9. Other information

This Product Disclosure Statement (**PDS**) is a summary of significant information about the Class I Units in the Arrowstreet Global Equity No. 2 Fund (**Fund**). It contains a number of references to additional important information contained in a separate information booklet (**Information Booklet**). This information forms part of the PDS and you should read the Information Booklet together with the PDS before making a decision to invest in the Fund. The information in this PDS and the Information Booklet may change from time to time. Where information that changes is not materially adverse to investors, we may update this information by updating the relevant document or by publishing an update at macquarieim.com/pds.

You can access a copy of the latest version of this PDS, the Information Booklet, the Target Market Determination (**TMD**) for the Fund and any updated information free of charge by contacting us.

The information provided in the PDS and the Information Booklet is general information only and does not take account of your personal financial situation or needs. You should obtain your own financial advice tailored to your personal circumstances.

This offer is only open to persons receiving this PDS and the Information Booklet within Australia and New Zealand or any other jurisdiction approved by us.

Without limiting the above, the offer is only open to persons who are (a) not a 'U.S. person' for the purposes of Regulation S under the U.S. Securities Act of 1933, and (b) a 'Non-United States person' as defined in Section 4.7(a)(1)(iv) of the rules of the U.S. Commodity Futures Trading Commission.

Other than Macquarie Bank Limited ABN 46 008 583 542 (**Macquarie Bank**), any Macquarie Group entity noted in this material is not an authorised deposit-taking institution for the purposes of the Banking Act 1959 (Commonwealth of Australia). The obligations of these other Macquarie Group entities do not represent deposits or other liabilities of Macquarie Bank. Macquarie Bank does not guarantee or otherwise provide assurance in respect of the obligations of these other Macquarie Group entities. In addition, (a) the investor is subject to investment risk including possible delays in repayment and loss of income and principal invested, and (b) none of Macquarie Bank, or any other Macquarie Group entity, guarantees any particular rate of return on or the performance of the investment nor do they guarantee repayment of capital in respect of the investment.

Unless otherwise stated, all references to 'dollars' or '\$' herein refer to Australian dollars.

Warning statement for New Zealand investors

- a) This offer to New Zealand investors is a regulated offer made under Australian and New Zealand law. In Australia, this is Chapter 8 of the Corporations Act 2001 (Aust) and regulations made under that Act. In New Zealand, this is sub-part 6 of Part 9 of the Financial Markets Conduct Act 2013 and Part 9 of the Financial Markets Conduct Regulations 2014.
- b) This offer and the content of the PDS and Information Booklet are principally governed by Australian rather than New Zealand law. In the main, the Corporations Act 2001 (Aust) and the regulations made under that Act set out how the offer must be made.
- c) There are differences in how financial products are regulated under Australian law. For example, the disclosure of fees for managed investment schemes is different under the Australian regime.
- d) The rights, remedies and compensation arrangements available to New Zealand investors in Australian financial products may differ from the rights, remedies and compensation arrangements for New Zealand financial products.
- e) Both the Australian and New Zealand financial markets regulators have enforcement responsibilities in relation to this offer. If you need to make a complaint about this offer, please contact the Financial Markets Authority, New Zealand (<http://www.fma.govt.nz>). The Australian and New Zealand regulators will work together to settle your complaint.
- f) The taxation treatment of Australian financial products is not the same as for New Zealand financial products.
- g) If you are uncertain about whether this investment is appropriate for you, you should seek the advice of a financial advice provider.
- h) The offer may involve a currency exchange risk. The currency for the financial products is not New Zealand dollars. The value of the financial products will go up or down according to changes in the exchange rate between that currency and New Zealand dollars. These changes may be significant.
- i) If you expect the financial products to pay any amounts in a currency that is not New Zealand dollars, you may incur significant fees in having the funds credited to a bank account in New Zealand in New Zealand dollars.*
- j) The dispute resolution process described in the Information Booklet is available only in Australia and is not available in New Zealand.

* Redemptions and distributions of income will only be paid in Australian dollars to an Australian bank account.

Arrowstreet Global Equity No. 2 Fund – Class I Units

Product Disclosure Statement – 8 July 2024

1. About Macquarie Investment Management Australia Limited

Macquarie Investment Management Australia Limited (**Macquarie, we, us, our**) is the responsible entity of the Fund. We are responsible for the investment decisions, management and administration of the Fund. We may delegate some of these duties, including investment management functions, to third parties. Macquarie forms part of Macquarie Asset Management, which is Macquarie Group's asset management business.

Macquarie Asset Management is an integrated asset manager across public and private markets offering a diverse range of capabilities including real assets, real estate, credit, and equities and multi-asset. Macquarie Asset Management also selects specialist investment managers to bring their signature strategies to you through the Macquarie Professional Series.

The Fund invests in the Arrowstreet Global Equity Fund (**Underlying Fund**), managed by Arrowstreet Capital, Limited Partnership (**Arrowstreet**). Arrowstreet is an independent private partnership that serves as a discretionary institutional global equity manager. It is wholly-owned and controlled by members of the firm's senior management and non-executive directors. It was founded in June 1999 and its principal place of business is located in Boston, Massachusetts.

We have appointed Macquarie Investment Management Global Limited (ABN 90 086 159 060 AFSL 237843) (**Investment Manager**), part of Macquarie Asset Management, as investment manager of the Fund.

2. How the Arrowstreet Global Equity No. 2 Fund – Class I Units works

The Fund is a unit trust registered under the Corporations Act 2001 (Cth) (**Corporations Act**) as a managed investment scheme. Each investor's investment amount is pooled and invested in the manner described in Section 5.

The constitution of the Fund provides for different classes of units. A unit gives an investor a beneficial interest in the Fund's assets attributable to the class of units to which the unit belongs, but not an entitlement to, or interest in, any particular asset of the Fund.

This PDS applies to the Class I Units in the Fund (referred to in this PDS, as '**units**' or the '**Class**'). The terms of the units, including an investor's rights and obligations, are set out in this PDS, the Information Booklet and the Fund's constitution (which we can provide to you on request). The constitution can be amended in certain circumstances. We can amend the constitution without your consent if we reasonably consider that the amendments will not adversely affect investors' rights. Otherwise, we must obtain the approval of the required number of unitholders at a meeting of unitholders (a resolution may bind you, regardless of how or whether you vote).

A reference in this PDS to '**Business Day**' means a day (other than a Saturday, Sunday, public holiday or bank holiday) on which banks are open for general banking business in Sydney.

Unit pricing

The price of a unit will generally be calculated each Business Day, and will be based on the value of the Fund's assets attributable to the Class, less liabilities attributable to the Class, divided by the number of units in the Class on issue (the **net asset value unit price**). The price of units will vary as the market value of the Fund's assets and liabilities, attributable to the Class, rises or falls.

Application and redemption prices take into account our estimate of transaction costs (the **buy/sell spread**), and as a result, the application price will be higher than the net asset value unit price (by the amount of the buy spread), and the redemption price will be lower than the net asset value unit price (by the amount of the sell spread). See Section 6 for further details on the buy/sell spread.

How to invest and access your money

Making initial and additional investments in the Fund

Application cut-off time (Application Cut-off) ¹	Minimum initial investment amount ¹
1.00pm Sydney time on a Business Day	\$100,000,000

¹ Or as we determine otherwise.

You can apply to make an initial investment in the Fund by completing the application form accompanying this PDS (**Application**). Unless we agree otherwise, where we receive an Application (including any required identification documentation) completed and duly authorised to our satisfaction before the Application Cut-off on a Business Day, with funds received on the same day, you will generally receive the application price for that Business Day. Unless we agree otherwise, if we receive an Application (including any required identification documentation) completed and duly authorised to our satisfaction on a Business Day but after the Application Cut-off, or on a non-Business Day, with funds received by the next Business Day, you will generally receive the application price for the next Business Day. Please note that we will not accept an Application until it has been completed and duly authorised to our satisfaction and we have received all required identification documentation.

For Electronic Funds Transfer (**EFT**)/bank transfer or Real Time Gross Settlement (**RTGS**), if funds are not received by us on the same Business Day that we receive the Application (if received before the Application Cut-off on a Business Day) or the next Business Day (if we received the Application after the Application Cut-off on a Business Day or a non-Business Day), then, unless we determine otherwise, the Application will not be accepted and you will need to notify us if you make the payment at a later date. Please refer to 'Paying your investment amount' in Section 2 of the Information Booklet for more information.

Applications made by direct debit may take up to four Business Days before the amount is invested and units are issued but may take longer in certain circumstances. If a direct debit fails, the Application will be rejected.

You can add to your investment at any time by EFT/bank transfer or RTGS. Please refer to the Information Booklet for more information..

We may accept or reject an application (in whole or in part) at our discretion (without giving reasons). See Section 8 for more details on how to apply.

Redeeming your investment

Redemption cut-off time (Redemption Cut-off) ¹	Minimum balance amount ^{1,2}
1.00pm Sydney time on a Business Day	\$100,000,000

¹ Or as we determine otherwise.

² If acceptance of a redemption request will result in a balance of less than the minimum balance amount, we may either reject the redemption request, transfer your investment into a different class of units (if available) if the value of your holding meets the minimum investment or balance amount which applies to that class of units, or treat the redemption request as relating to your entire holding. Different fees and costs may apply to different classes of units, and there may be tax implications for transfers between different classes of units.

You can generally request redemption of all or part of your investment in the Fund by writing to us or by completing a redemption request form which you can download at macquarie.com/redemptionform. Alternatively, you can provide a signed request specifying the account name, the Fund name, the amount or number of units to be withdrawn, and bank details. You can send your redemption request by email, mail or such other method agreed by us.

Where we receive a redemption request, completed and duly authorised to our satisfaction, before the Redemption Cut-off on a Business Day, investors will generally receive the redemption price calculated that Business Day. Unless we agree otherwise, if we receive a redemption request, completed and duly authorised to our satisfaction on a Business Day but after the Redemption Cut-off, or on a non-Business Day, we will generally treat the request as having been received before the Redemption Cut-off on the next Business Day. Please note that we will not treat a request as having been received or accepted until it has been completed and duly authorised to our satisfaction. Before paying you the redemption amount, we may deduct from that amount any money you owe us in relation to your investment. Redemption proceeds will generally be paid within five Business Days after we accept the redemption request.

Potential delay of redemptions

In some circumstances, such as where there is a suspension of redemptions, investors may not be able to redeem their investment within the usual period or at all.

It is also important to note that under the terms of the constitution, we:

- may accept or reject a redemption request (in whole or in part) at our discretion (without giving reasons), and
- are able to change the time by which a redemption request must be lodged and/or the days on which redemptions will be available at our discretion.

Where a redemption request is accepted by us, the Fund's constitution generally allows us up to 21 days after acceptance of the

request to pay the redemption proceeds. This may be extended if due to events we could not reasonably foresee or that are wholly or partly outside our reasonable control:

- payment of all or part of the redemption amount is not in the interests of unitholders as a whole, is materially adverse to unitholders as a whole or is not fair to the remaining unitholders, or
- market conditions are such that liquidation of the Fund's assets to facilitate the redemption is difficult, not desirable or impossible (such as where there is restricted liquidity or suspended trading in a market for the assets of the Fund).

Distributions

The Fund may receive income and gains from its investments. We will generally seek to distribute any net income on a semi-annual basis and any net realised capital gains at least once a year.

Distributions will be calculated based on the net income and net realised capital gains of the Fund. However, distributions may include capital paid out of the Fund. Unit prices may fall as a result of the allocation of the distributions to unitholders.

You may elect to have your distributions paid directly into a nominated Australian financial institution account or to have your distributions reinvested as additional units. If you do not make an election, your distributions will be reinvested.

You should read the important information about **how the Fund works** including additional information on how to invest and access your money, unit pricing methodology and potential delay of redemptions before making a decision. Go to Section 2 of the Information Booklet available by contacting us. The material relating to how the Fund works may change between the time when you read this statement and the day when you acquire the product.

3. Benefits of investing in the Arrowstreet Global Equity No. 2 Fund – Class I Units

Significant features

- Provides exposure to a diversified portfolio of global equities which may include securities listed in emerging and frontier markets as well as securities of small and micro capitalisation companies by investing in the Arrowstreet Global Equity Fund (**Underlying Fund**).
- Provides exposure to an actively managed strategy using a quantitative approach and stock selection modelling to evaluate securities on an integrated basis to exploit tactical opportunities across different factors to maximise returns with the aim of controlling risk relative to the Benchmark.

Significant benefits

- Potential for higher long-term returns compared to the Benchmark.
- Potential for exploiting multiple sources of returns and outperforming the Benchmark across various market conditions.
- Access to the knowledge and investment expertise of Arrowstreet.

You should read the important information about **additional features and benefits** of the Fund before making a decision. Go to Section 3 of the Information Booklet available by contacting us. The material relating to additional features and benefits of the Fund may change between the time when you read this statement and the day when you acquire the product.

4. Risks of managed investment schemes

All investments carry risk. Different investments carry different levels of risk, depending on the investment strategy and the underlying investments. Generally, the higher the potential return of an investment, the greater the risk (including the potential for loss and unit price variability over the short term). When you make an investment, you are accepting the risks of that investment. It is important to understand these risks before deciding to invest.

The level of risk that you are willing to accept will depend on a range of factors including your financial objectives, risk tolerance, age, investment timeframe and where other parts of your wealth are invested. The value of your investment and the returns from your investment will vary over time. Future returns may differ from past returns. We do not guarantee the returns of the Fund and you may lose some or all of the money that you have invested. The significant

Arrowstreet Global Equity No. 2 Fund – Class I Units

Product Disclosure Statement – 8 July 2024

risks of the Fund are described below but other risks may also adversely affect the Fund. You should seek your own professional advice on the appropriateness of this investment for your particular circumstances and financial objectives.

Investment risk: The Fund has exposure to share markets. The risk of an investment in the Fund is higher than an investment in a typical bank account or fixed income investment. Amounts distributed to unitholders may fluctuate, as may the Fund's unit price, by material amounts over short periods.

Market risk: The investments that the Fund has exposure to are likely to have a broad correlation with share markets in general. Share markets can be volatile and have the potential to fall by large amounts over short periods of time. Poor performance or losses in domestic and/or global share markets are likely to negatively impact the overall performance of the Fund.

International, emerging and frontier market risk: The Fund has exposure to a range of international economies, including emerging and frontier economies. Global and country specific macroeconomic factors may impact the investments that the Fund has exposure to. Governments may intervene in markets, industries, and companies; may alter tax and legal regimes; and may act to prevent or limit the repatriation of foreign capital. Emerging and frontier markets may experience lower liquidity (including as a result of securities or bond markets being closed for extended periods), potential for political unrest leading to recession or war, greater potential for sanctions to be imposed on the country or its citizens, companies or institutions, increased likelihood of sovereign intervention (including default and currency intervention), currency volatility, and increased legal risk. These risks are heightened for frontier markets.

Small and micro cap companies risk: The Fund may have exposure to companies considered small or micro in terms of market capitalisation. Companies within this sector of the market may include recently established entities with limited public information, or entities engaged in new-to-market concepts which may be speculative in nature. Shares in companies in this sector are generally less liquid and more volatile than those of larger companies. Small and micro cap companies exposure may result in higher unit price volatility and an increased risk of loss.

Security specific risk: Securities and the companies that issue them are exposed to a range of factors that affect their individual performance. These factors may cause an investment's return to differ from that of the broader market. The Fund may therefore underperform the market and/or its peers due to its security specific exposures.

Strategy and model risk: Arrowstreet uses forecasting models that combine the experience and judgement of Arrowstreet's investment team with quantitative analysis to forecast individual stock returns. However these models may not successfully select profitable investments, manage risk or perform in a manner to which they have historically performed or were intended to perform. This may have an adverse effect on the performance and unit price of the Fund.

Currency risk: The Fund has exposure to investments denominated in currencies other than Australian dollars. Currency risk is the risk that fluctuations in exchange rates impact the Australian dollar

value of the foreign investments that the Fund has exposure to. The Underlying Fund may also take active foreign currency positions with the aim of profiting from foreign exchange rate movements. Such positions may increase the Underlying Fund's currency risk, which may lead to increased volatility of the Underlying Fund's unit price, and may impact its overall performance and therefore, the overall performance of the Fund.

Manager risk: There is no guarantee that the Fund will achieve its performance objectives, produce returns that are positive, or compare favourably against its peers, or that the strategies or models used by the investment manager of the Underlying Fund will produce favourable outcomes.

Class risk: The class of units offered under this PDS has been established as a separate class of units in the Fund. The assets and liabilities of a class of units in the Fund are not segregated from the assets and liabilities of other classes of units in the Fund. This means that investors in a class of units are exposed to the liabilities of other classes of units in the Fund, and vice versa, and that there is a risk that investors in a class of units could lose some or all of their investment as a result of exposure to the liabilities of another class. The Fund may have other classes of units on issue and we may, at our discretion, create new classes of units in the Fund in the future.

Liquidity risk: Investments may be difficult or impossible to sell, either due to factors specific to that security, or to prevailing market conditions, resulting in a loss to the Fund or delays in redemption processing or even the suspension of redemptions. If we are required to process a large redemption or application, the exposure of the Fund to particular investments, sectors or asset classes may be altered significantly due to the security sales or purchases required.

Derivatives risk: The Underlying Fund may use derivatives to manage the currency risk and/or to seek return opportunities arising from differences in the currency weights of the Underlying Fund's investments compared to the currency weights of securities held in its benchmark. The use of derivatives may expose the Fund to risks including counterparty default, legal and documentation risk.

Underlying Fund risk: Through its investment in the Underlying Fund, the Fund is exposed to the risks of the Underlying Fund including investment performance, liquidity, management, default and counterparty risk.

Default risk: Issuers of securities that the Fund has exposure to may default on their obligations, for instance by failing to make a payment due or by failing to return principal. Counterparties to the Fund and/or the Underlying Fund may default on a contractual commitment. Default on the part of an issuer or counterparty could result in a loss to the Fund.

Force majeure risk: The investment manager of the Underlying Fund, or issuers or counterparties of investments that the Fund holds or has exposure to may be impacted by an event beyond the control of that party which affects that party's ability to perform its obligations and may cause losses to the Fund. This includes events such as fire, flood, earthquakes, pandemic, war, terrorism and labour strikes.

Regulatory and legal risk: Laws and regulatory policy affecting registered managed investment schemes may change in the future and have an adverse impact on the Fund.

5. How we invest your money

You should consider the likely investment return, the risks involved and your investment timeframe when deciding whether to invest in the Fund.

Arrowstreet Global Equity No. 2 Fund – Class I Units

Fund objective	The Fund aims to achieve a long-term total return (before fees and expenses) that exceeds the MSCI All Country World ex Australia Index, in \$A unhedged with net dividends reinvested (Benchmark).
-----------------------	--

Arrowstreet Global Equity No. 2 Fund – Class I Units

Description of the Fund	<p>The Fund provides exposure to a diversified portfolio of global equities which may include securities listed in emerging and frontier markets as well as securities of small and micro capitalisation companies by investing in the Arrowstreet Global Equity Fund (Underlying Fund).</p> <p>The Underlying Fund is actively managed using a quantitative approach and stock selection modelling to evaluate securities on an integrated basis to exploit tactical opportunities across different factors with the aim of controlling risk relative to its benchmark and maximising the likelihood of outperforming its benchmark. Arrowstreet's stock selection models are designed to:</p> <ul style="list-style-type: none">• understand what information is likely to impact stock prices and obtain the information to forecast individual stock returns by evaluating a stock's potential on the basis of a diverse set of direct and indirect effects, and• identify particular signals or segments of the market that exhibit the greatest mispricing (or inefficiencies) at any point in time. <p>For more information about Arrowstreet's investment process, go to Section 5 of the Information Booklet. The Underlying Fund may use derivatives on an active currency basis; that is, to manage currency risk and/or to seek return opportunities arising from differences in the currency weights of the Underlying Fund's investments compared to the currency weights of securities held in its benchmark. However, the Fund's exposure to foreign currencies is not hedged back to Australian dollars.</p>						
Asset allocation ¹	Global equities: 95% – 100% Cash: 0% – 5%						
Benchmark	MSCI All Country World ex Australia Index, in \$A unhedged with net dividends reinvested						
Suggested minimum investment timeframe	Seven years						
Inception date	15 June 2021						
Standard Risk Measure (SRM)	1 Very low	2 Low	3 Low to medium	4 Medium	5 Medium to high	6 High	7 Very high
	We have calculated the SRM based on industry guidance. Please note that the SRM is not a complete assessment of all forms of investment risk. Go to Section 5 of the Information Booklet for more information. Refer to Section 4 for more information on the risks of an investment in the Fund.						
Target investors	The Fund may be suitable for investors who are looking for an investment with the objective of the Fund listed above and are prepared to accept the risks of the Fund set out in Section 4. A Target Market Determination (TMD) for the Fund, which includes a description of the class of consumers for whom the Fund is likely to be consistent with their objectives, financial situation and needs, is available at macquarieim.com/TMD .						
Changes to the Fund	We may make changes to the Fund from time to time or terminate the Fund. We will provide such notice as required by the Corporations Act or constitution of the Fund.						
Fund performance	Performance history information can be obtained from our website at macquarie.com.au/performance or by calling Client Service. Past performance is not a reliable indicator of future returns, which can differ materially.						

¹ The above ranges are indicative only. The Underlying Fund will be rebalanced within a reasonable period of time should the exposure move outside these ranges. The Underlying Fund may invest in exchange-traded funds and may trade futures to gain exposure to global equity markets.

You should read the important information about **how we invest your money** including Arrowstreet's investment process for the Underlying Fund, ethical investments, switching and calculating the performance of the Fund before making a decision. Go to Section 5 of the Information Booklet available by contacting us. The material relating to how we invest your money may change between the time when you read this statement and the day when you acquire the product.

6. Fees and other costs

DID YOU KNOW?

Small differences in both investment performance and fees and costs can have a substantial impact on your long-term returns. For example, total annual fees and costs of 2% of your account balance rather than 1% could reduce your final return by up to 20% over a 30-year period (for example, reduce it from \$100,000 to \$80,000).

You should consider whether features such as superior investment performance or the provision of better member services justify higher fees and costs.

You may be able to negotiate to pay lower fees. Ask the Fund or your financial adviser.

TO FIND OUT MORE

If you would like to find out more, or see the impact of the fees based on your own circumstances, the **Australian Securities and Investments Commission (ASIC)** Moneysmart website (www.moneysmart.gov.au) has a managed funds fee calculator to help you check out different fee options.

Arrowstreet Global Equity No. 2 Fund – Class I Units

Product Disclosure Statement – 8 July 2024

This section shows fees and other costs that you may be charged. These fees and costs may be deducted from your investment, from the returns on your investment or from the assets of the managed investment scheme attributable to the Class. Different fees and costs may apply to different classes of units in the Fund. Taxes are set out in another part of this PDS.

You should read all of the information about fees and other costs as it is important to understand their impact on your investment. You can use this information to compare costs between different simple managed investment schemes.

Fees and costs summary – Arrowstreet Global Equity No. 2 Fund (Class I Units)

Type of fee or cost	Amount	How and when paid
Ongoing annual fees and costs		
Management fees and costs The fees and costs for managing your investment	0.807% pa comprising: Management fee ¹ – 0.750% pa of the net asset value of the Class Estimated fund expenses and indirect costs ^{2,3} – 0.057% pa of the net asset value of the Class comprising: • Fund expenses – 0.000% pa • Indirect costs ⁴ – 0.057% pa	Accrues daily and is payable monthly, in arrears, generally within 30 days of the end of the month. Deducted from the Fund's assets and reflected in the Class unit price. Generally deducted from the Fund's assets or an underlying fund's assets, reflected in the Class unit price and paid when incurred.
Performance fees Amounts deducted from your investment in relation to the performance of the product	Fund – Nil Underlying funds – Not applicable	While we have a right under the Fund's constitution to charge a performance fee, we do not currently charge a performance fee and, as at the date of preparation of this PDS, do not intend to charge a performance fee. Prior to implementing a performance fee, we will give any notice required under the Corporations Act. Where payable, generally deducted from the Fund's assets on a periodic basis and reflected in the Class unit price.
Transaction costs The costs incurred by the Fund when buying or selling assets ³	Estimated to be 0.000% pa of the net asset value of the Class	Deducted from the Fund's assets, reflected in the Class unit price and are generally paid when incurred.
Member activity related fees and costs (fees for services or when your money moves in or out of the Fund)		
Establishment fee The fee to open your investment	Not applicable	Not applicable
Contribution fee The fee on each amount contributed to your investment	Not applicable	Not applicable
Buy/Sell spread An amount deducted from your investment representing costs incurred in transactions by the Fund	As at the date of preparation of this PDS, is: • 0.16% added to the net asset value unit price on application, and • 0.17% subtracted from the net asset value unit price on redemption, but we may vary this from time to time. Latest buy/sell spreads are posted at macquarie.com.au/daily_spreads .	Buy/Sell spreads may apply to the Fund. The buy/sell spread is reflected in the application price and redemption price respectively and is not separately charged to the investor. Refer to 'Buy/Sell spread' in Section 6 of the Information Booklet for more information.
Withdrawal fee The fee on each amount you take out of your investment	Not applicable	Not applicable
Exit fee The fee to close your investment	Not applicable	Not applicable
Switching fee The fee for changing investment options	Not applicable	Not applicable

Unless stated otherwise, all fees are shown inclusive of GST and net of any input tax credits (ITCs) and/or reduced input tax credits (RITCs) and are shown without any other adjustment in relation to any tax deduction available to us. The proportion of GST paid on the fees that can be recovered by the Fund as RITCs or otherwise varies. The fees paid by the Fund will equal the rates disclosed in this section (inclusive of GST, net of ITCs and/or RITCs) regardless of the rate of GST recovery in any period.

1 May be negotiated if you are a wholesale client under the Corporations Act and subject to compliance with applicable regulatory requirements. Refer to 'Differential fees' below for more information.

2 May include fund expenses and/or indirect costs of underlying funds. We do not currently seek reimbursement from the Fund for administrative expenses of the Fund. Abnormal expenses will generally be paid by the Fund. Refer to Section 6 of the Information Booklet for more information.

3 Based on historical fees and costs. Past fees and costs may not be a reliable indicator of future fees and costs. Actual fees and costs may vary significantly each year. See 'Transaction costs' below and Section 6 of the Information Booklet for more information.

4 Relate to costs associated with over-the-counter derivatives, which are required by fees and costs disclosure obligations to be classified as indirect costs.

Example of annual fees and costs for the Fund

This table gives an example of how the ongoing annual fees and costs in the Fund can affect your investment over a 1-year period. You should use this table to compare the Fund with other products offered by managed investment schemes.

Example		Balance of \$100,050,000 with a contribution of \$5,000 during year
Contribution fees	Not applicable	For every additional \$5,000 you put in, you will be charged \$0.00 .
PLUS Management fees and costs	0.807% pa ¹	And , for every \$100,050,000 you have in the Class, you will be charged or have deducted from your investment \$807,403.50 each year.
PLUS Performance fees	Nil	And , you will be charged or have deducted from your investment \$0.00 in performance fees each year.
PLUS Transaction costs ²	0.000% pa	And , you will be charged or have deducted from your investment \$0.00 in transaction costs.
EQUALS Cost of Fund		If you had an investment of \$100,050,000 at the beginning of the year and you put in an additional \$5,000 during that year, you would be charged fees and costs of \$807,403.50 . ³ What it costs you will depend on the fees you may be able to negotiate.

1 Calculated using the fees and estimated past costs as a percentage of the average net asset value of the Class for the previous financial year. It is not a forecast of the fees and costs, which may be higher or lower in the future.

2 Calculated using the estimated costs as a percentage of the average net asset value of the Class for the previous financial year. It is not a forecast of the costs, which may be higher or lower in the future.

3 Assumes there is no variation in the value of the investment and the additional investment of \$5,000 is made at the end of the period. The value attributable to the Class may fluctuate daily and therefore, the actual fees and costs charged may vary accordingly.

Additional explanation of fees and costs

Transaction costs

Transaction costs incurred by the Fund or an underlying fund that the Fund invests in (such as brokerage, clearing costs, hedging costs, settlement costs, transaction fees, taxes and stamp duty) will generally be incurred as part of the management of the Fund. Transaction costs may be incurred directly by the Fund or, where applicable, indirectly through an underlying fund. These costs are deducted from the Fund's or an underlying fund's assets and reflected in the Class unit price. They are generally paid when incurred. They are not amounts paid to us, the Investment Manager or Arrowstreet.

The buy/sell spread charged to investors offsets some or all of the transaction costs incurred by the Fund which may include costs incurred as part of the ordinary trading activities of the Fund rather than the particular application or redemption. We may vary the buy/sell spread from time to time, including by material amounts. We will not provide prior notice of a change to the buy/sell spread. Please check macquarie.com.au/daily_spreads for the latest buy/sell spread prior to applying for, or redeeming, units in the Fund.

The estimated gross transaction costs for the Class for the previous financial year were 0.209% of the net asset value attributable to the Class. The estimated transaction costs shown in the 'Fees and costs summary' table above are net of any buy/sell spread that was charged by the Fund for that period. When the transaction costs exceed the amount of the buy/sell spread charged, the transaction costs are not fully recovered and so are an additional cost to you.

As required by fees and costs disclosure obligations, the transaction costs do not include market impact costs, implicit transaction costs, borrowing costs or property operating costs. However, these costs may be borne by the Fund as part of its trading activities, and market impact costs and other implicit transaction costs are taken into account in calculating the buy/sell spread.

The transaction costs disclosed (including the buy/sell spread for the Class) are based on information available as at the date of the preparation of this PDS and assumptions that we consider reasonable. The transaction cost amounts are not forecasts of the total transaction costs in the future. The amount of transaction costs, including buy/sell spreads, may be higher or lower in the future.

Refer to the Information Booklet for further details.

Differential fees

We, or the Investment Manager, may negotiate with wholesale clients (as defined in the Corporations Act) differential fees, payments or rebates as permitted by the Corporations Act and ASIC relief. There is no set manner or method of negotiating fees, payments or rebates. Refer to 'Differential fees' in Section 6 of the Information Booklet and contact Client Service for more information. Client Service contact details are stated on the front page of the PDS.

Tax

Refer to Section 7 for information about tax.

Information about fee changes

We may change the amount of the fees without your consent (up to any maximum that is allowed under the Fund's constitution). If we increase the fees, we will provide you with at least 30 days written advance notice. We cannot charge more than the constitution of the Fund allows, unless we obtain investors' approval to do so. Under the constitution, the maximum fees (exclusive of the net effect of GST) are:

- a maximum contribution fee of 5% of the investment amount
- a maximum withdrawal fee of 5% of the withdrawal amount
- a maximum management fee of 5.5% pa of the net asset value of the Fund and/or the net asset value of the assets attributable to a class of units in the Fund, and
- a maximum performance fee rate of not more than 50% of the cumulative outperformance of the Fund and/or of the assets attributable to a class of units in the Fund over the Benchmark, subject to a high watermark.

Additional fees may be paid by you to your financial adviser. You should refer to the statement of advice provided by your adviser for details of those fees.

You should read the important information about **fees and costs** including additional services and charges before making a decision. Go to Section 6 of the Information Booklet available by contacting us. The material relating to fees and costs may change between the time when you read this statement and the day when you acquire the product.

Arrowstreet Global Equity No. 2 Fund – Class I Units

Product Disclosure Statement – 8 July 2024

7. How managed investment schemes are taxed

Investing in a registered managed investment scheme is likely to have tax consequences. The information contained in the following summary is intended to be of a general nature only. It does not constitute tax advice and should not be relied on as such. You are strongly advised to seek independent professional advice on the tax consequences of an investment in the Fund, based on your particular circumstances, before making an investment decision.

The Fund has elected into the Attribution Managed Investment Trust (AMIT) regime. Under the AMIT regime, investors will be attributed (and assessed for tax) on income (including any capital gains) of the Fund on a fair and reasonable basis for each relevant financial year.

Where the Fund is not an AMIT, investors in the Fund will be presently entitled to the entire amount of the income of the Fund for each relevant financial year and will be assessed for tax on their share of the net income of the Fund (including any net capital gains) for a financial year.

The Fund should not be liable for Australian income tax under present income tax legislation.

Capital gains or income arising from a significant redemption may be attributed or distributed to the redeeming investor on a fair and reasonable basis. A significant redemption is generally one where an investor's redemptions for the financial year are 5% or more of the Fund's net asset value. However, where permitted by the Fund's constitution, this may be less than 5% of the Fund's net asset value where we believe it is fair and reasonable. Please contact us if you require further information.

You should read the important information about the **additional taxation matters** relating to managed investment schemes before making a decision. Go to Section 7 of the Information Booklet available by contacting us. The material relating to the additional taxation matters relating to managed investment schemes may change between the time when you read this statement and the day when you acquire the product.

8. How to apply

You should read this PDS, together with the information contained in the Information Booklet, which you can request from Client Service.

Direct investors should complete the application form that accompanies this PDS. You can send the completed application form and required identification documentation to us by mail or email. If you email your identification documentation to us, we may request certified copies of the originals to follow in the mail for our records and your account may not be opened until they have been received.

If you are an indirect investor investing through an investor directed portfolio service (IDPS), please contact your financial adviser or IDPS operator for details of how to invest in the Fund.

Cooling-off period

If you are a 'retail client' under the Corporations Act, you can terminate your investment in the Fund during the period of 14 days starting on the earlier of the time when you receive confirmation of issue of units in the Fund to you or the end of the fifth Business Day after the units are issued to you. Your refund will be processed as a redemption and the redemption value will be reduced or increased for market movements since your investment. We will also deduct any tax or duty that is paid or payable by the Fund, any reasonable administration or transaction costs incurred as well as the sell spread.

As a result, the amount returned to you may be less than your original investment. To exercise your cooling-off rights, please write to Client Service.

Enquiries and complaints

You may contact your financial adviser or Client Service if you have any enquiries or complaints. If you have a complaint, please contact us and we will do our best to resolve any matter quickly and fairly. Written complaints can be sent to us at:

The Complaints Officer
Macquarie Investment Management Australia Limited
PO Box R1723
Royal Exchange NSW 1225 Australia

You should read the important information about **dispute resolution** before making a decision. Go to Section 8 of the Information Booklet available by contacting us. The material relating to dispute resolution may change between the time when you read this statement and the day when you acquire the product.

9. Other information

You should read the important information about **our legal relationship with you** before making a decision. Go to Section 9 of the Information Booklet available by contacting us. The material relating to our legal relationship with you may change between the time when you read this statement and the day when you acquire the product.
