1. About Neuberger Berman

Responsible Entity

Neuberger Berman Australia Ltd (“**Neuberger Berman Australia**”, “**we**”, “**us**” or the “**Responsible Entity**”) is:

- the responsible entity of the Neuberger Berman Global Sustainable Equity Fund (the “**Fund**”); and
- the issuer of units in the Fund and this PDS.

Neuberger Berman Australia is a wholly owned subsidiary of Neuberger Berman Group LLC (referred to in this PDS, together with its subsidiaries and affiliates, including Neuberger Berman Australia and the Investment Manager, as “**Neuberger Berman**”).

Founded in 1939, Neuberger Berman is a private, independent, employee-owned global asset management firm with a primary objective: to deliver compelling investment results for its clients over the long term. From offices in 36 cities globally, and with more than 600 investment professionals and over 2,300 employees in total, Neuberger Berman takes an active approach to the management of equity, fixed income, private equity and debt, hedge fund and quantitative strategies, along with the multi-asset class portfolios that bring them together. As of 30 June 2022, institutions, advisors, families and individuals around the world have entrusted Neuberger Berman with US\$418 billion of their assets.

Neuberger Berman has a long-standing belief that material environmental, social and governance (“**ESG**”) factors are an important driver of long-term investment returns from both an opportunity and a risk-mitigation perspective. It integrates ESG considerations across its investment platform and offers a range of solutions to meet investor objectives.

Neuberger Berman Australia’s responsibilities and obligations as the Fund’s responsible entity are governed by the Fund’s constitution (“**Constitution**”), the *Corporations Act 2001* (Cth) (“**Corporations Act**”) and general trust law. It has appointed Neuberger Berman Asset Management Ireland Limited (“**Investment Manager**”) to manage the investments of the Fund. It has also appointed JPMorgan Chase Bank, N.A., Sydney Branch (ABN 43 074 112 011) as the custodian (“**Custodian**”) and the administrator (“**Administrator**”) for the Fund, and Link Fund Solutions Pty Limited (ACN 114 914 215) as the unit registrar (“**Unit Registrar**”) for the Fund.

Investment Manager

The Investment Manager is a private limited liability company, incorporated under the laws of Ireland, which maintains a branch in the Netherlands in which the investment team responsible for managing Neuberger Berman’s Global Sustainable Equity strategy (the “**Investment Team**”) is based.

The industry-leading Investment Team comprises 3 portfolio managers and 4 dedicated research analysts, collectively averaging 19+ years’ experience, and is supported by Neuberger Berman’s:

- Global Equity Research Department, comprising 38 senior research analysts with 19 years’ average experience; and
- ESG Investing Team, comprising 10 full-time professionals.

2. How the Neuberger Berman Global Sustainable Equity Fund works

The Fund is a managed investment scheme governed by the Constitution and is registered (ARSN 641 099 738) with the Australian Securities and Investments Commission (“**ASIC**”).

The registered name of the Fund is “AUT/Neuberger Berman Global Sustainable Equity Fund”. However, for the purposes of this PDS and any material prepared and published for use with investors, the Fund is referred to as “Neuberger Berman Global Sustainable Equity Fund”.

When you invest in the Fund, your investment is pooled with investments from other investors and then used to acquire assets for the Fund to be managed by us in accordance with the Fund’s investment strategy on behalf of all investors. In general, each unit represents a proportional beneficial interest in the assets of the Fund subject to liabilities; however, it does not give investors an interest in any particular asset of the Fund and we retain control over the Fund’s assets, management and operation on your behalf.

Investors

We authorize the use of this PDS as disclosure for both investors investing directly in the Fund (“**Direct Investors**”) and investors accessing the Fund

indirectly (“**Indirect Investors**”) through an investor directed portfolio service, IDPS-like scheme (commonly known as a master trust or wrap account), a nominee or custody service or any other trading platform authorized by the Responsible Entity (collectively referred to in this PDS as an “**IDPS**”).

A Direct Investor receives units in the Fund when he/she invests and becomes a unitholder in the Fund.

An Indirect Investor does not become a unitholder in the Fund. The operator or custodian of the IDPS (“**IDPS Operator**”) will be the unitholder entered in the Fund’s register and will be the only person who is able to exercise the rights and receive the benefits of a unitholder. Please direct any queries and requests relating to your investment to your IDPS Operator.

“You” or “your” refers to Direct Investors (including IDPS Operators) and/or Indirect Investors in the Fund, as the context requires.

Investments and withdrawals

Direct Investors

You can acquire units in the Fund by completing the Application Form that accompanies this PDS. The minimum initial investment amount for the Fund is \$25,000.

Your completed and signed Application Form should be sent along with your customer identity verification documents (if applicable) to:

We reserve the right to accept or reject applications in whole or in part at our discretion. We have the discretion to delay processing applications where we believe this to be in the best interest of the Fund’s investors. The price at which units are acquired is determined in accordance with the Constitution (“**Application Price**”). The Application Price on a Business Day is, in general terms, equal to the Net Asset Value (“**NAV**”) of the Fund, divided by the number of units on issue and adjusted for transaction costs (“**Buy Spread**”). At the date of this PDS, the Buy Spread is 0.10%. The Application Price will vary as the market value of assets in the Fund rises or falls.

Making additional investments

You can make additional investments into the Fund at any time by sending your additional investment amount together with a completed Application Form to:

Neuberger Berman Australia Ltd
C/- LINK Market Services Limited
Locked Bag 5038
Parramatta NSW 2124

The minimum additional investment into the Fund is \$1,000.

You can generally withdraw all or part of your investment in the Fund at any time by completing a written request to withdraw from the Fund and mailing it to:

Neuberger Berman Australia Ltd

Locked Bag 5038
Parramatta NSW 2124

The minimum withdrawal amount is \$1,000. Once we receive and accept your withdrawal request, we may act on your instruction without further enquiry if the instruction bears your account number or investor details and your (apparent) signature(s), or your authorised signatory’s (apparent) signature(s).

We will generally remit your withdrawal proceeds to your nominated bank account in Australia within 7 Business Days of acceptance of a withdrawal request. However, we are allowed to reject withdrawal requests, and also to make payment up to 30 Business Days after acceptance of a request (which may be extended in certain circumstances), as outlined in the Constitution and Reference Guide.

The price at which units are withdrawn is determined in accordance with the Constitution (“**Withdrawal Price**”). The Withdrawal Price on a Business Day is, in general terms, equal to the NAV of the Fund, divided by the number of units on issue and adjusted for transaction costs (“**Sell Spread**”). At the date of this PDS, the Sell Spread is 0.10%. The Withdrawal Price will vary as the market value of assets in the Fund rises or falls.

We reserve the right to accept or reject withdrawal requests in whole or in part at our discretion. We also reserve the right to redeem your investment fully if your investment balance in the Fund falls below \$25,000 as a result of processing your withdrawal request.

In certain circumstances, for example, when there is a freeze on withdrawals; where accepting a withdrawal is not in the best interests of investors in the Fund, including due to one or more circumstances outside its control; or, where the Fund is not liquid (as defined in the Corporations Act), we can deny or suspend a withdrawal request and you may not be able to withdraw your funds in the usual processing times or at all. When the Fund is not liquid, an investor can only withdraw when we make a withdrawal offer to investors in accordance with the Corporations Act. We are not obliged to make such offers.

Indirect Investors

You can invest in or withdraw from the Fund by directing your IDPS Operator to lodge an investment application or withdrawal request, as applicable, with us. Please refer to your IDPS Operator for the details and terms of that IDPS relating to, among other things, investments and withdrawals.

Distributions

An investor's share of any distributable income is calculated in accordance with the Constitution and is generally based on the number of units held by the investor at the end of the distribution period.

The Fund usually distributes income annually at the end of June, however, we may change the distribution frequency without notice. Distributions are calculated effective the last day of each distribution period and are normally paid to investors as soon as practicable after the distribution calculation date.

Direct Investors

You can choose to have your distributions:

- reinvested in the Fund; or
- directly credited to your nominated bank account in Australia.

If you do not indicate a preference or if we are unable to credit to your nominated bank account, your distributions will be automatically reinvested in the Fund. Applications for reinvestment will be taken to be received immediately prior to the next Business Day after the relevant distribution period. There is no Buy Spread on distributions that are reinvested. In some circumstances, the Constitution may allow for an investor's withdrawal proceeds to be taken to include a component of distributable income.

Indirect Investors

You should review your IDPS Guide for information on how and when they receive any income distribution.

Value of your investment

When you invest, you will be allotted units in the Fund. The value of your investment in the Fund will vary as the Fund's daily unit price changes to reflect increases or decreases in the market value of the Fund's assets.

Additional information

If and when the Fund has 100 or more direct investors, it will be classified by the Corporations Act as a 'disclosing entity'. As a disclosing entity, the Fund will be subject to regular reporting and disclosure obligations. You will then have a right to obtain a copy, free of charge, of any of the following documents:

- the most recent annual financial report lodged with ASIC ("Annual Report");
- any subsequent half yearly financial report lodged with ASIC after the lodgment of the Annual Report; and
- any continuous disclosure notices lodged with ASIC after the Annual Report but before the date of this PDS.

We will comply with any continuous disclosure obligation by lodging documents with ASIC as and when required. Copies of these documents lodged with ASIC in relation to the Fund may be obtained from ASIC through ASIC's website.

3. Benefits of investing in the Neuberger Berman Global Sustainable Equity Fund

The Fund is a long only, actively managed, concentrated, but diversified portfolio of global equity holdings that contribute to both environmental and social objectives. In pursuing the Fund's sustainable investment objective, the Investment Team takes appropriate measures to ensure that (i) the Fund's investments do not significantly harm any of the environmental objectives; and (ii) that companies in which the Fund invests follow good governance practices.

An investment in the Fund offers a range of benefits, including:

- **Sustainability / ESG Leadership**
 - Early adopter of ESG investing, with an innovative approach honed over 17 years

4. Risks of managed investment schemes

All investments carry risks. Different investment strategies may carry different levels of risk, depending on the assets acquired under the strategy. Assets with the highest long-term returns may also carry the highest level of short-term risk. The significant risks below should be considered in light of your risk profile when deciding whether to invest in the Fund. Your risk profile will vary depending on a range of factors, including your age, the investment time frame (how long you wish to invest for), your other investments or assets and your risk tolerance.

The Responsible Entity does not guarantee the liquidity of the Fund's investments, repayment of capital or any rate of return or the Fund's investment performance. The value of the Fund's investments will vary. Returns are not guaranteed and you may lose money by investing in the Fund. The level of returns will vary and future returns may differ from past returns. Laws affecting managed investment schemes may change in the future. The structure and administration of the Fund is also subject to change.

In addition, we do not offer advice that takes into account your personal financial situation, including advice about whether the Fund is suitable for your circumstances. If you require personal financial or taxation advice, you should contact a licensed financial adviser and/or taxation adviser.

Sustainable investment style risk

The Fund's application of ESG criteria is designed and utilised to help identify companies that demonstrate the potential to create economic value or reduce risk; however, as with the use of any investment criteria in selecting a portfolio, there is no guarantee that the criteria used by the Fund will result in the selection of issuers or securities that will outperform other issuers or securities, or help to reduce risk in the Fund. The implementation of the Fund's ESG criteria could also affect the Fund's exposure to certain sectors or industries, and could impact the

Fund's investment performance depending on whether the ESG criteria applied are ultimately reflected in the market.

Information used to evaluate the Fund's application of ESG factors, like other factors used to identify companies in which to invest, may not be readily available, complete, or accurate, which could negatively impact the Fund's performance or create additional risk in the Fund.

Market risk

The market price of investments may go up or down, sometimes rapidly or unpredictably. Assets may decline in value due to factors affecting markets generally or particular industries represented in the markets. The value of an investment may decline due to general market conditions which are not specifically related to a particular company, such as real or perceived adverse economic conditions, supply and demand for particular securities or instruments, changes in the general outlook for corporate earnings, changes in interest or currency rates or adverse investor sentiment generally. They may also decline due to factors which affect a particular industry or industries, such as labour shortages or increased production costs and competitive conditions within an industry. During a general market downturn, multiple asset classes may decline in value simultaneously.

Further, changes in tax, legal and economic policy, political events and technology failure can all directly or indirectly create an environment that may influence the value of the investments of the Fund, and your investment in them.

International investing risk

The Fund will hold investments in global securities. Certain countries may impose restrictions on the ability of locally domiciled companies to make payments of principal, dividends or interest to investors located outside the country, due to blockage of foreign currency exchanges or otherwise. Generally, there may be less publicly available information about foreign companies due to less rigorous disclosure or accounting standards and regulatory practices. In addition, the Fund could be subject to risks associated with adverse political and economic developments in certain countries, which could cause the Fund to lose money on these investments.

Emerging markets risk

Emerging markets are markets in certain countries which may not be as developed, efficient or liquid as Australian markets. Therefore, the value of securities in these markets may often be more volatile. Emerging markets risk is also caused by exposure to economic structures that are less diverse and mature, and to political systems that are less stable, than those of developed countries. In addition, issuers in emerging markets may experience a greater degree of change in earnings and business prospects than would companies in developed markets.

Currency risk

The Fund may invest in securities denominated in currencies other than AUD. If these currencies change in value relative to the Australian dollar, the value of the investment can change. The Responsible Entity will not typically hedge currency risk to AUD.

Security specific risk

There may be instances where a security will fall in price because of security specific factors (for example, where a company's major product is subject to a product recall). The value of investments can vary because of changes to management, product distribution or the company's business environment.

Liquidity risk

There may be times when there may be a limited secondary market for the securities in which the Fund may invest and that may affect the ability of the Fund to realise investments or to meet withdrawal requests (for example, in a falling market where companies may become less liquid). Small-capitalisation companies tend to be less liquid than larger capitalisation companies. The Responsible Entity attempts to mitigate the liquidity risk factor by generally investing in securities that are believed to offer sufficient liquidity.

Derivatives risk

Derivative market values can fluctuate significantly and, as a result, potential gains and losses can be magnified. Losses can occur where the value of the derivative fails to move in line with the underlying asset or where a greater exposure to a market is created through the derivative position that is backed by the assets of the Fund. Other risks applying to derivatives include counterparty risk and liquidity risk, or where the derivative position is difficult or costly to reverse.

A counterparty may also be required to take collateral from the Fund's assets to support a derivatives contract. Therefore, there is a risk that if the counterparty becomes insolvent, the Fund's assets may not be returned in full.

Counterparty risk

A loss may occur if the other party (counterparty) to a contract, including derivatives contracts, fails to meet its obligations under the contract.

Counterparty risk arises primarily from "over-the-counter" transactions involving derivatives.

Fund risk

Risks particular to the Fund include that it could terminate, the fees and expenses could change, the Responsible Entity could be replaced and the Investment Manager could change. There is also a risk that investing in the Fund may give different results than investing directly in the underlying assets of the Fund themselves because of income or capital gains accrued in the Fund and the consequences of investment and withdrawal by other investors.

Investment Manager risk

The Investment Manager may not achieve the Fund's stated investment objectives and/or it make investment decisions that result in under performance. Many factors can negatively impact an investment manager's ability to generate acceptable returns, including for example, loss of key staff.

Regulatory risk

This is the risk that domestic or international laws or regulations are changed adversely or that regulatory supervision of transactions and reporting is performed by Neuberger Berman at less than an appropriate standard. The Responsible Entity aims to manage this risk by regularly and closely reviewing changes in the regulatory environment.

Pandemic and other unforeseen event risk

Health crises, such as pandemic and epidemic diseases, as well as other catastrophes that interrupt the expected course of events, such as natural disasters, war or civil disturbance, acts of terrorism, power outages and other unforeseeable and external events, and the public response to or fear of such diseases or events, have and may in the future have an adverse effect on the economies and financial markets either in specific countries or worldwide and consequently on the value of the Fund's investments. Further, under such circumstances the operations, including functions such as trading and valuation, of Neuberger Berman and other service providers could be reduced, delayed, suspended or otherwise disrupted.

5. How we invest your money

Warning: When choosing to invest in the Fund, you should consider the likely investment returns, the risks of investing and your investment time frame.

Investment objective

The Neuberger Berman Global Sustainable Equity Fund aims to achieve a minimum excess annualised return of 2% over the Benchmark before fees over a 3-5 year investment horizon.

Benchmark

MSCI World Net Total Return Index (AUD) (before fees and taxes)

Minimum suggested time frame

The minimum suggested investment time frame for the Fund is 5 years.

Risk level

SRM¹ Risk band 6 – High

(¹Please refer to the *Standard Risk Measure* description under the "Other important information" section of the **Reference Guide**.)

Investor suitability

This Fund is likely to be appropriate for an investor seeking capital growth; and where the investor has a minimum 5 year investment horizon, is higher risk in nature and can accept higher potential losses (e.g. has the ability to bear up to 6 negative returns over a 20 year period (SRM 6)) in order to target a higher target return profile.

Investment approach, philosophy and process

The Investment Manager's high conviction investment approach will focus on corporate quality, as reflected in the economic business models as well as the material ESG merits of each holding in the Fund.

Its investment philosophy centres around the belief that 'quality' companies provide superior risk-return characteristics. Sustainability is a key driver of

corporate quality as companies with a strong management of ESG factors will likely show better long-term investment returns from both an opportunity and a risk perspective. Companies that 'do no harm' to society, as reflected in activities and behaviour, adapt to change and focus on continuous improvement, are highly likely to hold on to their durable competitive position and will remain future winners. As a result, the Investment Team prefers companies that demonstrate a commitment to sustainability in their behaviour, operations, products, and services.

In seeking to achieve the Fund's investment objective, the Investment Manager will employ an investment process which focuses on in-depth, bottom-up, fundamental research with the aim of identifying high quality companies, which (i) provide attractive sustainable products or services, (ii) demonstrate a commitment to sustainability in their operations, and (iii) are economically competitive, i.e. companies with resilient business models, are capable of maintaining high returns on invested capital and demonstrate durable growth. The process includes a financial screening, a sustainability screening and a materially focused fundamental bottom-up financial/ESG analysis.

Asset allocation

The Fund will adhere to the following asset allocation ranges:

- Equities: 90 – 100%
- Cash: 0 – 10%

If at any stage the actual asset allocation of the Fund varies from these limits it will be brought back within these ranges as soon as practical.

The Fund will invest primarily in equity and equity-linked securities issued by companies in any sector globally (including: common and preferred shares, rights and warrants to purchase common shares, convertible bonds convertible preferred shares and American, European and Global Depositary Receipts), which are listed or traded on various global exchanges and markets. The Fund will be managed subject to the following restrictions:

- Maximum deviation to a country relative to the Benchmark will not exceed 15% of the Fund's NAV.
- Maximum exposure to emerging markets will not exceed 10% of the Fund's NAV.
- The Fund will not utilize securities lending, repurchase and reverse repurchase agreements or margin lending, and will not engage in short selling.

In actively managing the Fund, the Investment Manager does not intend to track the Benchmark. The Benchmark is referenced above for performance comparison purposes and because certain of the Fund's investment guidelines restrict the extent to which the Fund's holdings may deviate from the Benchmark.

Derivatives

The Investment Manager may use derivatives to manage foreign exchange or interest rate risk, and may, subject to specific restrictions, use exchanged-traded derivatives for efficient portfolio management purposes. For further details please refer to *Use of Derivatives* under the "Other important information" section of the Reference Guide.

Changing the investment strategy

The investment strategy and asset allocation parameters may be changed. If a change is to be made, investors in the Fund will be notified in accordance with the Corporations Act.

Labour standards, Environmental, Social and Governance (ESG) and Sustainable considerations

The Investment Manager will invest the Fund primarily in equity securities issued by companies whose behaviours, processes and operations contribute to system-level progress towards environmental and social objectives. The Investment Team takes account of labour standards and has a particular focus on ESG considerations (as described above), in the selection, retention or realisation of investments relating to the Fund.

The Investment Manager (i) excludes securities issued by companies that are involved in controversial activities and behaviour and those which rated worst in terms of its ESG assessment from the investment universe, such that at least 20% of the investment universe is excluded on these bases; and (ii) ensures at least 90% ESG coverage rate of the NAV of the Fund. Companies will then be selected based on either their positive contribution to environmental and social outcomes through their operations, practices and behaviour, or through their products and services. This allows the Fund to drive strong, continually improving performance on material environmental and social factors which contribute to a more sustainable world. Further details of the ESG screening applied in respect

of the Fund are set out under *Sustainable and ESG Investment Criteria* in the "Other important information" section of the Reference Guide (available at <https://www.nb.com/NBFunds-AU>).

Fund performance

Up to date information on the performance of the Fund will be available by calling us on +61 3 9649 0910. A free paper copy of the information will also be available on request.

6. Fees and costs

DID YOU KNOW?

Small differences in both investment performance and fees and costs

For example, total annual fees and costs of 2% of your investment balance rather than 1% could reduce your final return by up to 20% over a 30-year period (for example, reduce it from \$100,000 to \$80,000).

You should consider whether features such as superior investment performance or the provision of better member services justify higher fees and costs.

You may be able to negotiate to pay lower fees. Ask the fund or your financial adviser.

TO FIND OUT MORE

If you would like to find out more, or see the impact of the fees based on your own circumstances, the Australian Securities and Investments Commission (ASIC) Moneysmart website (www.moneysmart.gov.au) has a managed funds fee calculator to help you check out different fee options.

The information in the following Fees and Costs Summary can be used to compare costs between different simple managed investment schemes. Fees and costs can be paid directly from your account or deducted from investment returns or from the assets of the Fund as a whole. For information on tax please see Section 7 of this PDS.

The management fees component of management fees and costs of 0.50% p.a. of the NAV of the Class is payable to the Responsible Entity of the Fund for managing the assets and overseeing the operations of the Fund. The management fees component is accrued daily and paid from the Class monthly in arrears and reflected in the unit price. As at the date of this PDS, the management fees component covers certain ordinary expenses such as Responsible Entity fees, investment management fees, custodian fees, and administration and audit fees.

The indirect costs and other expenses component of 0% p.a. of the NAV of the Class may include other ordinary expenses of operating the Fund, as well as management fees and costs (if any) arising from interposed vehicles in or through which the Fund invests. The indirect costs and other expenses component is variable and reflected in the unit price of the Class as the relevant fees and costs are incurred. They are borne by investors, but they are not paid to the Responsible Entity or Investment Manager. The indirect costs and other expenses component is based on the relevant costs incurred during the financial year ended 30 June 2022.

Actual indirect costs for the current and future years may differ. If in future there is an increase to indirect costs disclosed in this PDS, updates will be provided on Neuberger Berman's website at <https://www.nb.com/NBFunds-AU> where they are not otherwise required to be disclosed to investors under law.

Transaction costs

In managing the assets of the Fund, the Fund may incur transaction costs such as brokerage, buy-sell spreads in respect of the underlying investments of the Fund, settlement costs, clearing costs and applicable stamp duty when assets are bought and sold. Transaction costs also include costs incurred by interposed vehicles in which the Fund invests (if any), that would have been transaction costs if they had been incurred by the Fund itself. Transaction costs are an additional cost to the investor where they are not recovered by the Buy/Sell Spread, and are generally incurred when the assets of the Fund are changed in connection with day-to-day trading or when there are applications or withdrawals which cause net cash flows into or out of the Fund.

The Buy/Sell Spread that is disclosed in the Fees and Costs Summary is a reasonable estimate of transaction costs that the Class will incur when buying or selling assets of the Class. These costs are an additional cost to the investor but are incorporated into the unit price and arise when investing application monies and funding withdrawals from the Class and are not separately charged to the investor. The Buy Spread is paid into the Class as part of an application and the Sell Spread is left in the Class as part of a redemption and not paid to Neuberger Berman Australia or the Investment Manager. The estimated Buy/Sell Spread is 0.10% upon entry and 0.10% upon exit. The dollar value of these costs based on an application or a withdrawal of \$25,000 is \$25 for each individual transaction. The Buy/Sell Spread can be altered by the Responsible Entity at any time and <https://www.nb.com/NBFunds-AU> will be updated as soon as practicable to reflect any change. The Responsible Entity may also waive the Buy/Sell Spread in part or in full at its discretion. The transaction costs figure in the Fees and Costs Summary is shown net of any amount recovered by the Buy/Sell Spread charged by the Responsible Entity.

Transaction costs generally arise through the day-to-day trading of the Class's assets and are reflected in the Class's unit price as an additional cost to the investor, as and when they are incurred.

The gross transaction costs for the Class are 0.16% p.a. of the NAV of the Class, which is based on the relevant costs incurred during the financial year ended 30 June 2022.

However, actual transaction costs for future years may differ.

Can the fees change?

Yes, all fees can change without investor consent, subject to the maximum fee amounts specified in the Constitution. The current maximum management fee to which Neuberger Berman Australia is entitled is 2.00% of the NAV of the Class. However, Neuberger Berman Australia does not intend to charge that amount and will generally provide investors with at least 30 days' notice of any proposed increase to the management fees component of management fees and costs. In most circumstances, the Constitution defines the maximum level that can be

charged for fees described in this PDS. Neuberger Berman Australia also has the right to recover all reasonable expenses incurred in relation to the proper performance of its duties in managing the Fund and as such these expenses may increase or decrease accordingly, without notice.

Payments to IDPS Operators

Subject to the law, annual payments may be made to some IDPS Operators because they offer the Fund on their investment menus. Product access is paid by the Investment Manager out of its investment management fee and is not an additional cost to the investor.

Differential fees

The Investment Manager may from time to time negotiate a different fee arrangement (by way of a rebate or waiver of fees) with certain investors who are Australian Wholesale Clients. Please contact the Investment Manager on +61 3 9649 0910 for further information.

Example of annual fees and costs for an investment option

This table gives an example of how the ongoing annual fees and costs in the investment option for this product can affect your investment over a 1-year period. You should use this table to compare this product with other products offered by managed investment schemes.

EXAMPLE – Neuberger Berman Global Sustainable Equity Fund Class N

BALANCE OF \$50,000 WITH A CONTRIBUTION OF \$5,000 DURING THE YEAR

Contribution Fees	Nil	For every additional \$5,000 you put in, you will be charged \$0
Plus Management fees and costs	0.50 % p.a.	And, for every \$50,000 you have in the Neuberger Berman Global Sustainable Equity Fund - Class N you will be charged or have deducted from your investment \$250 each year
Plus Performance fees	Not applicable	And, you will be charged or have deducted from your investment \$0 in performance fees each year
Plus Transaction costs	0.06% p.a.	And, you will be charged or have deducted from your investment \$30 in transaction costs
Equals Cost of Neuberger Berman Global Sustainable Equity Fund - Class N	0.56% p.a.	If you had an investment of \$50,000 at the beginning of the year and you put in an additional \$5,000 during that year, you would be charged fees and costs of: \$280* What it costs you will depend on the investment option you choose and the fees you negotiate.

* Additional fees may apply. Please note that this example does not capture all the fees and costs that may apply to you such as the Buy/Sell Spread.

This example assumes the \$5,000 contribution occurs at the end of the first year, therefore the fees and costs are calculated using the \$50,000 balance only.

Warning: If you have consulted a financial adviser, you may pay additional fees. You should refer to the Statement of Advice or Financial Services Guide provided by your financial adviser in which details of the fees are set out.

ASIC provides a fee calculator on www.moneysmart.gov.au, which you may use to calculate the effects of fees and costs on account balances.

The indirect costs and other expenses component of management fees and costs and transaction costs may also be based on estimates. As a result, the total fees and costs that you are charged may differ from the figures shown in the table.

Further reading

You should read the important information in the Reference Guide (available at <https://www.nb.com/NBFunds-AU>) about fees and costs, including: Management costs of the Fund, Management Fee, Indirect Costs, Transactional and operational costs, Payment to IDPS Operators and Differential Fees, under the "Additional Explanation of Fees and Costs" section before making a decision.

7. How managed investment schemes are taxed

Warning: Investing in a registered managed investment scheme (such as the Fund) is likely to have tax consequences. You are strongly advised to seek your own professional tax advice about the applicable Australian tax (including income tax, GST and duty) consequences and, if appropriate, foreign tax consequences which may apply to you based on your particular circumstances before investing in the Fund.

The Fund is an Australian resident for tax purposes and does not generally pay tax on behalf of its investors. Australian resident investors are assessed for tax on any income and capital gains generated by the Fund to which they become presently entitled or, where the Fund has made a choice to be an Attribution Managed Investment Trust ("AMIT") and the choice is effective for the income year, are attributed to them.

You should read the important information in the Reference Guide (available at <https://www.nb.com/NBFunds-AU>) about Taxation under the "Other important information" section before making a decision.
