, discharge and agree to indemnify Equity Trustees from and against any and all losses, liabilities, actions, proceedings, account claims and demands arising from any fax application.
- If I/we have completed and lodged the relevant sections on authorised representatives, agents and/or financial advisers on the Application Form then I/we agree to release, discharge and indemnify Equity Trustees from and against any and all losses, liabilities, actions, proceedings, account claims and demands arising from Equity Trustees acting on the instructions of my/our authorised representatives, agents and/or financial advisers.
- If this is a joint application each of us agrees that our investment is held as joint tenants.
- I/We acknowledge and agree that where the Responsible Entity, in its sole discretion, determines that:
  - I/we are ineligible to hold units in a Trust or have provided misleading information in my/our Application Form; or
  - I/we owe any amounts to Equity Trustees, then I/we appoint the Responsible Entity as my/our agent to submit a withdrawal request on my/our behalf in respect of all or part of my/our units, as the case requires, in the Trust.
- For Wholesale Clients I/We acknowledge that I am/we are a Wholesale Client (as defined in Section 761G of the Corporations Act 2001 (Cth)) and are therefore eligible to hold units in the Trust.
- For New Zealand Wholesale Investors I/We acknowledge and agree that:
  - I/We have read the "New Zealand Wholesale Investor Fact Sheet" and PDS or "New Zealand Investors: Selling Restriction" for the Trust
  - I am/We are a Wholesale Investor and am/are therefore eligible to hold units in the Trust; and
  - · I/We have not:
    - Offered, sold, or transferred, and will not offer, sell, or transfer, directly or indirectly, any units in the Trust;
    - Granted, issued, or transferred, and will not grant, issue, or transfer, any interests in or options over, directly or indirectly, any units in the Trust; and
    - Distributed and will not distribute, directly or indirectly, the PDS or any other offering materials or advertisement in relation to any offer of units in the Trust,
    - in each case in New Zealand, other than to a person who is a Wholesale Investor; and
    - I/We will notify Equity Trustees if I/we cease to be a Wholesale Investor; and
    - I/We have separately provided a signed Wholesale Investor Certification.
    - All references to Wholesale Investor in this Declaration are a reference to Wholesale Investor in terms of clause 3(2) of Schedule 1 of the Financial Markets Conduct Act 2013 (New Zealand).

\*Terms and conditions for collection of Tax File Numbers (TFN) and Australian Business Numbers (ABN)

Collection of TFN and ABN information is authorised and its use and disclosure strictly regulated by tax laws and the Privacy Act. Investors must provide an ABN instead of a TFN only when the investment is made in the course of their enterprise. You are not obliged to provide either your TFN or ABN, but if you do not provide either or claim an exemption, we are required to deduct tax from your distribution at the highest marginal tax rate plus Medicare levy to meet Australian taxation law requirements.

For more information about the use of TFNs for investments, contact the enquiries section of your local branch of the ATO. Once provided, your TFN will be applied automatically to any future investments in the Trust where formal application procedures are not required (e.g. distribution reinvestments) unless you indicate, at any time, that you do not wish to quote a TFN for a particular investment. Exempt investors should attach a copy of the certificate of exemption. For super funds or trusts list only the applicable ABN or TFN for the super fund or trust.

When you sign this Application Form you declare that you have read, agree to and make the declarations above.
