(Oracle or Investment Manager)

Important information

This Product Disclosure Statement (**PDS**) is dated 18 July 2022 and is issued by One Managed Investment Funds Limited ACN 117 400 987 Australian financial services (**AFS**) licensee 297042 (**Responsible Entity, we or us**), which is the responsible entity of the Oracle Fixed Interest Fund ARSN 650 401 004 (**Fund**). This PDS is a summary of significant information and contains a number of references to other important information which also forms part of this PDS and is included in the Additional Information Booklet dated 18 July 2022. The Additional Information Booklet can be found on the Fund's website or you can contact us or the Investment Manager for a copy. You should consider this other important information before making any decision.

You should also consider the Target Market Determination (**TMD**) for the Fund before making an investment decision. The TMD includes a description of who the Fund is likely to be appropriate for. A copy of the TMD is available on the Fund's Website.

The Responsible Entity has appointed Oracle Investment Management Pty Ltd ABN 15 149 971 808 AFS licence: 430574 (**Oracle, Investment Manager**) as the investment manager of the Fund.

We have prepared this PDS without taking account of your investment objectives, financial situation or needs.

This PDS does not contain investment, legal or tax advice. You should obtain professional advice tailored to your own circumstances before investing. The PDS (including an electronic version) does not constitute an offer of interests in any jurisdiction other than Australia and the offer under the PDS may only be accepted in Australia. Applications from outside Australia will not be accepted through the PDS. We do not guarantee the performance of the Fund, the repayment of capital or any income or capital return; and nor does the Investment Manager or any of our respective directors, associates or advisors.

Updated information

Information in this PDS is subject to change from time to time and may be updated by us if it is not materially adverse to investors. Please check the website or call your financial adviser or the Responsible Entity for any updated information before investing. You may contact us to obtain a paper copy of any updates, free of charge.

Indirect investment

We authorise the use of this PDS as disclosure to indirect investors who access the Fund through an Investor Directed Portfolio Service (IDPS) or IDPS-like scheme (known commonly as a master trust or wrap account or nominee or custody service) (**Investment Service**) and those investors may rely on this PDS.

Contact Details

If you have any questions or would like a copy of the PDS, Additional Information Booklet or any updates or other information about the Fund, please contact us on:

1. About the Responsible Entity and the Investment Manager

1.1 The Responsible Entity

One Managed Investment Funds Limited has extensive experience as a professional trustee.

One Managed Investment Funds Limited is a member of the One Investment Group (**OIG**). OIG is an independent Australian funds management business that focuses on providing responsible entity, trustee and other services associated with funds management. OIG operates a number of entities that, pursuant to the Corporations Act, are licensed to conduct financial services businesses and to act as responsible entities for registered schemes and as trustees for unregistered schemes.

OIG is responsible for in excess of 300 funds and \$35 billion across a wide range of underlying asset classes, including fixed income, infrastructure, real estate, equities, private equity and fund of funds. OIG's clients include global and Australian listed companies, sovereign wealth funds, banks, insurance companies, pension funds, private equity firms and boutique managers.

One Managed Investment Funds Limited is the holder of AFS licence number 297042.

1.2 The Investment Manager

Oracle Investment Management Pty Ltd is a boutique investment manager that provides innovative investment solutions for individuals, families and superannuation funds that are seeking to build their wealth.

Oracle specialises in the active management of equity and fixed income portfolios. Oracle follows an active, high-conviction investing philosophy, combined with a bottom-up growth investment process. The Oracle team applies growth, quality, and valuation tests to companies, while positioning their investment style towards quality businesses that display sound growth opportunities.

Oracle focuses on the long-term prospects of a business, rather than the day to day gyrations that occur in the market on a regular basis. Its experienced investment team have developed a proprietary approach to scouring the markets for the best investment opportunities, with the aim of providing investors with attractive investment returns.

Oracle was established in 2012. It has been managing model portfolios since January 2014 and has in excess of \$650 million of funds under management. Peter Durbin, the Managing Director of Oracle, has been managing clients' investments since 1986.

2. How the Oracle Fixed Interest Fund works

The Fund is a managed investment scheme which is registered with the Australian Securities & Investments Commission (ASIC). It is structured as a unit trust.

Managed investment schemes enable investors to pool their money with that of other investors and this pooled money is then managed by investment professionals.

2.1 Direct Investors

If you invest directly in the Fund (rather than through an Investment Service) (**Direct Investor**), then as an investor in the Fund (**Investor**), you will have a beneficial interest in the assets of the Fund, calculated as the proportion your unit holding bears to all of the units which have been issued. You do not, however, have a right to demand any particular assets of the Fund be transferred to you.

2.2 Indirect Investors

People who invest in the Fund through an Investment Service (such as a master trust or wrap account) do not become Direct Investors. The operator or custodian of the Investment Service is recorded as the Investor in the Fund and is the person who exercises the rights and receives the benefits as an Investor.

2.3 Unit prices

The unit price is the price at which units in the Fund are issued and redeemed (and before the impact of any buy/sell spread, if applicable). Unit pricing will be undertaken on a daily basis (each Sydney business day) and will be determined by dividing the net asset value of the Fund by the number of units on issue. Therefore, the unit price will vary as the value of the Fund's assets and liabilities varies. The calculation of the unit price is governed by a unit pricing policy, which is available to Investors from us upon request.

The net asset value of the Fund is the value of the Fund's assets less the liabilities of the Fund at the time it is calculated. The application price of units will be the net asset value per unit, plus any buy spread, while the withdrawal price of units will be the net asset value per unit, minus any sell spread.

The buy/sell spread is an estimate of the costs of buying and selling the underlying assets in the Fund. It is expected that normally, the Fund's buy/sell spread will only be nominal.

The price for units issued as a result of any reinvestment of distributions will be the current unit price on the day the distribution is applied in payment for the units. If you are investing indirectly through an Investment Service, then you should note that some Investment Services do not offer the ability to reinvest distributions.

2.4 Making investments

Direct Investors

To invest in the Fund, you will need to complete an application form (see Section 8 'How to apply' for more information). Applications will need to be assessed by the unit registry as being complete by 2pm Sydney time on a business day to be batched and processed on that day.

Indirect Investors

You will be able to invest in the Fund by asking your Investment Service operator to lodge an application. Please contact your Investment Service operator for details and instructions.

2.5 Increasing your investment

Direct Investors

You can increase your investment in the Fund by completing an additional application form available from our website or by contacting us.

Additional investments will be processed following receipt of application funds and a correctly completed additional application form. If the additional application is received by 2pm Sydney time on a business day, it will be batched and processed on that day.

Indirect Investors

Indirect Investors should contact their Investment Service operator to find out how to increase their investment.

2.6 Minimum investment

The following minimum investment amounts apply*:

	Minimum Investment (\$)	Minimum additional investment (\$)
Ordinary units in Fund	\$5,000	\$1,000

*The Responsible Entity reserves the right to accept lower minimum investment amounts in its absolute discretion.

We may decline to extend, or may withdraw, an invitation to invest in the Fund at any time. Neither the Responsible Entity nor the Investment Manager nor any other person accepts any liability to any recipient of this PDS for costs incurred or losses suffered if an invitation is withdrawn for any reason or if an application is refused in whole or in part. The Responsible Entity reserves the right to accept or reject any applications in its absolute discretion. The number of units issued to you when you make an investment will be calculated by dividing the amount you invest by the applicable application price.

2.7 Withdrawals

Normally, you can request to withdraw all or part of your investment at any time. The withdrawal price of units will be the net asset value per unit minus any sell spread. Withdrawal requests will need to be submitted to the unit registry by 2pm Sydney time on a business day to receive the price for that day. Withdrawals will normally be paid within 5 business days of when your request is accepted by the Responsible Entity. The time taken to process redemptions received on the last business day of a month may be longer than 5 business days.

Direct Investors can request a withdrawal by completing a withdrawal request form and submitting the form to us. Withdrawal request forms are available at www.oneinvestment.com.au/oracle.

Indirect Investors should contact their Investment Service operator for details on how to request a withdrawal.

Note – In certain circumstances, such as a freeze on withdrawals or where the Fund is illiquid, you may not be able to withdraw your investment in the usual manner.

2.8 Minimum withdrawal

The minimum withdrawal amount is \$1,000. However, should your request for a withdrawal result in your account balance falling below \$1,000, we reserve the right to redeem your balance in the Fund in full and have it paid to you, less any applicable fees.

2.9 Income distributions

A unit entitles the Investor to participate in any income generated from the assets of the Fund.

Income distributions are expected to be paid monthly, generally within 10 business days after the end of the month and generally within two months after 30 June. Distributions are not guaranteed.

Distributions may be reinvested into the Fund, to receive additional units in the Fund. Direct Investors can elect to reinvest their distributions in section 5 of the application form.

However, some Investment Services do not offer the ability to reinvest distributions. Therefore, if you are an Indirect Investor, you should refer to your Investment Service operator for details of distribution payment options which apply to you.

3. Benefits of investing in the Fund

3.1 Significant features

The Fund provides investors with exposure to selected credit (income) securities, with the aim of providing a stable income stream, and some moderate capital growth.

Investment return objective

The portfolio aims to outperform the Bloomberg AusBond Credit 0+ Yr Index on an annual basis.

This investment objective is a target only. It is not a forecast and is not guaranteed. The actual returns from the Fund may rise or fall.

Key features*

Minimum initial investment	\$5,000
Minimum additional investment	\$1,000
Minimum withdrawal amount	\$1,000
Minimum balance	\$1,000
Withdrawals	Normally, daily**
Distributions	Normally, monthly**
Distribution reinvestment	Reinvestment option is available
Establishment or withdrawal fees	None

Total ongoing management fees and expenses	0.70%*** of gross assets per annum (inclusive of GST net of reduced input tax credits (RITC))
Reporting	Quarterly updates. Audited financial statements.

*Indirect Investors should refer to their Investment Service operator for details of the features available through their Investment Service. For example, some Investment Services do not offer the ability to reinvest distributions.

**Ability to withdraw at any particular time is not promised nor guaranteed; and distributions are not promised nor guaranteed.

***Based on the Fund having a gross asset value of \$100 million.

3.2 Significant benefits

Investing in the Fund offers a number of benefits, including:

- Professional Management – access to an experienced investment management team with a track record in managing interest bearing securities.
- Diversification – access to investment opportunities via a portfolio which is intended to, over time, be diversified, including interest bearing and fixed interest investments, which individual investors would not typically have access to.
- Access to an investment approach which is designed to produce positive returns in both a rising and declining interest rate environment.
- Potential for some capital growth and an attractive income return.

4. Risks of managed investment schemes

All investments carry risk. Generally, the higher the level of risk you are prepared to accept, the higher potential returns or losses. Different strategies may carry different levels of risk, depending on the assets that make up the strategy. Assets with the highest long-term returns may also carry the highest level of short-term risk. Growth assets, such as shares and property, are generally considered the most volatile assets, as they are likely to experience greater fluctuations in value than defensive assets, such as fixed income and cash.

When considering investing in any managed investment scheme, it is important to understand that:

- The value of your investment will go up and down.
- Returns are not guaranteed and the level of return will vary.
- You may lose some or all of your money.
- Past performance is not an accurate predictor of future performance.

- The laws affecting your investment in a managed investment scheme may change.
- The appropriate level of risk for you will depend on a range of factors including your age, investment time frames, where other parts of your wealth are invested and how tolerant you are to the possibility of losing some or all of your money in some years.

The key significant risks for the Fund are as follows:

Interest rate risk: The yield and face value of income securities can be affected by interest rate movements. In instances where interest rates rise, the face value of certain fixed rate securities may decline. Equally, in circumstances where interest rates decline, the yield of certain floating rate securities will drop to reflect the floating rate nature of the yield. Equally, longer term interest rate expectations have the ability to impact the value of longer dated fixed rate securities.

Market risk: Investment returns are influenced by the performance of markets as a whole. Economic, technological, political, environmental (including climate change), legal factors and market sentiment, can change. These changes may affect the value of investment markets, the Fund's investments and the value of the units.

Investment specific risk: The price of a specific investment of the Fund may be affected by market risk (above), but also by factors which are specific to that investment; for example, a circumstance or change impacting a particular company which has issued a bond in which the Fund has invested.

Liquidity risk: Under abnormal or difficult market conditions, some normally liquid assets may become illiquid, restricting our ability to sell them and to make withdrawal payments to Investors without a potentially significant delay. Withdrawals from the Fund may also need to be suspended or frozen.

Investment Manager risk: Like other investment managers, the Investment Manager's approach directly impacts the value of the Fund's performance. There is no guarantee the Fund will achieve its performance objective or produce results that are positive. Changes in key personnel within the Investment Manager may also impact the Fund's future return.

Fund risk: Risks specific to the Fund include the risk that the Fund could terminate and that the fees and costs payable by the Fund could change. There is also a risk that investing in the Fund may give different results than direct investing because of income or capital gains accrued in the Fund and the consequences of investments and withdrawals by other Investors. The Fund is a relatively new fund which does not have a substantial performance history. However, the investment methodology is broadly based on Oracle's Fixed Income Portfolio investment methodology.

Counterparty risk: There is a risk that a counterparty to a security may breach its obligations. This could include, but is not limited to, failing to make payments.

Foreign currency risk: If investment in assets in overseas jurisdictions are made by the Fund (directly or indirectly), movements in the exchange rate of the Australian dollar relative to other currencies can have a positive or negative impact on the Fund's investments when converted to Australian dollars.

5. How we invest your money

WARNING: You should consider the likely investment return, the risk and your investment timeframe when choosing an investment in the Fund.

You should read the important information about 'How we invest your money' before making a decision. Go to Section 1 of the Additional Information Booklet. The material relating to How we invest your money may change between the time when you read this PDS and the day when you acquire units.

5.1 Investment strategy

The investment strategy

The Investment Manager's strategy for the Fund is to invest in credit (income) securities issued by companies with strong management and with balance sheets that the Investment Manager considers display characteristics such as sufficient liquidity and low levels of gearing.

It is intended to achieve diversification over time, through investment in securities across a range of industries.

Investment portfolio

The Fund's investments will primarily comprise listed and unlisted (i.e. over the counter) Australian fixed income securities, including corporate bonds, and cash. Investments might be made in securities of global companies issued in Australia (or overseas), although it is expected that the investments will predominantly be in domestic securities.

The Fund does not invest in shares, derivatives or property.

5.2 Typical investment allocations

Investment type	Estimated Allocation
Cash	5%
Senior debt securities	40-45%
Subordinated debt securities*	30%
Hybrid securities**	20-25%

* Subordinated debt ranks behind senior debt in the hierarchy of creditors and is only payable after all claims by more senior creditors have been met.

** A Hybrid security is a fixed income product that combines the characteristics of both corporate bonds (debt) and shares (equity). Go to Section 1.1 of the Additional Information Booklet for further details.

6. Fees and costs

DID YOU KNOW?

Small differences in both investment performance and fees and costs can have a substantial impact on your long term returns.

For example, total annual fees and costs of 2% of your account balance rather than 1% could reduce your final return by up to 20% over a 30 year period (for example, reduce it from \$100,000 to \$80,000).

You should consider whether features such as superior investment performance or the provision of better member services justify higher fees and costs.

You may be able to negotiate to pay lower management costs. Ask the fund or your financial adviser.

TO FIND OUT MORE

If you would like to find out more, or see the impact of the fees based on your own circumstances, the Australian Securities and Investments Commission (ASIC) website (www.moneysmart.gov.au) has a managed funds fee calculator to help you check out different fee options.

6.1 Fees and other costs

The table below shows fees and other costs that you may be charged. These fees and costs may be deducted from the money you invest, from the returns on your investment or from the Fund's assets as a whole. The fees set out in the table below are inclusive of the net effect of GST (i.e. inclusive of GST and net of any reduced input tax credits expected to be available). You should read all the information about fees and costs as it is important to understand its impact on your investment. You can also use this information to compare costs with other simple managed investment schemes.

Fees and other costs

TYPE OF FEE OR COST	AMOUNT	HOW AND WHEN PAID
Ongoing annual fees and costs		
Management fees and costs¹ The fees and costs for managing your investment	Investment Manager fee – equal to 0.51% per annum, of the gross value of the Fund	Payable to the Investment Manager from the Fund, monthly in arrears
Other fees and expenses –	Estimated to range between 0.16% per annum and 0.19% per annum of the gross value of the Fund ^{2, 3 & 4}	Payable to the Investment Manager or Responsible Entity, monthly or otherwise as and when incurred

TYPE OF FEE OR COST	AMOUNT	HOW AND WHEN PAID
Performance fees Amounts deducted from your investment in relation to the performance of the product	Nil	Not applicable
Transaction costs The costs incurred by the scheme when buying or selling assets	Estimated to be 0.03% of gross assets per annum ^{2,3}	On certain purchases or sales of assets
Member activity related fees and costs (fees for services or when your money moves in or out of the scheme)		
Establishment fee The fee to open your investment	Nil	Not applicable
Contribution fee The fee on each amount contributed to your investment	Nil	Not applicable
Buy-sell spread An amount deducted from your investment representing costs incurred in transactions by the scheme	Nil	Not applicable
Withdrawal fee The fee on each amount you take out of your investment	Nil	Not applicable
Exit fee The fee to close your investment	Nil	Not applicable
Switching fee The fee for changing investment options	Nil	Not applicable

1. Based on the Fund's management fees and costs for the year ended 30 June 2022.
2. Based on the Fund having a gross asset value of between \$100 million and \$150 million.
3. See Section 6.3 for "Additional explanation of fees and costs". Also see Section 2 of the Additional Information Booklet.
4. Other fees and expenses of the Fund include Responsible Entity fees, and ordinary expenses which comprise annual tax and audit costs, fund administration fees, registry fees and custody costs. The Investment Manager has agreed to pay any such other fees and expenses of the Fund above 0.20% of gross value of the Fund per annum.

6.2 Example of annual fees and costs

This table gives an example of how the fees and costs for the Fund can affect your investment over a one-year period. You should use this table to compare this product with other managed investment products.

EXAMPLE – FUND		BALANCE OF \$50,000 WITH A CONTRIBUTION OF \$5,000 DURING THE YEAR
Contribution Fees	0%	For every additional \$5,000 you put in, you will be charged \$0.
PLUS Management fees and costs	0.70% per annum ¹	And , for every \$50,000 you have in the Fund you will be charged or have deducted from your investment \$350 each year.
PLUS Performance fees	0%	And , for every \$50,000 you have in the Fund you will be charged or have deducted from your investment \$0 each year.
PLUS Transaction costs	0.03%	And , for every \$50,000 you have in the Fund you will be charged or have deducted from your investment \$15 each year.
EQUALS Cost of Fund		If you had an investment of \$50,000 at the beginning of the year and you put in an additional \$5,000 during the year, you would be charged fees and costs of: \$365^{1,2} . What it costs you will depend on the fees you negotiate.

1. Based on the Fund having a gross asset value of \$100 million. If the Fund has a higher gross asset value, then this amount would be lower. For example, if the Fund has a gross asset value of \$150 million, the management and transaction costs would be 0.70% per annum and each year you would be charged \$350 for every \$50,000 you have invested in the Fund.
2. Management and transaction costs amount assumes a constant value of \$50,000 in the Fund for the whole year.

6.3 Additional explanation of fees and costs

Responsible Entity's fees

The Responsible Entity's fees are tiered, based upon the total value of assets in the Fund. See Section 2 of the Additional Information Booklet.

Changes to fees

The Constitution for the Fund allows for higher fees to be charged than those detailed in this PDS and specifies circumstances where additional fees may be charged. We will give Direct Investors 30 days' notice of any proposed increase in fees.

Removal/retirement fees

The Responsible Entity is entitled to be paid a removal/retirement fee equating to up to 4 years' of fees, if the Responsible Entity is removed or retires, prior to the fourth anniversary of the Fund acquiring its first investment, calculated based upon the gross value of the Fund's assets at the time the fee is calculated. For example, if the value of the Fund's assets at the time the Responsible Entity is removed was \$100 million and the removal took effect on the second anniversary of the term, then the Responsible Entity's removal fee would be approximately \$176,000 inclusive of GST (being \$160,000 exclusive of GST), based upon the Responsible Entity's management fees for a period of two years.

Removal/retirement fees will be paid from the assets of the Fund.

You should read the important information about fees and costs (including information about maximum fees, transaction costs) before making a decision. Go to Section 2 of the Additional Information Booklet. The material relating to fees and costs may change between the time when you read this PDS and the day when you acquire units.

7. How managed investment schemes are taxed

WARNING: Investing in a managed investment scheme, such as the Fund, is likely to have tax consequences for investors. The general comments below only relate to the tax consequences arising for investors who are Australian residents for tax purposes and who hold their investment on capital account. The taxation consequences for non-resident investors and investors who do not hold their investment on capital account will differ from the treatment outlined below. The general comments below relate to Australian taxation law as it exists at the date of this PDS and is subject to any future changes in Australian tax laws and tax office rulings.

You are strongly advised to seek professional taxation advice before you invest or deal with your investment.

Registered managed investment schemes generally do not pay tax on behalf of investors, rather investors are usually assessed for tax on income and capital gains generated by the scheme.

That is the case with the Fund. The Fund does not pay tax on behalf of Investors, and Investors are assessed for tax on any income and capital gains (if any) generated by the Fund. We will send you the information you need each year to help you to complete your tax return.

We will generally distribute income within 10 business days of the end of each month and generally within two months after 30 June. Distributions could comprise income (e.g. from distributions and interest), net taxable capital gains (from the sale of the Fund's investments) and tax credits.

If you decide to sell units in the Fund, then you may also be liable for tax on any capital gains realised.

You should read the important information about the taxation treatment of your investment before making a decision. Go to Section 3 of the Additional Information Booklet. The material relating to the taxation treatment of your investment may change between the time when you read this PDS and the day when you acquire the units.

8. How to apply

8.1 Investing in the Fund

- (a) Read this PDS and the Additional Information Booklet, as well as the Fund's TMD.
- (b) Consider whether this investment is suitable to your financial situation and needs, and consider all the risk factors set out in Section 4 of this PDS. If you have any questions, please contact us.
- (c) The minimum investment is \$5,000 and \$1,000 for any additional investments.
- (d) Please refer to the application form for details on how to complete the application form, how to pay your application money, where to lodge the application form and any relevant documentation.
- (e) The application form is available from the website or by contacting us.

An application is not considered complete until the registry provider has received the application money in cleared funds, a completed application form and all information referred to in that application form. Failure to provide a completed application may delay the processing of your application.

For Indirect Investors, please refer to your Investment Service operator for information on how to invest.

8.2 Cooling off

If investing as a Direct Investor who is a retail investor, then you have the right to a 14-day cooling off period on an investment you make in the Fund. The cooling off period will commence upon the earlier of the time you receive the investment confirmation statement, or the end of the fifth business day after we issue units to you. If you notify us of your desire to exercise your cooling off rights prior to the expiry of the 14-day period, then we will refund your investment, adjusted for reasonable transaction and administration costs and any changes in the value of issued units. Units issued as part of a distribution reinvestment plan are not subject to the cooling off provisions.

Indirect Investors should consult with their master trust or wrap service provider about any right to cooling off provisions, which may differ from those applying to investors who purchase units in the Fund directly.

8.3 Privacy and collection and disclosure of personal information

The Privacy Act 1998 (Cth) regulates, among other things, the collection, disclosure and access to personal information.

Certain laws require us to collect, store and disclose information about you (including personal information), for example, The Anti-Money Laundering and Counter-Terrorism Financing Act 2006 (AML/CTF Law), the Corporations Act 2001, the Foreign Account Tax Compliance Act (FATCA) and the Tax Laws Amendment (Implementation of the Common Reporting Standard) Act 2016 (CRS).

We may be required under the AML/CTF Law to provide information about you (including personal information) to the Australian Transaction Reports and Analysis Centre (AUSTRAC), the body responsible for regulating the AML/CTF Law. In respect of investors who are ordinarily resident in a country other than Australia, both FATCA and CRS may require us to collect and disclose to the Australian Taxation Office information about you (including personal information) obtained from you.

If you do not provide the information requested in our application form, we will not be able to process your application (including any application for additional units) and your application may be delayed or rejected. Where applications are delayed or refused, we are not liable for any loss you suffer (including consequential loss) as a result. Alternatively, if we accept your application to the Fund when you have not provided all of the requested information, we may provide information about you to the relevant regulator.

We will be required to share information about you (including personal information) with service providers to the Responsible Entity in respect of the Fund (including the Investment Manager) to ensure you receive the appropriate information and assistance in respect of your holding in the Fund.

By applying to invest in the Fund, you consent to your information (including your personal information) being collected, used and disclosed by the registry provider and by the Responsible Entity for the purposes disclosed above and in their respective Privacy Policies.

You are entitled to access, correct and update all personal information we hold about you. You can contact us to find out what personal information we hold about you or if you have any concerns about the completeness or accuracy of the information we hold. If you want us to correct any personal information we hold, please contact us using the details in this PDS.

A copy of our Privacy Policy is available on our website at www.oneinvestment.com.au and a paper copy will be sent to you free of charge on request.

8.4 Complaints

The Responsible Entity takes complaints seriously and aims to resolve all complaints as quickly as possible. In the first instance, if you have a complaint, then you should notify the Responsible Entity immediately using the following contact details:

Address: Level 16, Governor Macquarie Tower
1 Farrer Place, Sydney NSW 2000

Post: Complaints Officer
PO Box R1471
Royal Exchange NSW 1225

Phone: 02 8277 0000

Email: complaints@oneasset.com.au

Once the Responsible Entity receives a complaint, the Responsible Entity will acknowledge it as soon as practicable and investigate the complaint with a view to resolving it and responding as soon as possible.

If you are a retail Investor and you are not satisfied with the Responsible Entity's response, then you can refer your complaint to the Australian Financial Complaints Authority, an external complaints handling body of which we are a member. The role of this body is to provide you a free and independent assessment of your complaint. The Australian Financial Complaints Authority can be contacted as follows:

Post: Australian Financial Complaints Authority
GPO Box 3
Melbourne VIC 3001

Phone: 1800 931 678

Fax: +61 3 9613 6399

Email: info@afca.org.au
